Dear Mr Gower,

Your recent Diabetic Eye Screening appointment - Please Call Us

We see from our records that you were unable to attend your diabetic eye screening appointment.

NHS England invites all people with diabetes aged 12 and over to take part in diabetic eye screening.

Diabetic eye screening can detect early signs of diabetic retinopathy, which is one of the most common causes of blindness in people of working age and can affect anyone with diabetes.

When the condition is caught early, treatment is effective at reducing or preventing damage to your sight.

Please call the Bookings Office, during the office hours as stated above on 01483 359 060 to re-book your appointment, or if you:

- are already seeing an eye specialist and want to check if you still need to attend screening
- have transport issues or wish to be screened at an alternative venue
- have any concerns about screening or do not want to be screened

Yours sincerely

Mr John Pallen
