Social	Alcohol consumption, 0 units/week
Comment	Discussed diet today. Discussed cholesterol. QRisk 45.4%. Discussed pt being at high risk and at this point we would advocate statin but pt declines and would refer to do it with diet. NHS info given and also signposted to British Heart Foundation website also. Pt reports he is going to fast and would like to try for up to 1 month. I have advised him that this is too severe and is dangerous. Pt will look into it.
Follow up	Diabetic monitoring (17/05/2026) Diabetic annual review (19/09/2026)

<u>16/10/2025 17:01</u> Comment	<u>Mrs Nareenah Wakefield at Church Street Surgery.</u> Pt attends for discussion on how to lower blood sugar. Anthony is keen to try this himself. Declines dietician. Has tried fasting before and lost 4 stones so is going to try this. Follow up after confirmation of hba1c.
<u>15/10/2025</u> Test Request	<u>Mrs Trish McLennan at Church Street Surgery.</u> HbA1c - <i>Requested</i>
<u>08/10/2025 16:29</u> Comment	<u>Mrs Nareenah Wakefield at Church Street Surgery.</u> Telephone consultation with pt regarding hba1c. Pt advised of hba2c and being in the diabetic range. Due to retirement and drop in benfts. Mr Lewis is trying to think of solutions for meals on a budget. Lives alone and seldom makes big meals. Has gained about 5stones in the past few years. I have invited him for a face to face chat and then he is booked for confirmation hba1c bloods before coding and going along the diabetes care pathway.
