Hello Kevin,

Important information about Early Termination Charges

We need to let you know that your service has been cancelled whilst you were in the minimum term for your Plan. As a result the following early termination charge(s) will be added to your account within 10 days. Your early termination charge(s) are broken down as follows:

Subscription	Minimum Term	Early Termination Charge
60GB	12 months	£125.38
Total:		£125.38

For information on how early termination charges are calculated, please go to sky.com/help/articles/charges-for-ending-your-sky-contract-early.

If we do not hear from you within 10 days, this amount will be collected automatically from the card you most recently used with Sky Mobile to make a purchase. If we do not hold card details for you or the collection is unsuccessful, we will add the charge to your account. If this occurs it is critical that you call us as soon as possible to discuss the options available to you. If you fail to pay, your debt will be referred to a collection agency.

If you would like to have a look at your billing simply go to sky.com/manage where you can also make a one-off payment, alternatively you can contact us if you would like to discuss further on 03442 414 141.

Yours sincerely,

Your Sky Team
