Summary of Contact

19/6/00

Kevin was invited at lunch time by a lawyer, requesting a statement re: an assault that Kevin witnessed. Kevin refused to speak to him.

After lunch he was late getting to class and when he got there he was very anti-authoritarian. When challenged he did a runner and left the school - He returned but ran off again before he could be spoken to.

He returned before break and was put into close proximity. I spent the break with him, and ~~again~~ reinforced that this would continue unless he did what was expected of him. He was not very communicative but listened to what was being said.

P/C to nurse report from him staying at a friend's on Friday and forgetting to tell his nurse, he was fine. I updated her on events here.
