	<p>We picked up Lesley from at Dundee, early evening. Lesley refusing to speak or acknowledge myself or Mike but just got in the car. We tried briefly to make conversation met with silence. After 15 mins I asked her if she was hungry and she nodded, so I suggested we get Chinese take away and she nodded again. As we drove passed Perth Lesley sat forward and asked if we could get Chinese from there and we said yes. After a minute or so she sat forward again and asked whereabouts in Lawriston we were staying as old foster parents lived near by and she 'would' be going to visit them. We declined to get drawn into this and changed the subject. Lesly obviously feeling wound-up and a tinge of aggression there aswell. When we got to the Chinese Lesly declared her food to be 'stinking' and her attitude v. surley and derogatory. She went to the phone to ring her brother while Mike + myself sat in the car. Lesley appeared literally screaming and shouting obviously v. annoyed at something Mike H. went to see what was wrong and apparently some guy had been hassling her at the phone box, swearing</p>	<p>Nutrition: Breakfast: Lunch: Dinner: Chinese Take away. 	<p>Lesly was asleep in the back of the car when we first met at handover. We all drove to Carlisle. Lesly did respond to questions asked, but her attention was wandering. As she became more awake, she was happy to chat. We spent the morning shopping for a birthday present for her dad. Lesly was very polite and helpful and enjoyed shopping in Carlisle. She stayed by staff the whole time. She was asked what she understood of what situation she was very open and honest. She seemed fully aware of the consequences of her current situation and spoke about it matter of factly. Lesly loved to read and we had a hour to kill and she was happy to go into a book shop / coffee shop and we browsed the book's and chatted on the provided couches mainly about Nostradamus. She did not understand the letter from her Solicitor. The letter explained a serious assault, and Lesly felt her charge was attempted murder. We talked through the possibilities and said it can be clarified on Monday. Lesly had a long bath when she came down she stated that she was going to the pub. I spoke to Lesly about honesty and that it was possible for us to understand that there would be a strong pull for her to want to go to the village, but she has got to realise the impact abandoning would have on her current situation, she continued to deny this and would not speak to staff. She continued to get more agitated and suggested we leave for the fireworks display. We all did leave and Lesly commented she had a terrible headache and asked for paracetamol. P. Forster explained we are unable to provide her with pills. Lesly's agitation increased. She was asleep for most of the journey to Carlisle. Not speaking to staff. of the day

A very good shift with Lesly today. We let her lie in a while as the weather was absolutely appalling. We left the house early afternoon and drove to the Creighton Centre to pick up petty cash. Lesly patient while Pawi and myself spoke to Julie which took a while. We then took Lesly to visit her social worker. Lesly doesn't have to be at court this week to answer bail but has a bed in a secure Kerelaw and another excepted referral at Rossie. Lesly has expressed she would like to go down to a one to one and her social worker also thinks this is a good idea. Lesly quite agitated on departure, due to Wyndsey and myself having a private discussion and asking Lesly to leave us to talk. Wyndsey said this might upset her as she is always included in anything to do with her. Lesly was upset and wanted to know what had been said about her, which I passed on adding that if staff needed private time with anyone it wasn't up to Lesly and she must be respecting of this. Anyhow she soon pulled her mood round on the journey to Carlisle. We got all Lesly's laundry done and sat in

	Called Lesly the first time at 7.50 am. At 8.10 am I put my head round the door to find the fire was on full blast and Lesly asleep fully clothed on top of the bed. I then went downstairs to the kitchen to see a massive cooked meal, hardly touched and mess all over the place. I went back upstairs and asked Lesly again to get up as she had to clean the kitchen before we left. At this point Lesly started to become aggravated frustrated difficult and although I called for a further 20 mins, from the bottom of the stairs and from her bedroom door. Lesly was still in her bed at 8.30 am when we were due to depart. It appears that because Lesly has told us she isn't good in the morning she can behave and say whatever she pleases without consequence. H Pearson.	Star watching whilst canoeing. Food preparation.
	At 8.30 I went upstairs to find Lesly looking out of her window and I asked Lesly if she would like to come down and sort out the kitchen, as this could save her some unnecessary hassle. Lesly replied "why what are you going to do?" I replied "we're not going to do anything" Lesly replied "well then, fuck off" Lesly remained in her room. 	Lesley was up and out of bed by 07.30 eating breakfast and preparing for the days paddle, she was in good mood having had a good nights sleep.	Lesley cooked breakfast for all.
	After breakfast we all packed up the boat and departed for the days journey down the Loch. Lesley teamed up with Ingrid in here boat. During the first half of the Loch Lesley listened to instructions then helped paddle with Ingrid. During the journey Lesley had phases when energy levels went very low due to not enough food. Staff pointed out to Lesley how important it was to eat and that getting so tired could be dangerous on a journey like we were on. Just before dinner Lesley paddled solo in strong winds mastering the skills very quickly. During lunch Lesley became very quiet, probably due to not eating enough again which staff challenged her about. The next part of the journey was down the river which was challenging as it was windy and raining, Lesley coped very well.	Talked about the wildlife on the journey. Safety canoeing.
	We arrived at Threave castle and Lesley made a phone call to Julie at Care Visions. Staff SH spoke to Julie about Lesley's feelings and it was decided not to go to Lauriston for a bath but to continue with the journey.	<p>Nutrition:</p> <p>Breakfast: Scrambled egg/mushrooms/onion Yoghurt</p> <p>Lunch: Cheese and onion pastie.</p> <p>Dinner: Chicken stir fry Cake & Custard. She became quite emotional, upset & angry & wanted to jump out on the shore. We waited in the boats on the water until she had calmed down & then paddled across to a suitable get out point. Lesley helped get the anchors out & then sat down on her own for while. While Ingrid was looking for a suitable place to properly get the boats out Steve chatted to Lesly. When Ingrid got back she apologised for her language & quite bravely agreed to get back in the boat & paddle to the other side.</p> <p>We then carried the boats out & Lesly called yellow pages for a taxi, which arrived quickly & took us back up to the Sailing Centre</p>	<p>1</p> <p>Nutrition: Breakfast: Yogurt Lunch: Dinner: Beef chow mein Snacks: Apple Galaxy</p> <p>Pocket Money Given: £1 Bonus Given/Reason: 50p Getting back in the boat & generally being helpful</p> <p>Notes:</p>

Lesly trying every excuse in the book to get back to Larneston but was told firmly this was not going to happen and that Julie would be doing to pack all her stuff while myself and Pawł took her into the town for shopping and lunch. 	<p>Once again Lesly suprised me at her ability to articulate what she is thinking. Basically her response was that she is only comfortable with what she knows and disabled is something she has not had to deal with.</p> <p>We had a very jolly time Lesly spoke (it seemed) honestly and openly about basically her constant disappointments around her mum - initially to do with her mum not attending court - but this linked in with a pattern of feelings of rejection and disappointment that was established years ago.</p> <p>Lesly remained positive and returned to the house to watch the evening movie.</p>

Lesly had to be up early this morning and she was not very happy with this. She returned to bed when she realised a packet lunch had been made for the day. Lesly said she would refuse to eat the lunch. Eventually she did get up, and she slept for most of the journey to Carlisle. She seemed to cheer up happy to chat to staff at changeover. She also spoke to Julie about the possibility of going to a seminar on positive thinking and approach to life. Staff headed for Munnfneo we stopped to have a coffee as we were a little early for Lesly's Drs Appointment. Lesly had become increasingly agitated and very impatient with staff. By the time we arrived at the Doctors Lesly was unable to communicate respectfully to staff. Lesly repeated the phrase "Get out of my face" "Give me space". Lesly sat waiting for her appointment away from staff. Efforts were made to find out why Lesly was so unhappy. She was unable to verbalise any specific reason and

	<p>Another good day for Lesly. We spent the morning watching T.V and playing Yatzee before setting off for Dumfries and Lesly's meeting with her social worker. Lesly quiet and a bit un-responsive to begin with but soon began sharing how she felt and how she would like things to go in the future. It has been decided that Lesly will be getting some free time beginning this week, starting with an hour 3 times a week which has to be earned. She also is able to start earning money to spend while in Dumfries and is also able to see her friend on condition we have a contact number. Her free time will be extended to 3 hours, 3 times a week depending on Lesly's behaviour and attitude. It was also discussed that Lesly might begin to have overnight/weekend stays at her dad's house. Her social worker had brought the rest of her stuff down from Aberdeen so after the meeting we drove round to pick it up and also the voucher for her new trainers. Both Lesly and Pauli thoroughly enjoyed this and Lesly in a good mood. We drove into Dumfries after checking with Julie that it was okay for Lesly to have an hours free time. On the way into Dumfries we stopped at Brewsters for coffee and Lesly got an Ice cream then went to the 100. Instead of coming back to the table she walked right passed and we didn't quite catch what she said. When I found her she was playing the bandit and there was a strong smell of Cannabis. I called Pauli over and asked what he could smell as Lesly was denying the roll up she was smoking had any drugs in it. Pauli agreed he could also smell Cannabis. There was also some concern that we didn't know where Lesly had got the money to buy the machine and buy the sweets she had got earlier in the afternoon before I called Pauli</p>	<p>Nutrition: Breakfast: — Lunch: Beans, scrambled egg on toast, mushrooms Dinner: Burger + chips Snacks: Pocket Money Given: Bonus Given/Reason: Notes: Lesly is not cleaning her teeth + they are looking yellow.</p>

	Another positive day for Lesly. We got up fairly early, ate, packed and were on our way. Lesly enjoyed the mountain biking.	
	The biking trip was cut short and though Lesly seemed frustrated by this on a personal level she was very understanding. KP and girls went to shop for summer wear. Lesly chose quickly and returned to van - girls had pocket money + made phone calls. As a treat for Lesly's continuous good behaviour, this week we had a restaurant for a change. This went down very well with Lesly. Following this we went to visit the Wild which Lesly was looking forward to, which also gave her a opportunity to wash her towel + shower stuff. trusted the girls to visit swimming pool unorganised. Lesly continued to get on very well with ... and seemed to greatly appreciate her company.	<p>Nutrition:</p> <p>Breakfast: porridge</p> <p>Lunch: fruit sandwich</p> <p>Dinner: Chinese</p> <p>Snacks: Chocolate</p>

In the morning before Lesly got up Paul Guiliani went into the bathroom and could still smell the Cannabis. We let Lesly have a lie in and when we called her she once again went into the bathroom. 	Another good day for Lesly. She was in a super mood from charginer we chatted amiably whilst driving around doing the various mundane chores like dropping off laundry etc. After a phone call to SW dept Lesly went in to see Lyndey her old S.W.	I.T.
	Lesly said she needed to see her for a hug! Lesly was obviously really pleased to see Lyndey who gave her a photo and a bag of huge jelly beans which she had brought back for her. When we went to pick up a library book which Lesly had ordered she decided to spend some time on the internet. It was the first time that Lesly had been in a "chat room" which she enjoyed. After "chatting" to someone for about 20 mins we discovered that it was in the same room!!	
	After picking up G.M. (staff member) we tried to arrange a back massage because Lesly's back is very painful today, unfortunately not possible so she opted for a sun cab instead. 22.6.99. I visited Lesley's Family Home tonight ~~to~~ along with Lindsay Abines (S.W) to be introduced as her Key Worker when she is admitted to Ladyacre on the 29th June. However Lesley came around to the idea and agreed to come down to Dumfries from the Galloway Small School to have tea with Staff and Residents at Ladyacre. I arranged to meet Lesley off the bus.

Also at the visit it was arranged that Lesley and her Dad would come down to visit the Unit on Saturday 26th June so that Dad can see around the Unit.

Lesley will be admitted on Tuesday 29th June late afternoon - Lindsay is trying to arrange to take her for her Post Admission Rev Medical.

NAME. Hesley Edwards

Hesley out of bed quite early and spoken to by E. Gray & A. Dickie (staff).

6-7-99. Hesley asked if she could get out on her own - however, it was explained to her that this would not be allowed. — I said that she could go out with a member of staff although she is banned from car for a week. — suggestions are - like rides walking to swimming pool. — When Hesley returns from her holiday in 2 weeks + time then she will likely be allowed out for short periods which will be built up.

pm. Around unit early evening. out with A Flemming to buy toiletries.
later out with L. Mc Dowell on bus for run.

E. Gray.

10pm Lesley never sat down for very long this may have been due to a new male resident entering the unit.

Hesley went to bed after watching a video she was still to settle and took paracetamol & a hot water bottle to bed to help her severe head.

She got a fright when the light bulb x 2 fused in her bedroom. She settled with re-assurance from staff.
