Calder Road,
EDINBURGH.

Dear Dr. Mackie,

Re: Amanda Lynch, 53/3 Wester Hailes Drive, Edinburgh (1.9.72)

Further to your letter of referral we have sent for this child on a number of occasions and she has failed to attend the Outpatient Department. In these circumstances we can take no further action and no further appointment are being sent out.

Yours sincerely,

D.G.D. BARR

DR. CATHERINE MACKIE

This child has been enuretic all her life. Neither Tofranil nor a buzzer alarm have helped. She is never wet by day and has never bene reliably dry by night.

I understand that 3 or her half-siblings have had this problem.

I would be grateful for your help.

Yours sincerely,

DR. CATHERINE F. MACKIE

Calder Road,
Edinburgh EH 11 4AU.

Dear Dr. Lang,

Re : Amanda Lynch, d.o.b. - 1.9.1972.

Please refer to your letter of 30.11.1982, regarding amanda. I gather the family is on your list at present.

After going through her record I found that she was seen by school psychologist in January 1978 for behaviour problems and by paediatrician at Newcastle General Hospital in June 1979 for primary nocturnal enuresis. There is brief mention of this in the record and no other detail regarding investigations, treatment or management. It is mentioned that because of marital ~~problems~~ had to flee Scotland to get away from her husband as seperation alone had not been sufficient. Amanda witnessed this and her problems could be related to this. Beside this there is nothing else in her record of significance.

I will forward her medical record to the F.P.C. as soon as I get the request.

Yours sincerely,

Dr. F. Mahmood.

Dear Dr. Mahmood,

Amanda Lynch. Date of Birth 1.9.72

This patient is now living in Edinburgh.
I understand she was previously on your list.
She has now joined my list and I should be most
grateful if you could forward to me any relevant
information which would help me to look after
her.

Yours sincerely,

DR. JOHN A. LANG.
