Dear CHARLOTTE HUNTER

APPOINTMENT FOR DIABETIC EYE SCREENING

Some people with diabetes can develop a condition affecting the eye called retinopathy, which can lead to partial loss of vision or possible blindness. Research has shown that regular screening for retinopathy in people with diabetes, and treatment for those affected, can reduce the risk of people losing their sight.

As part of a national screening programme for people with diabetes, you will be invited annually, depending on your last screening outcome, to arrange and attend an appointment for diabetic eye screening. This screening appointment will involve the photographing of each eye using a digital camera.

An appointment has been made for you for your eye screening as follows:

Time:	12:00 PM
Date:	Friday, 28 August 2026
Venue:	Randolph Wemyss Hospital, Consulting Room 1, Wellesley Road, Buckhaven, Leven, Fife, KY8 1HU

It is important that you attend this appointment. If you find that you cannot attend at this time, please let us know as soon as possible on 01592-226852 Mon-Fri 9.15-13.15. We will then be able to re-arrange your appointment.

We may need to put eye drops into your eye(s), in which case you should note that your vision could be blurred for several hours, therefore it would not be advisable to drive after your appointment. If you wear spectacles, please remember to bring them with you.

If you require Patient Transport please call 0300 123 1236. If booking transport, please make your appointment in the morning. If you are having transport difficulties in getting to your appointment, please contact the DES Admin team on the number shown above.

You may receive a text appointment reminder to your mobile. We are introducing this service currently. You can opt out of this service by calling 01592-226852

Yours sincerely
