Your statement for additional care settings

In Part 1, you will have already provided information about the care settings you were abused in. By providing this information here, your case worker can join together the name of the care setting with your statement of abuse.

Q1 | What is the name or location of the relevant care setting you were abused in?

(For example, the name of the care home, or the city or region where you lived in foster care or while boarded out).

Newfield Assessment Centre

Do not worry if you are uncertain about dates or time. Please provide your best estimate.

Q2 | When were you abused?

For example: a single date, an age, or an approximate time or time range.

1991-1992

You do not have to provide names, if you cannot remember or do not feel comfortable doing so. If you do provide a name it will be passed to Police Scotland.

Q3 | Who was involved in your abuse?

For example: a member of staff, a peer or someone outside the care setting.

The information you provide will be used by Redress Scotland to make a decision about your application. Redress Scotland will use the "Assessment framework" to help them do this, available on [gov.scot](https://www.gov.scot). Please be aware that it contains graphic descriptions of abuse.

Q4 | On the next page, please provide as much information as you can about:

- the abuse you experienced while living in this care setting
- what life was like for you during this time
- how the people responsible for your care and welfare failed to carry out that duty (within or beyond your care setting)

You can continue on additional pages if you need to.

Part 2 of the application form provides more information about what you may want to include.

Your statement for additional care settings

When I was placed here, I felt like I was walking into a prison. I was interviewed and only 12 at the time. I was a tall boy and put with 14/15 year old boys but I was nowhere near mature at the time.

I unfortunately got into fights in order to be standing my ground and defending myself.

When getting split up after getting in to fights, the staff would restrain us in ways where they caused pain. My arms and legs would be locked and twisted up. When being twisted up I'd be leaned on with a knee. I can remember the aches and pains for days after. This was constant behavior from the staff and in all honesty, got worse the more fights I got in to.

I was really missing my family and being away from them made me really unsettled. This troubled me throughout my time in care and especially this care setting as the staff were rough with me, gave no care to us kids and felt like they got a joy out of causing us pain.

When describing this place like a prison, was because at night our doors would get locked which gave me senses of entrapment.
