**History of presenting complaint****Presenting complaint**

Description: HPV

Comment: Dear Doctor,

This woman had a smear carried out last year which was reported as having HPV. She was referred to colposcopy at this time and failed to attend on two occasions at Stobhill. She attended the surgery today and requested referral to Sandyford and she assures me she will attend.

Many thanks for seeing her.

**Reason for referral**

Care type requested: Out Patient

Expected outcome: Investigate

**History of presenting complaint****Presenting complaint**

Description: Review

Comment: I would be grateful if you would see this woman who was diagnosed as probable type 2 diabetes in Jan 2008. She presented with polydipsia, polyuria, lethargy and a UTI. HbA1C was 10.4%. She was referred at this time but failed to engage. She was referred again and failed to attend. Her lifestyle was chaotic (addiction problems). She was referred again in 2010 and failed to attend.

She declined further referral over the past few years. She recently attended for review and feels her lifestyle has improved and agrees to referral. HAC is 76mg/ml. U&E's, LFT's & TFT,s are normal, but she does have albuminuria.

Many thanks for seeing her.

Description: Poor control

Comment: Dear Colleague,

I would be grateful if would review Sharon, she has a fairly chaotic lifestyle and I wonder if she is taking her medication as prescribed.

She recently attended with vomiting and diarrhoeae and was advised re sick days rules.

Many thanks for seeing her

Description: Diabetes

Comment: Dear DR Cleland

It would appear this lady is a defaulter from your review clinic, she has received a letter to say she has been removed from your list. We have had a chat with Sharon about the importance of her attendance at the clinic and she has assured me that she will attend so can you accept this as a re-referral to your service.

Many Thanks

**History of presenting complaint****Presenting complaint**

Description: Pyelonephritis

Comment: Dear consultant,

Sharon was admitted to the Uro ward on the 23/10 for acute pyelonephritis, DKA and fluid around the gallbladder. She has a history of IDDM, substance misuse, and a chaotic lifestyle. She was started on IV abx in hosp, but discharged herself against medical advice. I have continued oral abx, and she does feel better, however, I wonder if she warrants further inv for her pyelonephritis.

**History of presenting complaint****Presenting complaint**

Description: Uncontrollable diabetes

Comment: Could you please see this lady who's diabetes is out of control. She has high blood sugar readings. She does not seem to understand her insulin, took her insulin last night then proceeded to eat 2 bowls of cereal & 3 pieces of toast & jam. We have sent her several appointment for diabetic review in Gp surgery.

She is currently in Turning Point Glasgow 218 Bath St, Glasgow G2HW  
, 0141 331 6200

Many Thanks for your review

Medical Record Summary Printout - CHI Number: 0501766405

07/02/2019

**History of presenting complaint**

**Presenting complaint**

Description: Continence Service

Comment: Dear colleagues,

Sharon has been in with her support worker again as she missed her last apt due to her chaotic lifestyle. They've assured me they will make it for any appointment and I would be grateful if she could be sent another.

**Reason for referral**

Care type requested: Out Patient

Expected outcome: Treat

**Past medical history**

**Pre-existing conditions** (High & medium priority - all)

Description	Comment	Date of onset	Date recorded
Overdose of drug	street valium 40 tabs	02-May-2018	02-May-2018

## Investigations

Investigations	Authorised By	Code
15/02/2019	GMS Contract Back Population (Source: Manually filed).	
12/02/2019	(Non Coded Event - HbA1c (FCC)) (Source: LAB) 72 - unchanged since last year. Been compliance issues. Hopefully improve with dosette. Recheck 3/12 and hold off with GGH referral at present as wasn't keen (MORAG_18830).	
12/02/2019	Urea and electrolytes (Source: LAB) Normal - no action (CC).	44JB.
12/02/2019	Liver function test (Source: LAB) Normal - no action (CC). Please note change in Abbott Teia Bilirubin method from 18/01/18	44D6.
12/02/2019	Thyroid function tests (Source: LAB) Normal - no action (CC).	44Z.
12/02/2019	Serum lipids (Source: LAB) chol up slightly (CC). Calculation of LDL & VLDL- chol only valid when Trig <4.50 mmol/L.	44O.
12/02/2019	Plasma glucose level (Source: LAB) raised 14.7 (CC). Non-fasting sample	44g.
12/02/2019	Full blood count - FBC (Source: LAB) Normal - no action (CC).	424.
05/02/2019	GMS Contract Back Population (Source: Manually filed).	
04/02/2019	GMS Contract Back Population (Source: Manually filed).	
30/11/2016	(Non Coded Event - HbA1c (FCC)) (Source: LAB). Please note change in method for HbA1c analysis from 28/10/15.	
30/11/2016	(Non Coded Event - Urea & Electrolytes ) (Source: LAB).	
30/11/2016	(Non Coded Event - Liver Function Tests ) (Source: LAB).	
30/11/2016	(Non Coded Event - Lipid profile ) (Source: LAB).	
30/11/2016	(Non Coded Event - Thyroid function test ) (Source: LAB).	
30/11/2016	(Non Coded Event - Glucose ) (Source: LAB). Non-fasting sample	
04/11/2015	(Non Coded Event - Urine Albumin ) (Source: LAB).	
04/11/2015	(Non Coded Event - Urine Protein ) (Source: LAB).	
04/11/2015	(Non Coded Event - HbA1c (FCC)) (Source: LAB). Please note change in method for HbA1c analysis from 28/10/15.	
22/10/2015	(Non Coded Event - Urea & Electrolytes ) (Source: LAB).	
22/10/2015	(Non Coded Event - Liver Function Tests ) (Source: LAB). Alkaline Phosphatase results (FCC aligned from 03/08/15.)	
22/10/2015	(Non Coded Event - Chol/Trilyceride ) (Source: LAB).	
22/10/2015	(Non Coded Event - Thyroid function test ) (Source: LAB).	
22/10/2015	(Non Coded Event - Glucose ) (Source: LAB).	
22/10/2015	(Non Coded Event - Full Blood Count ) (Source: LAB).	
27/11/2013	(Non Coded Event - Haemoglobin A1c ) (Source: LAB).	
27/11/2013	Urea and electrolytes (Source: LAB).	44JB.
27/11/2013	Liver function test (Source: LAB).	44D6.
27/11/2013	Serum lipids (Source: LAB). Non-fasting sample - LDL not calculable.	44O.
27/11/2013	Thyroid function test (Source: LAB). Euthyroid TFT results.	44Z.
22/04/2013	Urine microalbumin (Source: LAB). * Random Urine specimen. No 24h urine values.	46W.

Comment	Repeats added
12/02/2019	<u>Mrs Morag Devitt at General Practice Surgery</u>
Result	(Non Coded Event - HbA1c (IFCC)) 72 - unchanged since last year. Been compliance issues. Hopefully improve with dosette. Recheck 3/12 and hold off with GGH referral at present as wasn't keen (MORAG_18830)
12/02/2019 12:23	<u>Mrs Morag Devitt at Sandyford Surgery</u>
Comment	Diabetes review - type 2 diabetes since 2010. On insulin and metformin. Missed hospital/retinal screening appts. Got support now with appts so encouraged to contact retinal screening in first instance for appt and we will await blood results for referral to GGH. Asking for dosette box for medication as feels this would help her remember. Will request from GP. Has been better in last week or so. Taking insulin and testing BG. Recent readings around 11. Trying to eat regularly. Aware eats too much chocolate. Bloods taken from left hand. Usually difficult to get bloods. On Methadone from LG. Has drug worker in Possipark. R/R for A/R in 3/12
Test Request	Urea and Electrolytes - Completed, Liver Function Tests - Completed, Lipid profile (inc. HDL) - Completed, Thyroid function tests - Completed, HbA1c - Completed, Glucose - Completed, Full Blood Count - Completed
Examination	Diabetic monitoring
Follow up	Diabetic annual review (12/05/2019) Diabetic monitoring (12/08/2019)
31/01/2019 15:20	<u>Mrs Morag Devitt at Data Entry</u>
Comment	Called patient re urine results as d/w GH. Type 2 diabetes on insulin. Not been taking insulin and not eating well. No insulin today. Also no idea BG readings as mislaid machine. Says found it yesterday. Stressed importance of eating regular meals and taking insulin. Will do BG readings and if remain raised has GSN contact (Sr Mathieson) at GGH so advised to get in touch with her. Will review here 12/02.
31/01/2019 12:08	<u>Mrs Cecilia Douglas at Sandyford Surgery</u>
Comment	New patient health check. H/o diabetes - appt given with nurse. U/A Glucose + + + +. Ketone Trace On Methadone from Possipark CAT.
Examination	Blood pressure reading 119/54 mm Hg O/E - height, 172 cm O/E - weight, 81 Kg Body Mass Index, 27.38
Result	Urine blood test = negative Urine glucose test = + + +
Additional	Fast alcohol screening test, 0 /16 White Scottish
Result	Urine protein test negative
Social	Current smoker
Additional	Interpreter not needed
Social	Enjoys light exercise
Additional	Long term social support Alcohol screen - fast alcohol screening test completed Smoking cessation advice Consent given for communication by SMS text messaging
16/01/2019	<u>Dr Chris Ho at Woodside Health Centre</u>
History	asking about podiatry for nail avulsions, prev seen William Street podiatry service, has diabetes, also prev DNA with incontinence team due to change of address, in with addiction worker, using street whites 30/day
Comment	advised can contact prev podiatry service for nail issues, also req sphere clinic referral again, had changed address, refer back, bloods if not settling.

11/12/2018	<u>Dr Chris Ho at Woodside Health Centre</u>
History	seen at 450pm, says feeling better, has ate and drank BM 13.6. Urine ketones<math>\geq</math>prot<math>\geq</math>gluc ++, yet to pick up antiemetic.
Comment	supportive chat, new px given, worsening statement again
11/12/2018	<u>Mrs Cathie Paterson at Woodside Health Centre</u>
Comment	Discharged from hospital last night after overdose, nauseated and vomiting through the night. Says OOH attended and got an injection to stop sickness also a prescription for pills, has put prescription into pharmacy unsure of what. (no OOH slip available as yet) Cap glu 16.5mmol/L, (glucose meter given) Urinalysis +++ketones, ++ protein, +++haemolysed blood BP 129/98 pulse 92bpm/reg. Got quite a fright being in hospital, has taken 28 units of insulin this morning, fluids and diet encouraged, Feels OK at present, no pear drop smell from breath. Says was not eating in hospital before she came out. Will go home for some lunch and return for review with GP this afternoon. Knows to get seen urgently if unwell (support worker Lauren Barbour present) ? menses due- follow up non visible haematuria.
10/12/2018	<u>Mrs Joanne Evans at Summary Investigation</u>

Type 2 diabetes mellitus Placed on register: 02/09/2010 Removed from register:

**Medical History**

07/09/2020 Administration NOS SCRIPTS TO BE COLLECTED BY CATTERSONS PHARMACY G43      Dr Stephen Goldberg  
 28/07/2020 Telephone encounter D/W Wellcare pharmacy. Have confirmed that Empagliflozin stopped as was not taking this anyway. Community DSN referral was in hospital. Likely non compliant with medications, several unmsed compliance aids in house. Unable to reach Sharon. Have asked if pharmacy can ask Sharon what needles she uses (is she is actually taking it at all) and we can do Rx. Test strips added as per inpatient notes, will add lancets also.      Mr Ian Campbell  
 21/07/2020 Telephone encounter Spoke with ward consultant, further LFTs reported, can re-start atorvastatin/trazodone.      Mr Ian Campbell  
 ?Unsure re: empagliflozin. C/O urinary symptoms and r/v by diabetic team. Will review notes and email me.      Mr Ian Campbell  
 21/07/2020 Medication reconciliation HDL 12-17/7 QUEH Ward SB.      Mr Ian Campbell  
 21/07/2020 Discharged from hospital Feeding unwell + pyrexial. Treated with co-amox. Repeat CXR booked. Deranged LFTs, USS showed fatty liver unchanged since 2017. HbA1C 9%, insulin changed.      Mr Ian Campbell  
 21/07/2020 Withholding medication Atorvastatin, empagliflozin and trazodone not on HDL. Atorvastatin presumably due to LFTs "No changes to meds" on HDL. Will contact.      Mr Ian Campbell  
 09/07/2020 Failed encounter - no answer when rang back 17.24      Dr Sarah Sanaghan  
 15/06/2020 Telephone encounter infected cut on foot from trainers. saw pharmacist and advised abx needed. agree to script      Dr Z. Chamberlain  
 09/04/2020 Telephone encounter freq and losing control nocturia and wets bed.      Dr David Hay  
 08/04/2020 Failed encounter - no answer when rang back 08.56      Dr Sarah Sanaghan  
 11/02/2020 Low mood wants to come off trazodone, not helping Poor appetite and sleep. Only taking 2 tabs at night and sporadically taking this. Previously been on mirtazapine and wants to restart this. Gradually reduce trazodone to 50mg for 1 week then stop. Following this start mirtazapine 15mg and r/v- will likely need titrated up      Dr Gillian Watt  
 31/01/2020 Did not attend - no reason      Dr Stephen Goldberg  
 08/01/2020 Total notes on computer      Dr Stephen Goldberg  
 08/01/2020 Patient MRE received from HB no paper      Dr Stephen Goldberg  
 27/12/2019 Telephone encounter thinks has uti, increased freq, dysuria, describes itch and white discharge, tx for thrush and uti. WSG have spoken to support worker and made aware of plan      Dr Lindsay Wright  
 11/12/2019 Drug addictn therap-methadone  
 22/11/2019 Telephone encounter found friend dead . ruminating and poor inc trax to 300 nocte      Dr David Hay  
 19/11/2019 Failed encounter - message left with household member in homeless accommodation left message      Dr Stephen Goldberg  
 19/09/2019 Patient's next of kin MARGARET MCKENZIE 07856 494 281      Dr Stephen Goldberg  
 19/09/2019 Interpreter not needed      Dr Stephen Goldberg  
 02/08/2019 Body Mass Index 20.7      Dr Stephen Goldberg  
 02/09/2010 [X]Depression NOS  
 02/09/2010 Type 2 diabetes mellitus  
 15/05/2000 Hepatitis C

CHI Number: 0501766405

~~Speciality: Orthopaedics~~

It would appear from our records that one of the following applies:

- Your patient has not responded to our recent letters inviting them to arrange an appointment.
- Your patient has indicated that they no longer require an appointment.
- Your patient has refused ~~two~~<sup>3</sup> reasonable offers of appointment.

We therefore assume that your patient no longer needs this appointment. We have removed their name from the waiting list. This is in line with the NHS Greater Glasgow and Clyde's Did Not Attend Policy.

If you still wish your patient to be seen, we will require a new referral.

Yours sincerely

Dr Henry  
Wellgreen Medical Practice  
Pollokshaws Medical Centre  
26 Wellgreen  
G43 1RR

Dear Dr Henry,

Re: Sharon McDonald CHI: 050 176 6405

I am writing to advise you that the above-named patient was recently allocated to myself for the purpose of completing a mental health assessment.

Sharon attended her planned appointment today for a mental health assessment and she strongly denies illicit drug use. She reported no alcohol use and is currently prescribed Methadone 105mls and Diazepam 2mg x 10 tabs daily and is happy on same. Sharon continues to engage with South ADRS for prescription management of methadone and diazepam and support to maintain abstinence from alcohol/ drug use.

**Situation**

Sharon attended for scheduled mental health assessment due to concerns with her mental health. Sharon reports low mood, paranoid thoughts, anxiety, overthinking situations, mood swings and erratic behaviour – believes she may have borderline personality disorder, reports has angry outbursts regularly, can be fine one moment then angry the next, believes this may be due to 'things that have happened in the past'. Reports has had mental health concerns for many years. No immediate concerns raised after mental health assessment.

**Background**

Sharon reported a history of polydrug use. Reports she is currently stable on methadone and Diazepam.

Sharon disclosed a history of self-harm by cutting and of having overdosed on illicit diazepam in the past. Sharon disclosed sexual assault, and trauma from the past. Reports has flashbacks from her past. Reported she struggles with the loss of close family due to addiction and being present while members of her family have passed/been murdered.

**OFFICIAL  
PRIVATE**

NHS Confidential: Personal data about a patient

**PRIVATE**

Sharon reports fleeting suicidal ideation in the past with no specific thought/ plan or intent. Denies any recent suicidal ideation plan or intent. Denies any current ideation plan or intent. Denies any plan or intent to harm anyone else. Has history of self-harm.

Reports she does not attend any mental health services and community support groups as does not feel benefit from attending. Reports due to anxiety does not leave the house often.

**Assessment**

Sharon stable on Methadone. Has history of problematic drug use. Presented agitated at beginning of assessment with raised voice, at beginning of assessment, speech was fast and raised, however as assessment progressed Sharon became settled. Sharon pacing room at start of assessment however became settled and engaged well in conversation with writer. Did not maintain eye contact with writer, kept looking to the floor, however appeared to become comfortable and relaxed with writer as assessment progressed and maintained good eye contact. Appeared low in mood and anxious at times but reactive in affect and utilized and responded to humour appropriately. No evidence of any current thought disorder or delusional thinking, no evidence of responding to unseen stimuli.

Reports her main concern is low mood, paranoid thoughts, anxiety, overthinking situations, mood swings and erratic behaviour – believes she may have borderline personality disorder, reports has angry outbursts regularly, can be fine one moment then angry the next, believes this may be due to 'things that have happened in the past'. Rated mood at beginning of assessment at 0/5, however at end of assessment reported this improved to 3/5. Believes talking about her past helps and is keen to 'open up' about her past if this will help.

She is currently on 105mls methadone and 2mg x 10tabs daily diazepam prescription. She believes her mental health concerns began at the age of 15. Reports no current suicidal thoughts/plans/intent and no current plans to self-harm or harm others. Has history of self-harm by cutting arms. Denies any hallucinations currently.

Disclosed sexual assault – reports was recently sexually assaulted, reports she did not go to the police, was found by neighbours across from her flat, childhood and adulthood trauma from flashbacks from her past. Reports grew up in the care system from 14 years old. Was diagnosed diabetic type 2 at the age of 31 and struggles with this also. Very tearful when discussing above, at start of assessment was agitated and asked how long assessment would take. Did not want to sit down, wanted to walk around the room, however, became less agitated as assessment progressed and felt comfortable with writer.

**Recommendations**

1. To continue to engage with care manager Janie Rooney as Sharon reports she has built a good positive relationship with Janie.
2. Referral to psychology for support with anxiety, overthinking, mood swings, paranoia thoughts, anger issues/erratic behaviour and low mood. Sharon believes talking about the above may help and feels she is ready to talk about the above.
3. Sharon to contact her GP regarding her diabetes for review, reports her blood sugar levels are not stable and has not seen anyone in over a year.

**OFFICIAL  
PRIVATE**

NHS Confidential: Personal data about a patient

**PRIVATE**

- 4. Sharon would benefit with support to develop positive coping skills and distraction techniques when becomes agitated, self-help techniques discussed.

If you have any questions, please do not hesitate to contact me.

Many thanks,

30 September 2010

Dear Dr Muir

Re: SHARON McDONALD, D/9, 30 ST. VINCENT TERRACE, GLASGOW, G3 8UT  
Date of Birth: 05.01.76 Hospital Number: 51250175X CHI Number: 0501766405

Your patient attended Western Infirmary on the 29 SEP 2010 at 01:09 am.

The presenting complaint was: **Unwell Adult**

Triage Information: **Brought in By Police As They Are Concerned For Patients Mental Health. Patient Distressed On Triage Has Been Having Flash Backs To Incident That Happened Last Week Also Having Family Problems. Previous Self Harm**

The following investigations were carried out: **Nil**

The A&E diagnosis was: **Psychiatric - Panic Attack/S**

The following treatment was given: **Nil**

At the conclusion of treatment the patient was: **Discharged**

Follow-up: **Discharged**

Additional Information: **Sharon presented to A and E with concerns regarding her mental health. She had recently witnessed a traumatic event and has since then had flashbacks and insomnia.**

**She denies any suicidal ideation or hallucinations. She has been requesting for something to help her relax and aid sleep.**

**She has been discharged with advice to see her GP with regards to post traumatic stress and ask if she could be referred for the appropriate assesment.**

Yours sincerely,

**Madeeha Mustafa**  
Emergency Department Doctor

Discharge Type: 01a - Discharge with no follow up

Destination: Private residence

Previous ED Attendance in last 12 months: 1

Presenting complaint  
**unwell**

Nursing Assessment:

**BIBA. Alleged assault by male this morning-hit repeatedly at back of head with a torch. Clear liquid poured over head-?petrol?ammonia. Also front seat passenger involved in RTI. No c-spine tenderness. Not knocked out**

Investigations in ED: **None**

NHS Confidential: Personal data about a patient

McDonald Sharon

CHI: 0501766405

## Diagnosis:

Diagnosis	Side	Site
Open wound of scalp		

Procedures: **None**Immunisations: **None**Dispensed Medication: **None**

## Clinician Notes:

This lady claims she was allegedly assaulted at 5am this morning with torch blows to the head. She then was allegedly involved in an RTC at around 10am whilst a passenger in a car which was driven by the same individual who allegedly assaulted her that morning. She now presents many hours later with a sore head and missing all of her medicines which she claims was due to the days events. On a thorough secondary survey i could find no significant injury except from a 8-10cm diameter superficial haematoma on the top left of her head with a 3cm laceration in the centre of it which i cleaned and closed with 5 stitches to be removed in 5 days time. There was a very minor graze on her left leg but otherwise no other injury i could find. She was referred to GEMS for a new prescription for her missing medication. There was no neurology and no sign of significant head injury therefore she was not scanned and sent home in the care of her mother with head injury advice. Many thanks.

Followup: **GP nurse for ROS**

NHS Confidential: Personal data about a patient

McDonald Sharon Elizabeth      CHI: 0501766405

Diagnosis:	Diagnosis	Side	Site
Dyspnoea			

Procedures:      **None**Immunisations:      **None**Dispensed Medication:      **Please see Clinician Notes**

## Clinician Notes:

Ms McDonald presented with a 1 week history of lethargy and dyspnoea. In addition she feels her left leg was slightly larger than her right leg however on examination they were both 12 inches in diameter with no clinical evidence of oedema or a DVT. She has a history of IVDU, Hep C and is currently on treatment for Scabies. A blood sample to assess Ms McDonald's Hep C viral load was taken on this admission but unfortunately the sample was insufficient for the lab to test this. There was no acute medical issue and she has been discharged back to your care. GP Action required: We would be grateful if you could repeat Ms McDonald's Hep C viral load in the community as from our records it has not been updated since 2020 when she was positive. Many thanks. \*This letter was written from clinical notes only\*

11 11 2025

Dear Ms McDonald

We have noted that you have missed 3 appointments at the surgery recently.

As you will appreciate, it is very frustrating for us when this happens as other patients who are looking for appointments could have been seen.

After 3 such missed appointments, a patient is usually removed from the list but before that happens, the partners discuss each case to see if there are any extenuating circumstances. We realise that you may have not been feeling very well recently and for this reason, the appointments may have slipped your mind and we have agreed that you will not be removed from the list on this occasion.

You must, however, endeavour not to miss any further appointments or you will be removed from the practice list.

Yours sincerely

**Dr S Halliday**  
GP Partner

Dear Ms McDonald (05/01/1976)

## 2nd Missed Appointment

We notice that you failed to come to the surgery for your appointment on 20.06.25. This is the **second** appointment that you have failed to attend in the last 12 months. Again you did not contact us to cancel this appointment.

We understand that emergencies do arise and patients are not always able to contact us to cancel an appointment and if this was the case, then please let us know and we will mark your records accordingly.

Unfortunately an increasing number of patients seem to feel it is acceptable not to cancel appointments they do not need, we have had to become stricter with those who fail to attend as this is costly to the practice and the NHS.

You can cancel an un-needed appointment by telephoning us. Please be aware that we need a minimum of 30 minutes' notice to cancel an appointment.

Therefore I must advise that if you miss a further appointment in the next 12 months, without a reasonable explanation **this may result in your removal from the practice list**. Should this happen you will no longer be our patient and you would need to find a new GP.

Yours sincerely

## ANNUAL DIABETIC REVIEW

We have tried to contact by letter and text to arrange an appointment to discuss your diabetic care and there has been no response.

You have not had your bloods checked in over 2 years or attended for a diabetic review so we have to medically advise you that this is putting your health at risk and poorly controlled diabetes without regular reviews of your condition can lead to significant risks i.e. blindness/kidney failure/heart attacks/death.

If you do not attend for a diabetic review, we may need to stop prescribing your medication as this is unsafe without you being monitored.

Please call the surgery as a matter of priority to arrange a diabetic review appointment with the nurse.

If you have moved outwith the area, can you please advise us so we can remove you from the practice list.

If you require an interpreter to call us, please use the attached link -  
[www.pollokshawsmedicalcentre.co.uk/clinics-and-services/services/interpreting-service/](http://www.pollokshawsmedicalcentre.co.uk/clinics-and-services/services/interpreting-service/)

We look forward to hearing from you.

Yours sincerely,

Dr Halliday

Dear Ms McDonald

All the staff in the practice want to try and help and we understand you are having a difficult time at the moment. We want to work through one issue at a time and see if we can put a plan in place to improve the situation.

There have been problems at recent consults as you have been getting agitated and frustrated and also not been in a frame of mind to follow up on plans made. Some of the consults have made the doctors feel a little threatened and concerned by your behaviour. You have also missed a few appointments with nurses and doctors.

The best way forward is that when you come to the practice you are sober and calm and we will most likely be able to help with several issues. If however this is not the case again or you miss any further appointments in the next 12 months then we will remove you from the list as it better you find a different practice.

Yours sincerely
