To Support - Aiker Legal <support@aikerlegal.org>

Yvonne mccracken hi I don't have anyone to support my claim as the few people I've told are no longer living my partner ,sister and gran are no longer living so I do not have a supporting letter and don't see why this should make any difference to my claim as I have suffered at the hands of care homes from a young child until my grandmother took me then again as a teenager this has impacted who I trust how I am in romantic relationships also I turned to substance abuse to cope mental health issues as a result of people who were ment to care and protect vulnerable children I am a 49 year old woman who no has the courage to confront my demons that have kept my bound in fear and silence I deserve closure and to heal from my trauma
