Review Report- Education

Child's Name: Paul Hepburn

Date of review:

Report prepared by: [REDACTED]

- A. Programme of study: Standard grades, modules and non-certificate courses.
- B. Achievements in the last 6 months (learning outcomes, topics of study, etc)

English

A good start for Paul. He works well and has received several certificates. The group is currently working on the novel 'Buddy'.

Maths

Paul has made a very settled start in this subject and is working well. looking at areas of Circles at the moment

Computing

Paul is working on a Programming block at present. He completes his work with enthusiasm and is a pleasure to have in the class.

Science

Paul is working at Foundation / General level at Standard Grade and is currently working on the Energy topic. He is quick, and clever and is more than able to achieve a pass in this subject. He is good at both the written and the practical work and sets an example in both these elements. His behaviour is generally good and he shows respect for the school rules, staff and his peers. A very good start; keep up the good work Paul.

P.E

Paul has had a good start to PE here. He has worked well at football in particular despite having suffered an injured foot early on. He is always co-operative and positive in his attitude towards this subject. Well done!

Art

A good start in the art class from Paul. He concentrates well on tasks that are set and tries his best on most occasions. We have been working on landscapes with watercolours and clay modelling.

Home Economics

After a short settling in period Paul has worked extremely well in Home Economics. He

recently took part in an Easter Cake competition and came first in his group. Well done! He is working towards and Access 3 Health and Food Technology: Organisation and Practical skills and will continue with this next term. He is coping well with both the practical and the written work.

Learning support

PSE

Paul has been studying Drugs Education this term

R&M

Not seen him yet in this subject.

C. Present stage of development
Standard grades and Access units

D. Next steps in learning
Paul is a capable worker if he can sustain this positive start he should do well.

E. Behaviour and Attitude
On the whole this has been very good in the school and I would say is still improving. Initially there were one or two incidents when he was drawn into unsettled behaviour by 'jumping on other people's silly bandwagons' as he has grown in confidence, however, this type of incident has reduced and he is doing very well.

F. Relationship with peers
There are no obvious problems and he seems able to get on with all personality types.

KEY TEACHERS COMMENTS

We have all been impressed by Paul's behaviour and work rate in the school. He is likeable and friendly and has made a very positive start.
