Date of Birth: 24/10/1966

Care Setting (s): St Andrew's Approved School

SECTION B — Supporting Person Details

Name: Nicola Jackson

Relationship to Survivor: Eldest daughter

Length of Relationship: All life

Purpose of This Statement

I am providing this statement in support of the above survivors Redress Scotland application. I know them personally and wish to offer information about the experiences they have shared with me, and the impact this has had on their life.

How I know the Survivor

I am the survivor's eldest daughter.

What the Survivor shared with me

old me that he didn't have a good time and witnessed things he shouldn't have witnessed at that age. When David used to tell me this, I didn't understand it when I was younger, but I understand what he means now. David told me that he witnessed people getting hurt sexually and violently. David didn't go into detail but said that he went through a lot and this is why he was the way he was with me and my siblings while we were growing up.

David didn't have a good relationship with his kids growing up because he didn't know how to. I believe David has mental health issues as a result of the things he went

through and witnessed during in care. My relationship with him has improved as I have gotten older, but he is still difficult to be around and can go from 1 to 1000 at any second. He has really bad anxiety, and this is due to his time in care. However, he is heavily medicated now and therefore has calmed down.

Closing Statement

I offer this statement to support the survivor's application. Everything I have written reflects what they shared with me and what I have personally observed during the time I have known them.
