I have put in her case file another copy of her risk assessment and informed her that despite what she thinks - it is necessary that this information is enclosed in this file for the benefit of her well-being and safety - I also had to talk to her about phoning her Mothers home (She managed to establish the phone number through the typex). NAME. Kesley Anne Edwards.

12.8.99. Kesley was difficult to awake this morning - eventually had quilt taken from her -

Kesley seemed to be reluctant to engage with Staff mainly due probably to last night's events.

After some breakfast, Kesley was taken to quiet office ^{by E. Gray & R. Shearman} and spoken to about events previous evening and about the fact that she was putting herself at risk. She was informed that she is no longer allowed to have 1 HR periods being out on her own until further notice and until she builds up the trust from Staff again. Kesley was also told that she could confide in Staff at any time if she was feeling under pressure from other residents. Kesley said that there had been occasions when other young people eavesdropped into (from outside office door) Staff discussing 'confidential things'. Ruth Shearman ensured Kesley that she would bring this up with other Staff.

Kesley was reminded that she had an incentive at the weekend if her behaviour was acceptable - Kesley will be allowed activities and out only with Staff.

19/8/99 Lesley dragging her head when getting up. After the initial shock of being upright passed Lesley became quite cheerful. Plenty of energy, but sadly did not seem able to find any positive outlets for said energy. So she passed staff a complaint of being bored. She continued to not be entertained in night shift.

19.8.99. Lesley appeared a bit "down" when came on shift. Was offered various activities to do during the evening - for whatever reason Lesley declined all offers. A. Pitcairn phoned Ladyfield East to ask if Lesley could get a video tape - which she had left there - staff there said they could not find it. Lesley phoned Ladyfield on the pay phone & was verbally abusive towards staff. A. Pitcairn phoned Ladyfield & explained Lesley had phoned on the pay phone. Lesley asked to phone her Mother - but phoned LIF again - Lesley started to become abusive - so I took the phone from her - and once again explained to the staff what had happened. Staff at LIF phoned later in evening to say they had found the video & we would drop it into LIA tomorrow - but that Lesley was lucky to get it back considering the verbally abuse she had given. Phoned her Dad - short TIC because upset when spoken to by student nurse - ... a few had said the residents were not speaking to her. During the evening had trashed her room - but cleaned this up.

Spoken to by Mrs Stobman re relationships. Given a copy of action plan for next week. & Stobman

Dentist advised that Lesley needs attention more or less immediately that we could see if Mr Sleath at W. H. Bank can provide a solution i.e. put Lesley to sleep as she is requesting. He may not do it though, he will have to weigh up the risks. Lesley would not be budged, adamant that no dentist will come near her with a needle.

Lesley took off outside the dentist and later also took off at Safeway when on board with Evelyn Gray.

Lesley, it was nice to see the whole group stick together and be united as a whole in times of stress and worry. You dealt with this very well and showed a real sense of loyalty and maturity. This is to your credit and you should feel very proud of yourself tonight. It was nice to see you all supporting one another & this should prove to you that you all can get along fine together when you put your minds to it. Keep up your good work. Well done honey!

Night Lesley became involved with another resident tonight and refused to settle in her room. She was abusive to staff in addition to smoking in another young person's bedroom. Staff attempted to reason with Lesley offering her every opportunity to distance herself from the behaviour of another resident. However Lesley chose to participate in running around the unit, smoking in the unit and leaving the unit without permission. As I approached, Lesly was verbally abusing Mrs Erkine. ^{she threatened to punch} I asked Lesly to come in reluctantly she got up and started to walk in, I felt that she might try and run off so I walked closely behind her at one point I tripped the back of her heels and she tripped, She maintains that this was deliberate, She asked for a complaint form, phoned the duty social work service and also called the police to make a complaint. She refused to talk to workers about it at the time though she was offered the opportunity.

Night - After the above Lesly's behaviour went from bad to worse as she continually verbally abused staff. She was in and out of her room and eventually got another resident involved in her negative behaviour. Still not satisfied Lesly then verbally and physically abused A Dickie (staff). She also trashed her room. Police became involved at this time and took statements from C. Russell, P. Bisset, S. O. A. Dickie and W. Moody (all staff). Will probably return to charge Lesly.
