Dear Dr Jack

Mr Lee Reid (10/05/1992) Breedless Croft, Turriff, ZZ99 3CZ

Date of Admission: 23.10.05.
Date of Discharge: 24.10.05.
Principal Diagnosis: Head Injury
Consultant: Dr J Richardson

This 13 year old boy was admitted to the Accident & Emergency ward following a head injury which he sustained after falling 4 ft off a rope swing. He had lost consciousness briefly and had amnesia surrounding the event.

On examination he was alert and orientated with no obvious head injury. He was admitted overnight for observation and made a full recovery.

He was subsequently discharged with no further Accident & Emergency follow-up planned.

Yours sincerely
