Purpose of This Statement

I am providing this statement in support of the above survivors Redress Scotland application. I know them personally and wish to offer information about their experiences they shared with me, and the impact this has had on their life.

What the Survivor shared with me

There were many nights where they went to bed without food, Physically assault him and others i.e. Hit, Punch. They allowed them to smoke and drink. Verbally berate them.

Impact to the Survivor that I have observed

He continues to smoke and drink and has COPD because of it. He takes anxiety medication to help him function. He has difficulty with new people and is quick to be ready for a fight. He's become moderately agoraphobic and heavily dislikes going somewhere new. He has unhealthy coping and tends to avoid anything that'd cause mental distress.

Supporting Statement confirmation

I offer this statement to support the above survivor's application. Everything I have written reflects what they have shared with me and what I have personally

observed during the time I have known them.
