

SUPPORT STATEMENT

SECTION A — SURVIVOR DETAILS

Survivor Name: Catriona Rowan

Date of Birth: 26/02/1981

SECTION B — Supporting Person Details

Name: Elizabeth Schenkle

Relationship to Survivor: Mother

Purpose of This Statement

I am providing this statement in support of the above survivors Redress Scotland application. I know them personally and wish to offer information about their experiences they shared with me, and the impact this has had on their life.

What the Survivor shared with me

Catriona has told me about things that happened to her in care and things like that. She told me about being restrained in the different care homes by the staff. Catriona told me about this when she was younger. She thought it was normal because she didn't know any different. There was one male staff member who tried it on with her and he was putting letters under her door and things like that.

Impact to the Survivor that I have observed

Due to her experiences Catriona ended up taking drugs. I believe it was her time in care that caused her to end up being bipolar. She struggles to trust other people now and doesn't trust authority and it is probably all that that caused it.

Supporting Statement confirmation

I offer this statement to support the above survivor's application. Everything I have written reflects what they have shared with me and what I have personally observed during the time I have known them.
