Basic Information

Crisis/out of hours arrangements

If Leon requires additional support during Mon-Fri 9-5pm, he should contact Weston House on 01334 652 163. If his regular CMHNs are not available and it is an urgent matter, then Leon can access the Duty Worker on 01592 729765.

Patient Name GRATTON, Leon
CHI 1703751191
DOB 17/03/1975

If Leon requires additional mental health support out with the above hours, he should contact crisis helplines or if necessary, NHS 24.

Samaritans: 116 123; Breathing Space: 0800 838 857; NHS24: 111; Community Police: 101

Date of Risk Assessment: 21/08/2025

Sensory requirements:

Wears spectacles for long and short sighted eyesight - Leon was last tested in January 2024 and has been issued with new glasses. Next check up 2026.

Attends annual routine diabetic eye appointments, last had in August 2024. Leon is chasing up his next annual review.

Progress report:

Progress since last review

Leon continues to attend his appointments within Weston House for Clozapine monitoring and to collect his medication. Leon has kept his regular engagement with CMHN appointments and has been working on identified goals with CMHN Brougham. Some progress has been made in regards to Leon going fishing, twice with staff and once on his own but with support with transport. The hope is that there will be further opportunities for this with support from Richmond. It has been suggested that Leon use his own money for paying for a taxi to/from fishing lake. Leon continues to receive an hour of support on a daily basis from Richmond Fellowship. Leon reports that he is trying hard to keep on top of housework with support. Leon remains on the waiting list for a befriender through Crossroads, he has recently made enquiries to confirm this.

Issues arising/ Areas of concern

Ongoing issue remains that Leon is rarely leaving his house due to low motivation, anxiety and physical health issues. He will only do so by car or a taxi, which is very limiting for him. Reports that he has not been out at all over the summer. (Apart from a couple of trips to Burger King with Richmond Staff). Discharged from OT in April 2024 due to lack of readiness to progress towards his goal. Leon could be referred back to this service in the future but needs to display positive changes and a readiness to engage in active work. Leon does identify this as a goal of his and CMHN Brougham is now involved and will be taking forward some graded exposure type work to improve this situation. This work has been on hold recently due to staff absence. Discussion's had about ongoing poor condition of Leon's tenancy, and how this poses environmental risks. Previous CPA review highlighted need for a deep clean, which SW Michael Ireland had agreed to look in to. There has been no feedback regarding this and as SW not present at this review CMHN will make contact to follow this up.

Person completing review: Amanda White
 Designation: Staff Nurse
 Date signed 11/09/2025

Needs

Needs Identified	Medical review to assess mental health and review medication.
Plan of Action	Leon continues to receive medical outpatient appointments at Weston House. Leon prefers face to face appointments for this. Leon is and will be supported by Richmond staff to attend all medical reviews.
Person Responsible	Dr Olley and Leon.
Proposed Outcome	Annual medical review and 6 monthly CPA, in the company of Richmond staff.

Patient Name GRATTON, Leon
 CHI 1703751191
 DOB 17/03/1975

Update At review Leon reports struggling with dark thoughts and voices in the evening time, this is a long standing issue that is thought to be anxiety related rather than a side effect of Clozapine.
 Next medical review is 06/11/25 at 1pm.

Needs Identified Monitoring of mental health

Plan of Action Therapeutic sessions for ongoing monitoring of mental state and support for Leon's mental wellbeing.
 Regular 1:1 contact with CMHN, either face to face at home/Weston or via telephone.
 Frequency of contact to be agreed upon by CMHN and Leon, depending on his needs at the time.

Person Responsible CMHN Amanda White, CMHN Cameron Brougham and Leon.

Proposed Outcome Reduce risk of relapse of mental health, support Leon in reaching his optimum level of mental health and wellbeing.

Update Leon does contact Weston between scheduled appointments if he requires additional support, this has been noted to have lessened in frequency since last CPA.
 CMHNs continue to support Leon with reducing anxiety levels, working collaboratively to develop techniques for this.
 CMHN Brougham has supported Leon in engaging with leisure activities, however, sessions have stopped due to staff absence. CMHN White and Leon to consider input required going forward.

Needs Identified Clozapine monitoring

Plan of Action Leon to attend Weston every 4 weeks for blood monitoring, medication collection and physical healthcare checks in accordance with the guidelines for Clozapine monitoring.

Person Responsible CMHNs White and Brougham and Leon.

Proposed Outcome Follow Clozapine care plan and monitor for side effects of Clozapine.

Update Leon has been attending all necessary Clozapine related appointments, he is fully compliant with his Clozapine care plan.

Needs Identified Housing support

Plan of Action Richmond Fellowship provide 8 hrs per week to support Leon with: Budgeting, cleaning, cooking, shopping and attending appointments.
 Encourage and support Leon to go out for short walks and to work on his graded exposure plan as much as possible, to reach the goal of using public transport once more.
 Support workers to use key from key box (back door) when unable to access the house in an emergency situation.

Person Responsible Richmond Fellowship Support Workers and Leon.

Proposed Outcome Assist Leon in maintaining his tenancy and giving support in the community

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

to aid mental health, enabling Leon to achieve going out independently.

Update No update from Richmond at this CPA review.
Leon's house remains unkempt.
CMHN to discuss this ongoing issue with Graham Lumsden about the condition of Leon's house and the nature of the sessions with Richmond Support Workers.

Needs Identified Physical Health Needs.
Atopic Dermatitis - prescribed Methotrexate.
Diabetes Mellitus Type 2
Asthma

Plan of Action Leon to contact GP for any issues with his physical health.
Blood monitoring at Weston 3 monthly for FBC, U&Es and LFTs due to Methotrexate prescription.
Medical staff will monitor blood results and liaise with Dermatology Consultant via GP.

Person Responsible GP, Dr Olley, CMHN Amanda White and Leon.

Proposed Outcome Enable Leon to reach his optimum physical health and maintain his skin integrity.

Update Dermatology - last had a telephone review on 25/07/25 with no change to his treatment plan. Expectation is that review in October will be face to face.
Leon maintains that he is having frequent baths (approx. 5 times a week).
Diabetes - Leon has an upcoming annual diabetic review which he intends to chase up as unsure of the date.
Asthma - Currently using 2 different inhalers, reporting no recent flare ups of Asthma and knows to contact 999 if experiencing severe breathing difficulties.
2 days after CPA review, Leon contacted ambulance services due to breathing difficulties and was admitted to VHK where he was treated for sepsis secondary to pneumonia. Successfully treated and discharged home.

Needs Identified Social Work Support

Plan of Action Assess Leon for social work support.

Person Responsible Michael Ireland SW

Proposed Outcome Identify needs through annual social work reviews.

Update Leon is on the duty SW list for annual review.
Annual review is over due.
Michael Ireland intends to explore the possibility of organising a deep clean at Leon's house - no update since CPA in February about this.

Are there any unmet service needs? Yes ☒ No ☐
Unmet Needs

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

Condition of Leon's house remains poor. Nature of the sessions with Richmond staff are inconsistent depending on the staff on duty.

No feedback regarding annual social work review or the possibility of a deep clean.

What action has been taken to address the need(s)?

Email sent to Senior Support Worker Graham Lumsden to explore this further.

Email sent to Social Work regarding annual review for Leon.

Issues arising/ Areas of concern

Leon continues to attend his appointments at Weston House for Clozapine monitoring and collecting medication.

Leon continues to avoid using buses and tends to isolate himself at home due to the extent of his anxiety. Leon continues to find motivation problematic.

Leon has been keeping regular appointments with CMHN and has identified goals to work towards. Had received extra support following the loss of his mother, frequency of contact is currently 4-6 weekly, face to face or telephone contact.

Leon requires support to enable him to better access community resources and reduce social isolation.

Leon continues to engage well with a local

Current allocation of hours from Richmond Fellowship limits ability for Richmond staff to support Leon in accessing community

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

music group, The Bothy, attending this every other Thursday evening. resources.

Leon is still awaiting the re-appointment of a new befriender, he remains in contact with Senga Smith from LINK befriending regarding this.

A referral was submitted to OT (March 2022), he remains on the waiting list for this.

Person completing review: Amanda White
Designation: Staff Nurse
Date signed 22/03/2023

Needs Identified: Medical review to assess mental health and review medication.

Plan of Action: Leon to receive medical outpatient appointments at Weston House. Leon prefers face to face appointments for this, however, has missed last 2 appointments, therefore going forward Leon will be supported by Richmond Workers to attend medical review.

Person Responsible: Dr Olley and Leon Gratton.

Proposed Outcome: Annual medical review and 6 monthly CPA, in the company of Richmond staff.

Update: Next annual medical review due November 2023.

Needs Identified: Monitoring of mental health.

Plan of Action: Therapeutic sessions for ongoing monitoring of mental state and support for Leon's mental wellbeing.
 Regular 1-1 contact with CMHN, either face to face at home/Weston or via telephone.
 Frequency of contact to be agreed between Leon and CMHN depending on Leon's needs at the time.

Person Responsible: CMHN Amanda White and Leon Gratton.

Proposed Outcome: Reduce risk of relapse of mental health, support Leon in reaching his optimum mental health and wellbeing.

Update: Following a period of increased contact following the death of Leon's mother, the frequency of appointments has been decreased to 4-6 weekly. Leon continues to contact Weston between appointments for additional support when he requires it.
 CMHN is supporting Leon with reducing anxiety levels and goal planning.

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

Needs Identified: Clozapine monitoring

Plan of Action: Leon to attend Weston every 4 weeks for blood monitoring and physical healthcare checks in accordance with the guidelines for Clozapine monitoring.
Leon to collect medication from Weston on a fortnightly basis.

Person Responsible: CMHN Amanda White and Leon Gratton.

Proposed Outcome: Follow Clozapine care plan and monitor for side effects of Clozapine.

Update: Leon has been attending all necessary clozapine related appointments, he is fully compliant with his clozapine care plan.
Annual clozapine physical health check is due November 2023.

Needs Identified: Housing Support.
Support workers to use key from key box (at back door) when unable to access house in an emergency situation.

Plan of Action: Richmond Fellowship provide 8 hours a week support for budgeting, cleaning, cooking, shopping and attending appointments.
Encourage and support Leon to go out for short walks and to work towards using public transport.

Person Responsible: Richmond Fellowship staff and Leon Gratton.

Proposed Outcome: Assist Leon in maintaining his tenancy and giving support in the community to aid mental health, enabling Leon to be able to go out independently.

Update: Claire Fitzsimmons and Lisa Nisbet attended this CPA in Graham Lumsden's absence.
Leon engages well with Richmond Fellowship staff. Leon lacks motivation in tending to household chores like cooking and cleaning and is supported by support workers to do this.
Leon is supported with his finances by Richmond to help with budgeting.
Leon has not recently been engaging with short walks out of the house or using public transport and this is impacting on his quality of life. Leon acknowledges this and will make efforts to work with staff to improve this situation.
Richmond staff will consider re-arranging Leon's allocated hours to allow for therapeutic activity to take place, eg, using public transport/accessing community based resources. Social Work plan to consider an increase in hours at the next review.

Needs Identified: Physical health needs, prescribed Methotrexate for Atopic Dermatitis.

Plan of Action: Leon to contact GP for any issues with his physical health.
Blood monitoring at Weston 3 monthly for FBC, U&Es and LFTs due to Methotrexate prescription.

Patient Name GRATTON, Leon
CHI 1703751191
DOB 17/03/1975

Medical staff will monitor blood results and liaise with Dermatology Consultant via GP.

Person Responsible: Dr MacLaren GP, Bank Street Medical Group, Leon Gratton and Weston staff.

Proposed Outcome: Enable Leon to reach his optimum physical health and maintain his skin integrity.

Update: Leon's last dermatology review was on 7/02/23, and his reviews have been extended to annually due to long term stability, however, Leon has experienced a recent deterioration in his skin integrity and Dermatology to be contacted. Request face to face appointments going forward rather than telephone.
Leon to arrange for review of Asthma and also concerns regarding a possible chest infection, Richmond staff to support Leon with this.

Needs Identified: Social Work Support.

Plan of Action: Assess Leon for Social Work support

Person Responsible: Aggie Sikorska, Social Worker.

Proposed Outcome: Identify needs through annual Social Work reviews.

Update: Annual review to be arranged.
Funding remains in place for Richmond Support. There is the potential for an application to be made for increased hours to allow for Leon to be supported in accessing community resources.

RISK TO SELF

Historical (>1 year ago) Current (within last year) Not known

Leon shared that he does experience fleeting thoughts of suicide but no plans/intentions to act on these. He is able to dismiss them without the need for intervention. Would reach out for help if this was to worsen.

Historical (>1 year ago) Yes Current (within last year) No Not known

History of drug and alcohol misuse- not for a large number of years.

Took an overdose over 12 years ago.

22/8/24 -

Denies any thoughts of self harm or suicide.

Does not misuse alcohol or drugs, does not smoke.

Can be neglectful of personal hygiene, this can cause a flare up of atopic dermatitis.

Potential risk of falling at home due to cluttered and untidy condition of house.

RISK TO OTHERS

Historical (>1 year ago) Current (within last year) Not known

No risks to others identified.

Historical (>1 year ago) Current (within last year) No Not known

No current risks identified.

RISK FROM OTHERS

Historical (>1 year ago) Current (within last year) Not known

No current risks identified.

Historical (>1 year ago) Current (within last year) Not known

Can be vulnerable. Historically a target of another known patient asking for money and turning up at Leon's house on a regular basis. S/W were involved at that time.

22/8/24 -

Patient Name GRATTON, Leon
CHI 1703751191
DOB 17/03/1975

Leon denies any current risks from other people.

RISK TO CHILDREN

Historical (>1 year ago) Current (within last year) Not known
No risks identified.

Historical (>1 year ago) Current (within last year) Not known
No known risks to children identified.

RISK OF SELF NEGLECT

Historical (>1 year ago) Current (within last year) Not known
Reports to having nightly baths and tending to his personal hygiene and skin care due to dermatitis.
Support Worker Graham was present and questioned the frequency of this.
Keeps up with medication regime.
Adequate dietary intake.

Historical (>1 year ago) Current (within last year) Not known
Leon lacks motivation and therefore can be neglectful of his personal hygiene.
He has atopic dermatitis but does not always apply his prescribed creams.
Due to anxiety Leon avoids going out of the house.
He is not partaking in physical activity due to lack of motivation. He is overweight and has type 2 diabetes mellitus.

RISK TO RELEVANT SERVICE PROVIDERS

Historical (>1 year ago) Current (within last year) Not known
Home environment remains a potential risk to staff visiting Leon at home, due to mess and clutter.
Richmond staff attempting to support Leon with this.
Leon has previously sent a love letter to a female member of staff from the befriending agency.

Historical (>1 year ago) Current (within last year) Not known
House is cluttered and untidy and therefore poses an environmental risk to staff attending his house.

OTHER CASE SPECIFIC RISKS IDENTIFIED

In September 2025 Leon contacted 999 overnight due to breathing difficulties and was admitted to

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

hospital. The next day Richmond staff had attempted to enter Leon's house using the key from the key safe but there was no key there so police welfare check was requested. A key has since been replaced and is available for staff in emergency situations.

On Clozapine therapy - has 4 weekly physical health checks at Weston.

Prescribed Methotrexate - 3 monthly blood monitoring.

Overweight (obese) with a BMI of 36.

Minimal physical activity despite encouragement and previous involvement from exercise instructor from Stratheden Hospital and OT, both in the past year.

PATIENT'S VIEW OF RISK

No change to Leon's view of risk since his last review 6 months ago.

Leon does not consider himself at risk of harm to himself or others, nor does he feel at risk of harm from other people.

Leon has insight in to his lack of motivation to fully look after his physical and mental health and recognises it's harmful effects.

CARER'S VIEW OF RISK

N/A

SUMMARY OF RISKS

Leon has a long standing diagnosis of Schizophrenia and anxiety disorder.

He is well supported in the community by Richmond Fellowship, who visit Leon at home daily.

Leon continues to have significant difficulties with motivation and looking after himself and his property sufficiently. He also requires support with his finances, as otherwise he would likely not budget effectively and over spend.

Prescribed Clozapine and Methotrexate, both of which can affect physical health and require strict monitoring. Leon is complying well with this and is supported with this by Richmond and Weston staff.

If Leon was non-compliant he would be at a high risk of relapse, at present his symptoms of Schizophrenia are well managed.

SAFETY/RISK MANAGEMENT PLAN

No changes required to current risk management plan.

Leon is to be referred to CRT in the coming weeks.

Patient Name GRATTON, Leon

CHI 1703751191

DOB 17/03/1975

Leon has daily support from Richmond Fellowship.

Leon has regular input from his CMHN with regular appointments that alternate between telephone and home visits.

Leon has annual medical reviews, as well as annual social work reviews.

Leon is subject to CPA reviews on a 6 monthly basis.

Leon has a CPA care plan in place and contained within it is a plan for crisis support if needed.

Leon is familiar with this and has often contacted CMHN out with planned appointments for additional support if needed.

Progress report:

Progress since last review

Leon continues to attend his appointments within Weston House for Clozapine monitoring and to collect his medication.

Leon has kept his regular engagement with CMHN appointments and has been working on identified goals. The frequency of contact at present is 4-6 weekly, face to face or via telephone contact.

Receives an hour of support on a daily basis from Richmond Fellowship.

Leon continues to maintain regular contact with his befriender.

Since last review Leon has had input from OT services, he was discharged from this in April due to a lack of engagement in the work required to move towards his goal of using public transport.

Issues arising/ Areas of concern

Ongoing issue remains that Leon is rarely leaving his house due to poor motivation, anxiety and physical health issues. He will only do so if getting in to someone's car or a taxi, which is very limiting for him. Discharged from OT in April due to lack of readiness to progress towards his goal. Leon could be referred back to this service in the future but needs to display positive changes and a readiness to engage in active work.

Leon is supported by Richmond staff, but there are ongoing concerns around motivating Leon to take more responsibility for his domestic chores. OT Shona McInnes has offered to do a supportive session for Richmond staff to develop strategies and skills in this area.

Ongoing issue remains that the allocation of hours for Leon from Richmond (one hour a day) are limiting in regards to supporting him with socialisation. Leon maintains that despite his difficulties he wants to be able to get out of the house more. Graham Lumsden has said there is scope to adjust the hours when necessary to allow for this.

CMHN and Leon will explore anxiety management strategies in order to work towards his goal of getting out of the house more.

Discussions had around a recent incident whereby Leon spent £1,300 in a day when money that he did not have had accidentally become available to him due to a bank error. This money has had to be repaid to the bank from Leon's trust account, which now has severely depleted funds available to him. Leon continues to have difficulty managing his own finances and continues to be fully supported with this by Richmond.

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

Person completing review: Amanda White
Designation: Staff Nurse
Date signed 02/09/2024

Needs

Needs Identified	Medical review to assess mental health and review medication.
Plan of Action	Leon continues to receive medical outpatient appointments at Weston House. Leon prefers face to face appointments for this. Leon is and will be supported by Richmond staff to attend all medical reviews.
Person Responsible	Dr Olley and Leon.
Proposed Outcome	Annual medical review and 6 monthly CPA, in the company of Richmond staff.
Update	Next annual medical review due in November 2024. At CPA Leon was requesting that Clozapine medication be reduced. Dr Olley will check plasma levels and consider this request. Dr Olley intends to review anti-depressant medication at next review.
Needs Identified	Monitoring of mental health.
Plan of Action	Therapeutic sessions for ongoing monitoring of mental state and support for Leon's mental wellbeing. Regular 1:1 contact with CMHN, either face to face at home/Weston or via telephone. Frequency of contact to be agreed upon by CMHN and Leon, depending on his needs at the time.
Person Responsible	CMHN Amanda White and Leon. CMHN Amanda White and Leon.
Proposed Outcome	Reduce risk of relapse of mental health, support Leon in reaching his optimum level of mental health and wellbeing.
Update	Leon continues to contact Weston House between appointments for additional support when he requires this. CMHN to continue to support Leon with reducing anxiety levels, working collaboratively to develop anxiety management techniques.
Needs Identified	Clozapine monitoring.
Plan of Action	Leon to attend Weston every 4 weeks for blood monitoring, medication collection and physical healthcare checks in accordance with the guidelines for Clozapine monitoring.
Person Responsible	CMHN Amanda White and Leon.
Proposed Outcome	Follow Clozapine care plan and monitor for side effects of Clozapine.

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

Update Leon has been attending all necessary Clozapine related appointments, he is fully compliant with his Clozapine care plan.
Leon has recently requested a reduction in Clozapine due to feelings of intense fear that he experiences in the late evening, which he believes to be a side effect. Dr Olley will consider this at next medical review.

Needs Identified Housing Support

Plan of Action Richmond Fellowship provide 8 hrs per week to support Leon with: Budgeting, cleaning, cooking, shopping and attending appointments. Encourage and support Leon to go out for short walks and to work on his graded exposure plan as much as possible, to reach the goal of using public transport once more.

Support workers to use key from key box (back door) when unable to access the house in an emergency situation.

Person Responsible Richmond Fellowship and Leon.

Proposed Outcome Assist Leon in maintaining his tenancy and giving support in the community to aid mental health, enabling Leon to achieve going out independently.

Update Concerns were raised at CPA review in February regarding the condition of Leon's house being untidy to the extent it posed environmental risks to both Leon and staff attending his house, eg, risk of falling due to clutter on the floor.
Graham Lumsden reported today that no improvements have been made in this area and the house remains in an untidy condition.
Lengthy discussions had around this at today's CPA.
Graham Lumsden has provided an email address for OT Shona McInnes to arrange an education session for Richmond Staff to support Leon in promoting motivation and independence.

Needs Identified Physical health needs.
Prescribed Methotrexate for Atopic Dermatitis.
Diabetes Mellitus, type 2.
Asthma.

Plan of Action Leon to contact GP for any issues with his physical health.
Blood monitoring at Weston 3 monthly for FBC, U&Es and LFTs due to Methotrexate prescription.
Medical staff will monitor blood results and liaise with Dermatology Consultant via GP.

Person Responsible GP, Dr Olley, CMHN Amanda White and Leon.

Proposed Outcome Enable Leon to reach his optimum physical health and maintain his skin integrity.

Update Next dermatology review in September 2024. Skin integrity has been variable over recent months, Leon maintains adequate personal hygiene,

Patient Name GRATTON, Leon

CHI 1703751191

DOB 17/03/1975

bathing 3-4 times a week and applying all creams as prescribed. Richmond report that they do not think this is the case.
Leon attends all his diabetes related health check appointments - no current issues regarding this.

Needs Identified Social Work Support.

Plan of Action Assess Leon for social work support.

Person Responsible Sade Aworinde

Proposed Outcome Identify needs through annual social work reviews.

Update Annual review is now due and will be arranged by the Adults East 3 Team in due course.
Sade intends to explore community resources that are relevant to Leon's particular areas of interest. (Crossroads have made contact with Leon since the CPA meeting regarding looking in to finding a guitar player befriender for Leon)

Are there any unmet service needs? Yes ☒ No ☐

Unmet Needs

It has been identified that a consistent approach needs to be taken by all staff supporting Leon, with an emphasis on promoting his independence and improving his motivation. Graham Lumsden has agreed for Richmond staff to attend an educational session with OT Shona McInnes to develop strategies to work towards this.

What action has been taken to address the need(s)?

Shona has Graham's email address and will contact him directly to arrange this.

RISK TO SELF

Historical (>1 year ago) Current (within last year) Not known

Leon shared that he does experience fleeting thoughts of suicide but no plans/intentions to act on these. He is able to dismiss them without the need for intervention. Would reach out for help if this was to worsen.

Historical (>1 year ago) Yes Current (within last year) No Not known

History of drug and alcohol misuse- not for a large number of years.

Took an overdose over 12 years ago.

22/8/24 -

Denies any thoughts of self harm or suicide.

Does not misuse alcohol or drugs, does not smoke.

Can be neglectful of personal hygiene, this can cause a flare up of atopic dermatitis.

Potential risk of falling at home due to cluttered and untidy condition of house.

RISK TO OTHERS

Historical (>1 year ago) Current (within last year) Not known

No risks to others identified.

Historical (>1 year ago) Current (within last year) No Not known

No current risks identified.

RISK FROM OTHERS

Historical (>1 year ago) Current (within last year) Not known

No current risks identified.

Historical (>1 year ago) Current (within last year) Not known

Can be vulnerable. Historically a target of another known patient asking for money and turning up at Leon's house on a regular basis. S/W were involved at that time.

22/8/24 -

Patient Name GRATTON, Leon

CHI 1703751191

DOB 17/03/1975

Leon denies any current risks from other people.

RISK TO CHILDREN

Historical (>1 year ago)

Current (within last year)

Not known

No risks identified.

Historical (>1 year ago)

Current (within last year)

Not known

No known risks to children identified.

RISK OF SELF NEGLECT

Historical (>1 year ago)

Current (within last year)

Not known

Reports to having nightly baths and tending to his personal hygiene and skin care due to dermatitis.

Support Worker Graham was present and questioned the frequency of this.

Keeps up with medication regime.

Adequate dietary intake.

Historical (>1 year ago)

Current (within last year)

Not known

Leon lacks motivation and therefore can be neglectful of his personal hygiene.

He has atopic dermatitis but does not always apply his prescribed creams.

Due to anxiety Leon avoids going out of the house.

He is not partaking in physical activity due to lack of motivation. He is overweight and has type 2 diabetes mellitus.

RISK TO RELEVANT SERVICE PROVIDERS

Historical (>1 year ago)

Current (within last year)

Not known

Home environment remains a potential risk to staff visiting Leon at home, due to mess and clutter.

Richmond staff attempting to support Leon with this.

Leon has previously sent a love letter to a female member of staff from the befriending agency.

Historical (>1 year ago)

Current (within last year)

Not known

House is cluttered and untidy and therefore poses an environmental risk to staff attending his house.

OTHER CASE SPECIFIC RISKS IDENTIFIED

In September 2025 Leon contacted 999 overnight due to breathing difficulties and was admitted to

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

hospital. The next day Richmond staff had attempted to enter Leon's house using the key from the key safe but there was no key there so police welfare check was requested. A key has since been replaced and is available for staff in emergency situations.

On Clozapine therapy - has 4 weekly physical health checks at Weston.

Prescribed Methotrexate - 3 monthly blood monitoring.

Overweight (obese) with a BMI of 36.

Minimal physical activity despite encouragement and previous involvement from exercise instructor from Stratheden Hospital and OT, both in the past year.

PATIENT'S VIEW OF RISK

No change to Leon's view of risk since his last review 6 months ago.

Leon does not consider himself at risk of harm to himself or others, nor does he feel at risk of harm from other people.

Leon has insight in to his lack of motivation to fully look after his physical and mental health and recognises it's harmful effects.

CARER'S VIEW OF RISK

N/A

SUMMARY OF RISKS

Leon has a long standing diagnosis of Schizophrenia and anxiety disorder.

He is well supported in the community by Richmond Fellowship, who visit Leon at home daily.

Leon continues to have significant difficulties with motivation and looking after himself and his property sufficiently. He also requires support with his finances, as otherwise he would likely not budget effectively and over spend.

Prescribed Clozapine and Methotrexate, both of which can affect physical health and require strict monitoring. Leon is complying well with this and is supported with this by Richmond and Weston staff.

If Leon was non-compliant he would be at a high risk of relapse, at present his symptoms of Schizophrenia are well managed.

SAFETY/RISK MANAGEMENT PLAN

No changes required to current risk management plan.

Leon is to be referred to CRT in the coming weeks.

Patient Name GRATTON, Leon

CHI 1703751191

DOB 17/03/1975

Leon has daily support from Richmond Fellowship.

Leon has regular input from his CMHN with regular appointments that alternate between telephone and home visits.

Leon has annual medical reviews, as well as annual social work reviews.

Leon is subject to CPA reviews on a 6 monthly basis.

Leon has a CPA care plan in place and contained within it is a plan for crisis support if needed.

Leon is familiar with this and has often contacted CMHN out with planned appointments for additional support if needed.

RISK TO SELF

Historical (>1 year ago) Current (within last year) Not known

Current:

Neglectful of personal hygiene, which may cause flare-ups of atopic dermatitis.

Potential risk of falling at home due to cluttered and untidy living conditions.

Tends to overspend and struggles with money management.

Denies any risk of self-harm or suicide at this time.

Not currently misusing alcohol or drugs, and does not smoke.

Historical:

History of drug and alcohol misuse, but no misuse since 2011.

In 1993, LSD use led to a stay at the Royal Edinburgh Hospital.

Took an overdose over 12 years ago.

RISK TO OTHERS

Historical (>1 year ago) Current (within last year) Not known

Current:

Leon recently sent a letter to Senga Smith (befriender) expressing his feelings for her. When this was discussed with CMHN Amanda White, Leon explained that he may have misinterpreted the situation and was unaware that his actions might have crossed professional boundaries.

Historical:

Staff should remain mindful of Leon's history of becoming fixated and sexually disinhibited with female staff when unwell. It is important to be aware of this context moving forward.

Leon has a noted history of shoplifting.

In May 2002, he was charged with breach of the peace for sending threatening letters to Falkirk Council regarding his ex-wife, who was a social worker.

In August 2022, he was charged for hitting his mother and arrested.

In 2004, there were multiple incidents of verbal aggression towards his ex-wife and two incidents of physical aggression towards his mother.

RISK FROM OTHERS

Historical (>1 year ago) Current (within last year) Not known

Historical: Leon can be quite vulnerable due to past experiences. He has previously been targeted by another patient, who repeatedly asked him for money and would show up at his house on a regular basis. This situation led to the involvement of social workers at the time to address the issue and provide support.

Patient Name GRATTON, Leon
CHI 1703751191
DOB 17/03/1975

RISK TO CHILDREN

Historical (>1 year ago) Current (within last year) Not known
No known risks to children identified

RISK OF SELF NEGLECT

Historical (>1 year ago) Current (within last year) Not known

Current:

Leon can lack motivation, leading to neglect of personal hygiene.
He has atopic dermatitis but does not always apply his prescribed creams.
Due to anxiety, Leon often avoids leaving the house.
He lacks physical activity, is overweight, and has type 2 Diabetes Mellitus.

Historical:

There is a history of similar patterns of neglect regarding personal hygiene and medication adherence.
Leon has struggled with managing his anxiety and has a longstanding tendency to avoid social situations.
His weight and physical activity levels have been a concern in the past, contributing to his ongoing health issues, including type 2 Diabetes Mellitus.

RISK TO RELEVANT SERVICE PROVIDERS

Historical (>1 year ago) Current (within last year) Not known

Current and Historical:

Clutter in the home poses potential trip and fire hazards.
Staff should be aware of Leon's historical sexual disinhibition, forensic history, and the recent letter he sent to Senga (accessible via files).

OTHER CASE SPECIFIC RISKS IDENTIFIED

Current:

Leon is on Clozapine therapy and receives physical health checks every 4 weeks at Weston.
He is prescribed Methotrexate and undergoes blood monitoring every 3 months.
He is overweight (obese) with a BMI of 38.
Leon engages in minimal physical activity, despite encouragement and previous involvement from an exercise instructor at Stratheden Hospital and an Occupational Therapist.

PATIENT'S VIEW OF RISK

Leon does not consider himself to be a risk to himself or others.
He denied that he has previously been sexually disinhibited to females in the past, although this is documented from when an inpatient in Dunino Ward. He also lacked awareness of the inappropriateness of sending a love letter to the Senga the befriending co-ordinator.

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

CARER'S VIEW OF RISK

N/A

SUMMARY OF RISKS

Current Risks:

Lack of Motivation & Personal Hygiene: Leon can experience a lack of motivation, leading to neglect of personal hygiene, which could contribute to physical health complications, including skin infections or exacerbation of his atopic dermatitis.

Atopic Dermatitis Management: Leon has atopic dermatitis but does not consistently apply his prescribed creams, increasing the risk of flare-ups and worsening the condition.

Social Isolation: Due to anxiety, Leon is prone to avoiding social situations, which may lead to increased isolation, negatively impacting his mental health and hindering access to support networks.

Overspending & Financial Management: Leon struggles with managing his finances and tends to overspend, which could lead to financial instability and added stress.

Physical Health Concerns: Leon is overweight (obese) with a BMI of 38 and engages in minimal physical activity. This increases the risk of developing further health complications, including cardiovascular issues, joint problems, and poor management of his type 2 diabetes mellitus.

Historical Risks:

Substance Misuse: Leon has a history of alcohol and substance misuse, specifically with cocaine, amphetamines, and LSD. Although he has been abstinent since 2011, this history may indicate vulnerability to relapse, particularly during periods of stress or instability.

Sexual Disinhibition: In the past, Leon has displayed sexual disinhibition towards female staff when unwell. This, along with his forensic history, requires ongoing vigilance and staff awareness, particularly regarding professional boundaries.

Forensic History & Aggressive Behaviour: Leon has a forensic history, including a charge for sending threatening letters in 2002 and multiple incidents of verbal and physical aggression towards family members. Although no recent incidents have been reported, staff should remain mindful of any potential triggers for aggressive behaviour.

Recent Correspondence & Boundaries: A recent letter sent to Senga Smith (befriender) expressing personal feelings raises concerns about potential boundary issues. This, combined with his historical behaviour, reinforces the need for staff to be aware of any signs of fixation or inappropriate emotional attachments. The letter is available in the attached files for further review.

SAFETY/RISK MANAGEMENT PLAN

Leon is open to medical and nursing staff within the CMHT and is subject to CPA review on a 6 monthly basis.

Leon attends monthly appointments at Weston House for Physical healthcare monitoring due to Clozapine prescription.

Leon will meet with CMHN 8-12 weekly to allow him the opportunity to discuss any issues or concerns that he has with his mental health, exploring biological, social and psychological needs.

Patient Name GRATTON, Leon

CHI 1703751191

DOB 17/03/1975

In between scheduled appointments, Leon will have access to the duty worker at Weston for more urgent matters related to his mental health, out with these times Leon should utilise NHS 24 or 999 if needed.

Current Risks:

Isolation & Lack of Physical Activity:

Leon has re-engaged with his old hobby of fishing, which has provided him with a chance to socialise and engage in light physical activity. He went fishing once in March 2025 with his CMHN, Cameron Brougham, and has plans to go again on 14/5/25. The plan moving forward is for Leon to access this independently, with potential assistance from Richmond Fellowship. To mitigate isolation further, encouraging Leon to explore additional hobbies or social activities could help reduce the risk of social withdrawal. Community or group-based activities may also provide beneficial opportunities for engagement and reduce isolation.

Leon is on a waiting list for befriending service, social work are trying to match him with someone with similar interests.

Overspending:

Leon's finances are managed by Richmond Fellowship, who provide him with a portion of his funds weekly, thereby mitigating the risk of overspending and financial instability.

Environmental Risks:

Leon receives daily support from Richmond Fellowship, which helps maintain a safer and more organised home environment, reducing the risk of trip or fire hazards.

Regular monitoring and checks from his care team, including his CMHN, will help identify and address any environmental risks promptly.

Obesity:

Leon has been referred to the community gym by Amanda White, though he did not engage. A referral to a dietitian is scheduled for discussion, which may help address his obesity and associated health risks.

Ongoing support with physical activity, possibly through more engaging or enjoyable options such as fishing, could help mitigate risks related to obesity. Regular follow-up with a dietitian and exercise professional would also support healthier lifestyle choices. Leon is also prescribed Methotrexate and undergoes blood monitoring every 3 months.

Mental Health & Support:

Leon's mental state is stabilised through Clozapine, which he started in June 2012. This has enabled him to remain well in the community.

Leon receives regular input from his CMHN, with appointments alternating between telephone consultations and home visits. This ensures ongoing monitoring of his mental health and provides opportunities for early intervention when needed.

To mitigate cognitive risks, Leon stays mentally active by writing, reading, playing bass guitar, writing songs, and painting figurines. These activities provide cognitive stimulation and reduce the risk of mental stagnation.

Health & Reviews:

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

Leon has annual medical and social work reviews, ensuring regular assessment of his physical and mental health. These reviews help identify emerging issues and allow for timely intervention.

Leon is subject to CPA (Care Programme Approach) reviews every six months. His care plan includes a crisis support plan, which he is familiar with and has used when he requires additional support outside of planned appointments. A recent CPA led to the re-commencement of fishing, which was the first recreational outing Leon has had in quite some time.

Historical Risks:

Substance Misuse:

Leon has a history of alcohol and substance misuse, including cocaine, amphetamines, and LSD. While he has been abstinent since 2011, this history indicates a potential vulnerability to relapse during times of stress or instability.

Sexual Disinhibition:

Leon has exhibited sexual disinhibition towards female staff when unwell. This historical behaviour, combined with his forensic history, requires continued awareness and vigilance from staff (historically female), particularly around maintaining professional boundaries.

Forensic History & Aggressive Behaviour:

Leon has a forensic history, including being charged with sending threatening letters in 2002 and multiple incidents of verbal and physical aggression towards family members. Although no recent incidents have occurred, staff should remain aware of any potential triggers for aggression.

Recent Correspondence & Boundaries:

A recent letter sent by Leon to Senga Smith (befriender), expressing personal feelings, raises concerns about potential boundary issues. This, along with his historical behaviour, requires ongoing monitoring for any signs of fixation or inappropriate emotional attachments. The letter is available in the attached files for review.

Additional suggestions:

Social & Community Engagement:

Encouraging Leon to participate in group-based activities or volunteer opportunities may help reduce isolation and provide further social interaction. Encourage Leon to attend Ladybank Music Group (historically attended local Springfield music group, which Leon enjoyed but unfortunately the local pub closed down).

Financial Management Support:

Offering regular financial literacy workshops or one-on-one support with a financial advisor could further assist Leon in improving his budgeting skills and financial independence.

	Parameter	Results if applicable	Recommendations/advice given to patient
1	Pulse	111	Regular 30 minute daily walk/exercise will help to reduce elevated pulse rate.
2	Blood Pressure	142/89	Regular 30 minute daily walk/exercise will help to reduce blood pressure.
3	BMI	38	Eating healthier and having a balanced meal at meal times plus reducing high fatty/processed foods in conjunction with exercise will help to reduce BMI.
4	Cholesterol		
5	Glucose		
6	Diet (5 a Day)	Leon reports having 2/5 a day in his daily diet sweet corn and green beans/mushy peas.	Leon tells us he is not following the recommended 5-a-day diet, although he frequently eats sweet corn and occasionally has an apple. He further stated that he does not like other fruits and vegetables, which is why he rarely includes them in his diet. Leon was encouraged to consider the health benefits of incorporating a broader range of fruits and vegetables. He acknowledged the benefits of adding more fibre but affirmed his dislike for them, stating he would consider adding more fruits and vegetables to his diet.
7	Urine/Bowels	No issues reported with passing urine or bowel movement.	Leon should inform his GP or CMHT of any changes with his urine/bowels. He was also reminded of the importance of including fruits and vegetables in his diet.
8	Sleep	Leon reports no difficulty with sleeping.	Leon reported that he is always tired, going to sleep at 2am and waking up at 11am because he stays up reading and writing his books. Despite getting the recommended 8 hours of sleep, he explained that he is constantly tired. It was suggested that he try engaging in less stimulating activities before bed and go to sleep earlier to improve the quality of his sleep.
9	Exercise	Leon does not exercise at this moment.	Leon explained that he used to enjoy going out for walks but no longer does, citing, "I am just too lazy now." He was reminded of the physical and mental health benefits of walking and encouraged to take advantage of the picturesque

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

			surroundings near his home. Leon acknowledged the potential health benefits of walking and stated that he would make an attempt to start walking again.
10	Smoking	Leon does not smoke at present, but at times has the urge to smoke. He explained that when he considers the current price of cigarettes and how worse off he would be stops him from returning to smoking.	
11	Alcohol	Leon does not consume alcohol.	
12	Sexual Function	Leon reports he has no difficulties with his sexual function.	Leon was reminded to contact his GP should he find any issue with his sexual function.
13	Sexual Health	Leon reports he practises safe sex when ever he engages in sexual activity.	Leon was encouraged to continue with his practise of safe sex.
14	Feet	Leon explained that he has Eczema 'bad skin' on his feet which is occasionally painful and impedes his mobility.	Leon is to continue with his current topical regimen for eczema and inform primary care if his symptoms do not improve. He was also encouraged to ask the diabetic clinic to check his feet at his next visit.
15	Teeth	Wears dentures, not been to the dentist for a while and hates going due to anxiety.	Leon wears dentures and has a few remaining natural teeth. He was informed about the health benefits of regular dental visits for oral care and encouraged to make an appointment. He was also advised to go with a support worker to help manage his anxiety.
16	Eyes	No issue, has regular eye test.	Leon is to continue with his annual glaucoma eye checks and biannual regular eye tests.
17	Blood Borne Viruses	Leon is not engaging in activities that would make him vulnerable to BBV infections.	
18	Testicular Check	No issue, self checks frequently.	Leon was commended on taking a proactive attitude with frequent testicular checks and was encouraged to maintain his routine checking.
19	Cervical Smear	N/A	
20	Breast Check	No issue, does regular self check.	Leon was commended for his proactive attitude in performing frequent breast checks and was encouraged to maintain his routine.

Progress since last review

Leon continues to attend his appointments at Weston House for Clozapine monitoring and collecting medication.

Leon has been keeping regular appointments with CMHN and has identified goals to work towards. Had received extra support following the loss of his mother, frequency of contact is currently 4-6 weekly, face to face or telephone contact.

Leon continues to engage well with a local

Issues arising/ Areas of concern

Leon continues to avoid using buses and tends to isolate himself at home due to the extent of his anxiety. Leon continues to find motivation problematic.

Leon requires support to enable him to better access community resources and reduce social isolation.

Current allocation of hours from Richmond Fellowship limits ability for Richmond staff to support Leon in accessing community

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

music group, The Bothy, attending this every other Thursday evening. resources.

Leon is still awaiting the re-appointment of a new befriender, he remains in contact with Senga Smith from LINK befriending regarding this.

A referral was submitted to OT (March 2022), he remains on the waiting list for this.

Person completing review: Amanda White
Designation: Staff Nurse
Date signed 22/03/2023

Needs Identified: Medical review to assess mental health and review medication.

Plan of Action: Leon to receive medical outpatient appointments at Weston House. Leon prefers face to face appointments for this, however, has missed last 2 appointments, therefore going forward Leon will be supported by Richmond Workers to attend medical review.

Person Responsible: Dr Olley and Leon Gratton.

Proposed Outcome: Annual medical review and 6 monthly CPA, in the company of Richmond staff.

Update: Next annual medical review due November 2023.

Needs Identified: Monitoring of mental health.

Plan of Action: Therapeutic sessions for ongoing monitoring of mental state and support for Leon's mental wellbeing.
Regular 1-1 contact with CMHN, either face to face at home/Weston or via telephone.
Frequency of contact to be agreed between Leon and CMHN depending on Leon's needs at the time.

Person Responsible: CMHN Amanda White and Leon Gratton.

Proposed Outcome: Reduce risk of relapse of mental health, support Leon in reaching his optimum mental health and wellbeing.

Update: Following a period of increased contact following the death of Leon's mother, the frequency of appointments has been decreased to 4-6 weekly. Leon continues to contact Weston between appointments for additional support when he requires it.
CMHN is supporting Leon with reducing anxiety levels and goal planning.

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

Needs Identified: Clozapine monitoring

Plan of Action: Leon to attend Weston every 4 weeks for blood monitoring and physical healthcare checks in accordance with the guidelines for Clozapine monitoring.
Leon to collect medication from Weston on a fortnightly basis.

Person Responsible: CMHN Amanda White and Leon Gratton.

Proposed Outcome: Follow Clozapine care plan and monitor for side effects of Clozapine.

Update: Leon has been attending all necessary clozapine related appointments, he is fully compliant with his clozapine care plan.
Annual clozapine physical health check is due November 2023.

Needs Identified: Housing Support.
Support workers to use key from key box (at back door) when unable to access house in an emergency situation.

Plan of Action: Richmond Fellowship provide 8 hours a week support for budgeting, cleaning, cooking, shopping and attending appointments.
Encourage and support Leon to go out for short walks and to work towards using public transport.

Person Responsible: Richmond Fellowship staff and Leon Gratton.

Proposed Outcome: Assist Leon in maintaining his tenancy and giving support in the community to aid mental health, enabling Leon to be able to go out independently.

Update: Claire Fitzsimmons and Lisa Nisbet attended this CPA in Graham Lumsden's absence.
Leon engages well with Richmond Fellowship staff. Leon lacks motivation in tending to household chores like cooking and cleaning and is supported by support workers to do this.
Leon is supported with his finances by Richmond to help with budgeting. Leon has not recently been engaging with short walks out of the house or using public transport and this is impacting on his quality of life. Leon acknowledges this and will make efforts to work with staff to improve this situation.
Richmond staff will consider re-arranging Leon's allocated hours to allow for therapeutic activity to take place, eg, using public transport/accessing community based resources. Social Work plan to consider an increase in hours at the next review.

Needs Identified: Physical health needs, prescribed Methotrexate for Atopic Dermatitis.

Plan of Action: Leon to contact GP for any issues with his physical health.
Blood monitoring at Weston 3 monthly for FBC, U&Es and LFTs due to Methotrexate prescription.

Patient Name GRATTON, Leon
CHI 1703751191
DOB 17/03/1975

Medical staff will monitor blood results and liaise with Dermatology Consultant via GP.

Person Responsible: Dr MacLaren GP, Bank Street Medical Group, Leon Gratton and Weston staff.

Proposed Outcome: Enable Leon to reach his optimum physical health and maintain his skin integrity.

Update: Leon's last dermatology review was on 7/02/23, and his reviews have been extended to annually due to long term stability, however, Leon has experienced a recent deterioration in his skin integrity and Dermatology to be contacted. Request face to face appointments going forward rather than telephone.
Leon to arrange for review of Asthma and also concerns regarding a possible chest infection, Richmond staff to support Leon with this.

Needs Identified: Social Work Support.

Plan of Action: Assess Leon for Social Work support

Person Responsible: Aggie Sikorska, Social Worker.

Proposed Outcome: Identify needs through annual Social Work reviews.

Update: Annual review to be arranged.
Funding remains in place for Richmond Support. There is the potential for an application to be made for increased hours to allow for Leon to be supported in accessing community resources.

Leon continues to attend his appointments within Weston House for Clozapine monitoring
Issues arising/ Areas of concern
Ongoing issue remains that Leon is rarely leaving his house due to low motivation, anxiety

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

and to collect his medication.

Leon has kept his regular engagement with CMHN appointments.

Leon had been working well with input from CMHN Brougham to engage in activities out with his home, however, this is no longer available due to staff leaving.

Leon continues to receive an hour of support on a daily basis from Richmond Fellowship. Recent annual Social Work review has secured funding for support for a further year. Leon reports that he is trying hard to keep on top of housework with support. Step father George reports seeing an improvement in Leon's home environment today.

Leon had been on the waiting list for Crossroads befriending, unfortunately this is no longer the case due to the length of this list.

and physical health issues. He will only do so by car or a taxi, which is very limiting for him.

Graham Lumsden suggested Leon funding private support from Richmond for increased hours in order to attend recreational activities, apparently Leon has the funds to cover this. It was noted that Leon will often make requests for larger sums of money to pay for items such as guitars and publishing books.

Discussion's had about condition of Leon's tenancy, and ongoing environmental risks.

Previous CPA review

highlighted need for a deep clean. Graham Lumsden will make contact with housing to consider options for a deep clean.

Discussions had around suitability of a referral to CRT team. Leon is in agreement with this, and following consultation with Team Lead Emily Morris a referral will be submitted by Dr Olley in due course.

Person completing review:	Amanda White
Designation:	Staff Nurse
Date signed	13/05/2026

Needs

Needs Identified	Medical review to assess mental health and review medication.
Plan of Action	Leon continues to receive medical outpatient appointments at Weston House. Leon prefers face to face appointments for this. Leon is and will be supported by Richmond staff to attend all medical reviews.
Person Responsible	Dr Olley and Leon.
Proposed Outcome	Annual medical review and 6 monthly CPA, in the company of Richmond staff.
Update	Leon has not had a medical review for 18 months due to a missed appointment. His next medical review has been arranged for 18/06/26. Today Leon shared that he continues to struggle with anxiety and low mood due to bereavement of his mother and father. Auditory hallucinations are still evident particularly at night time.

Needs Identified	Monitoring of mental health
Plan of Action	Therapeutic sessions for ongoing monitoring of mental state and support for Leon's mental wellbeing. Regular 1:1 contact with CMHN, either face to face at home/Weston or via telephone. Frequency of contact to be agreed upon by CMHN and Leon, depending on

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

his needs at the time.

Person Responsible CMHN Amanda White and Leon.

Proposed Outcome Support Leon in reaching his optimum level of mental health and wellbeing, and reduce risk of relapse of mental health.

Update CMHN continues to support Leon with regular appointments. Leon does contact Weston between scheduled appointments if he requires additional support, his need for reaching out for this has lessened in frequency.

Needs Identified Clozapine monitoring

Plan of Action Leon to attend Weston every 4 weeks for blood monitoring, medication collection and physical healthcare checks in accordance with the guidelines for Clozapine monitoring.

Person Responsible CMHN White and Leon.

Proposed Outcome Follow Clozapine care plan and monitor for side effects of Clozapine.

Update Leon has been attending all necessary Clozapine related appointments, he is fully compliant with his Clozapine care plan.

Needs Identified Housing support

Plan of Action Richmond Fellowship provide 8 hrs per week to support Leon with: Budgeting, cleaning, cooking, shopping and attending appointments. Encourage and support Leon to go out for short walks and to work on his graded exposure plan as much as possible, to reach the goal of using public transport once more. Support workers to use key from key box (back door) when unable to access the house in an emergency situation.

Person Responsible Richmond Fellowship Support Workers and Leon.

Proposed Outcome Assist Leon in maintaining his tenancy and giving support in the community to aid mental health, enabling Leon to achieve going out independently.

Update Incident since last review whereby Richmond staff were required to access Leon's house and the key was not in the key box, Police were contacted for a welfare check (Leon had been admitted to VHK overnight) The key has now been replaced. Graham Lumsden plans to contact housing service regarding options for deep clean of Leon's home.

Needs Identified Physical Health Needs.
Atopic Dermatitis - prescribed Methotrexate.
Diabetes Mellitus Type 2
Asthma

Plan of Action Leon to contact GP for any issues with his physical health. Blood monitoring at Weston 3 monthly for FBC, U&Es and LFTs due to

Patient Name	GRATTON, Leon
CHI	1703751191
DOB	17/03/1975

Methotrexate prescription.
Medical staff will monitor blood results and liaise with Dermatology Consultant via GP.

Person Responsible GP, Dr Olley, CMHN Amanda White and Leon.

Proposed Outcome Enable Leon to reach his optimum physical health and maintain his skin integrity.

Update Dermatology - regular appointments. Recent change to fabric conditioner and an increase in methotrexate. Skin integrity does fluctuate, at present improvements noted in skin condition.
Diabetes - annual check ups, last one in 2025, awaiting 2026 appointment.
Asthma - Episode of pneumonia in Sep 25 requiring hospitalisation. Leon's asthma is well managed with 2 inhalers, reports a slight cough that comes and goes. Dr Olley noted that recent blood test indicates raised inflammation markers, and has requested further bloods, same has been requested by CMHN White.
Today Leon queried about a bowel cancer result he received 15 years ago. This was looked in to by Dr Olley and nothing was found on his medical records relating to this. This prompted discussion about bowel screening as Leon is over 50 and not completed one. A kit will require to be requested for this via GP.

Needs Identified Social Work Support

Plan of Action Assess Leon for social work support.

Person Responsible Michael Ireland SW or Duty SW.

Proposed Outcome Identify needs through annual social work reviews.

Update Leon is on the duty SW list for annual review.
Annual review completed in April 2026 - no changes.

Are there any unmet service needs? Yes ☐ No ☒

Progress report:

Progress since last review

Leon continues to attend his appointments within Weston House for Clozapine monitoring and to collect his medication.

Leon has kept his regular engagement with CMHN appointments and is working on identified goals. Since December CMHN Brougham has also become involved with Leon's care provision and the plan is for them to work towards Leon leaving the house more to engage in leisure activities, such as fishing and a music group in Ladybank.

Leon continues to receive an hour of support on a daily basis from Richmond Fellowship.

Leon is no longer allocated a befriender through LINK befriending, this service has been withdrawn due to them not leaving the house for their sessions, which is the expectation of LINK.

A referral has been made, by Social Work, to Crossroads in the hope of matching Leon with a new befriender who shares similar interests with Leon, to encourage activities out with the home environment.

Issues arising/ Areas of concern

Richmond are currently supporting Leon with making the transition from ESA benefit to Universal Credit, this has not been an easy process and is ongoing. They are seeking a letter of support regarding Leon's employment status, Dr Olley has directed them to GP to assist with this in the first instance.

Ongoing issue remains that Leon is rarely leaving his house due to low motivation, anxiety and physical health issues. He will only do so by car or a taxi, which is very limiting for him. Discharged from OT in April 2024 due to lack of readiness to progress towards his goal. Leon could be referred back to this service in the future but needs to display positive changes and a readiness to engage in active work. Leon does identify this as a goal of his and CMHN Brougham is now involved and will be taking forward some graded exposure type work to improve this situation.

Discussion's had about ongoing poor condition of Leon's tenancy, and how this poses environmental risks. Shona McInnes OT has previously offered to do a supportive session for Richmond staff in order to develop strategies and skills to support Leon in this area, CMHN White will follow this up and feedback to Graham Lumsden.

George has suggested the possibility of Leon paying to have a deep clean, which was

DOB	17/03/1975

discussed and considered to be a valid option, with the expectation that a schedule would be devised in order to keep on top of domestic chores going forward. SW Michael Ireland agreed to look in to this.

Person completing review: Amanda White
 Designation: Staff Nurse
 Date signed 27/02/2025

Needs

Needs Identified	Medical review to assess mental health and review medication.
Plan of Action	Leon continues to receive medical outpatient appointments at Weston House. Leon prefers face to face appointments for this. Leon is and will be supported by Richmond staff to attend all medical reviews.
Person Responsible	Dr Olley and Leon.
Proposed Outcome	Annual medical review and 6 monthly CPA, in the company of Richmond staff.
Update	Last medical review 7/11/24, next one due November 2025. At this review to was agreed that no medication changes were necessary at present.
Needs Identified	Monitoring of mental health
Plan of Action	Therapeutic sessions for ongoing monitoring of mental state and support for Leon's mental wellbeing. Regular 1:1 contact with CMHN, either face to face at home/Weston or via telephone. Frequency of contact to be agreed upon by CMHN and Leon, depending on his needs at the time.
Person Responsible	CMHN Amanda White, CMHN Cameron Brougham and Leon.
Proposed Outcome	Reduce risk of relapse of mental health, support Leon in reaching his optimum level of mental health and wellbeing.
Update	Leon does contact Weston between scheduled appointments if he requires additional support, this has been noted to have lessened in frequency since last CPA. CMHNs continue to support Leon with reducing anxiety levels, working collaboratively to develop techniques for this. There are plans for CMHN Brougham to work with Leon on some graded exposure in order to attend leisure activities. Leon has chosen to do fishing

in the first instance, but is also hoping to work towards attending a music group in Ladybank too.

Needs Identified	Clozapine monitoring.
Plan of Action	Leon to attend Weston every 4 weeks for blood monitoring, medication collection and physical healthcare checks in accordance with the guidelines for Clozapine monitoring.
Person Responsible	CMHN Amanda White, CMHN Cameron Brougham and Leon.
Proposed Outcome	Follow Clozapine care plan and monitor for side effects of Clozapine.
Update	Leon has been attending all necessary Clozapine related appointments, he is fully compliant with his Clozapine care plan.
Needs Identified	Housing support
Plan of Action	Richmond Fellowship provide 8 hrs per week to support Leon with: Budgeting, cleaning, cooking, shopping and attending appointments. Encourage and support Leon to go out for short walks and to work on his graded exposure plan as much as possible, to reach the goal of using public transport once more. Support workers to use key from key box (back door) when unable to access the house in an emergency situation.
Person Responsible	Richmond Fellowship Support Workers and Leon.
Proposed Outcome	Assist Leon in maintaining his tenancy and giving support in the community to aid mental health, enabling Leon to achieve going out independently.
Update	Ongoing issues remain, in regards to the untidy condition of Leon's house. Sessions tend to mostly consist of sitting and talking with Leon, due to lack of social contact. Discussions had at CPA today of using the allocated time to support Leon to establish a domestic schedule and to encourage him to keep to it as far as possible. Whilst also recognising the progress that Leon has made already. Richmond have also been supporting Leon to sort out his benefits as previously mentioned. Graham remains open to a supportive session for Richmond staff from OT as previously mentioned, CMHN will look in to this.
Needs Identified	Physical Health Needs. Atopic Dermatitis - prescribed Methotrexate. Diabetes Mellitus Type 2 Asthma
Plan of Action	Leon to contact GP for any issues with his physical health. Blood monitoring at Weston 3 monthly for FBC, U&Es and LFTs due to Methotrexate prescription. Medical staff will monitor blood results and liaise with Dermatology Consultant via GP.
Person Responsible	GP, Dr Olley, CMHN Amanda White and Leon.
