

SUPPORT STATEMENT

SECTION A — SURVIVOR DETAILS

Survivor Name: **Morag Hainey**

Date of Birth: **02/11/1966**

SECTION B — Supporting Person Details

Name: **Louise Anderson Hainey**

Relationship to Survivor: **Daughter**

Purpose of This Statement

I am providing this statement in support of the above survivors Redress Scotland application. I know them personally and wish to offer information about their experiences they shared with me, and the impact this has had on their life.

What the Survivor shared with me

My mother doesn't talk about the things that happened to her when she was younger. She has told me that she was in care, but when I have tried to approach the subject, she clams up and shuts down and then gets upset. I believe, the trauma is too much to unpack for her. My mum hasn't really gone into a lot of detail about what she went through in care; I suppose with me being her daughter. She has said it was a bad time and that probably explains how she is.

Impact to the Survivor that I have observed

My mum gets very severely depressed at times and is emotionally disconnected. She has emotional problems, PTSD, severe depression and needs medication daily to cope with the memories of her past. She has trouble sleeping, doesn't trust anyone and hates going outside of the house and talking to people. She just wants to be alone a lot.

Supporting Statement confirmation

I offer this statement to support the above survivor's application. Everything I have written reflects what they have shared with me and what I have personally observed during the time I have known them.
