Consultations

Consultations	
<u>10/07/2025</u>	<u>Dr Nicki Summers at Telephone Consultation</u>
History	Note entries. Needing mirtazapine and co-codamol as has now gone 4 days without and struggling with mood and sleep. Note said he was suicidal earlier-I think this was just him expressing his distress as no plans to commit suicide and would not harm self as is main carer for his son with autism. States SW involved. 2 other children who currently live with their Mum but his son lives with him. Had been doing well with mirtazapine 30mg. Note now lives in Methil and has done for some time, no plan to move back to Kirkcaldy
Comment	Advised on this occasion we will phone Well's pharmacy in Methil with barcodes for mirtazapine and co-codamol but advised this is a one off situation and will need to register with a GP in Methil for next prescription/review with them, patient understanding of this
<u>10/07/2025</u>	<u>Mrs Gina Marshall-Assistant Practice Manager at Bennoch Medical Centre</u>
Comment	Please complete all questions: 1) Please call patient today regarding ...pt says he urgently needs medication. Says he has been living in Methil for 6 months. Says agreement with Locum for script to be sent to Methil at no cost to him. Have explained he needs to register in Methil and gave numerous options for getting script today. Pt demanded appt with Dr Gray, explained nothing available but said could speak with Duty GP. Pt demanded housecall in Methil but said GPs will not come to that address as outside boundary. Pt raised voice to say we are not listening or understanding. Tried to explain he could go to a pharmacy for a CPUS but pt talked over me and said he was suicidal and needed urgent call back and terminated call. Do not have address pt is currently at. 2) How long has the patient had these symptoms for?ongoing..... 3) Contact number:07312071592.... 4a) Can the patient attend the surgery today if invited - No 4b) If no, why not? pt has disabled son and cannot get to Kirkcaldy.

<u>06/06/2025</u>	<u>Dr Andrew Gray - Locum at Bennoch Medical Centre</u>
History	Ongoing breathlessness, had been feeling better until yesterday at which point noticed breathlessness worsen again, oddly had prescription for more steroids issued by hospital, has started taking though I don't know who or why this was issued as original admission was several weeks ago. Has concurrent dental issues for which he has been using regular ibuprofen for the last 2 weeks.
Examination	Able to talk in full sentences, walked to practice but visibly breathless RR24 Chest - widespread wheeze and stidor with good a/e throughout P89
Comment	Plan STOP ibuprofen as likely exacerbating symptoms, have issued co-codamol for dental pain, continue pred, issued higher strength fostair (feels inhaler helps) review if no improvement in one week
Medication	Co-Codamol 30/500 Caplets <i>100 tablet ONE OR TWO TO BE TAKEN UP TO FOUR TIMES A DAY WHEN REQUIRED (MAX 8 TABLETS CONTAINING PARACETAMOL IN 24HRS)</i> Fostair Cfc-free inhaler 200 micrograms + 6 micrograms/dose <i>120 dose 2 PUFFS BD</i>
<u>04/06/2025</u>	<u>Mrs Gina Marshall-Assistant Practice Manager at Bennoch Medical Centre</u>
Comment	Please see patient on (Date: 04/06/2025.) regarding ...ongoing breathlessness, wishes to discuss long term plan and inhalers.....This is booked as a f2f consultation. Any issues, the contact Number is -07312071592.....
<u>03/06/2025</u>	<u>Dr Rajasingham Priyadarshan at Telephone Consultation</u>
History	Demanding strong pain killers been to the dentist needs teeth extraction ? root infection etc no emergency slot they apparently offered ibuprofen/ pcm and told him to contact gp practice !! for strong pain killers ?? odd req pt would not listen to me I have asked him to req something in writing from the dental practice as this is an odd req pt was intimidating and rather rude and would not listen to me await events

<u>03/06/2025</u>	<u>Mrs Lynsay Allan - Receptionist at Bennoch Medical Centre</u>
Comment	Please complete all questions: 1) Please call patient today regarding patient visited dentist today. Has had some treatment and has more scheduled. Requires pain relief until his next appointment in one month. Dentist advised they could not prescribe..... 2) How long has the patient had these symptoms for?...ongoing dental treatment..... 3) Contact number: .07312071592..... 4a) Can the patient attend the surgery today if invited - Yes

<u>23/05/2025</u>	<u>Dr Andrew Gray - Locum at Bennoch Medical Centre</u>
History	Call to patient Attended AU1 last night and was given two sets of nebulisers and advised he would require admission, had CXR. Waited for several hours before being discharged. Understandably frustrated by this. Received one dose of prednisolone whilst in hospital but not discharged with any medication. Feels slightly better today but ongoing breathlessness and unsure what to do as has no medication. Does not sound breathless on phone. Keen to avoid long wait in AU1 again. Plan I will issue script for AIR therapy, antibiotics and prednisolone. Keep this afternoon's appointment in case deteriorates and advised to call NHS 24 if worsens over weekend. Have arranged appt for 2 weeks time to discuss further investigations to establish asthma diagnosis. Lee happy with plan
Medication	Doxycycline Hyclate Capsules 100 mg 6 CAPSULE TWO TO BE TAKEN ON THE FIRST DAY THEN ONE TO BE TAKEN EACH DAY Fostair Cfc-free inhaler 100 micrograms + 6 micrograms/dose 1 INHALER ONE PUFF TO BE INHALED TWICE A DAY FURTHER FOUR PUFFS THROUGHOUT THE DAY IF REQUIRED
<u>23/05/2025</u>	<u>Miss Chloe Sismey - Receptionist at Bennoch Medical Centre</u>
Comment	Please complete all questions: 1) Please see patient today regarding Pt saw yourself yesterday. Went to hosp as per your advice says he was in a&e for 6hrs & feels he didn't... receive any treatment. Did not receive any medication. Still very short of breath. Hosp suggested he get medication from GP..... 2) How long has the patient had these symptoms for?...few weeks..... 3) Contact number: 07312071592.....

<u>22/05/2025</u>	<u>Dr Andrew Gray - Locum at Bennoch Medical Centre</u>
History	7/7 hx of cough and wheeze, dry but feeling progressively more difficult to get breath in. Wheezy ++ has used daughters inhaler however feels this has had limited benefit. Diagnosed with asthma as a child however not had inhalers for over 10 years and not coded as asthmatic. Reports hospital admission 2 years ago during which underwent a chest ct and MRI and was advised had emphysema. Previously heavily smoked weed now stopped and smokes 3-4 cigarettes daily.
Examination	O/E - BP reading Looks breathless, audible wheeze RR32 Sats 99%OA Chest widespread polyphonic wheeze throughout chest in all areas, no accessory muscle use P78 HS I+II+0 Blood pressure reading 130/85 mm Hg T 36.4 Peak flow - 250L/min - <50% predicted
Comment	Despite no asthma treatment for over 10 years, is presenting with a severe asthma exacerbation Plan will call hospital to arrange admission - have advised will see patient at AU1. separate discussion re. mirtazapine, feels these have really helped with mood but ongoing difficulties with sleep Plan - will trial 30mg dose, placed on repeat

<u>22/05/2025</u>	<u>Miss Jane Brownlie - Secretary/receptionist at Bennoch Medical Centre</u>
Comment	Please complete all questions: 1) Please call patient today regarding lung collapsed last year and now has a cough for a while been making sick all over self is now struggling to take a deep breath struggling all week with it 2) How long has the patient had these symptoms for? 7 days 3) Contact number: 07312071592 ... 4a) Can the patient attend the surgery today if invited - Yes/No f2f 4b) If no, why not? Patient not available today or the patient is housebound (delete as appropriate)
<u>03/03/2025</u>	<u>Dr Andrew Gray - Locum at Bennoch Medical Centre</u>
History	2/12 hx of low mood, feeling tearful, some thoughts of self harm, not sleeping. started after partner was accused of assaulting daughter. Since then Lee has been looking after three children alone, not able to work. very low, some thoughts of self-harm but wouldn't act on these because of children, ongoing SW input, has longstanding pain in left hand which is also troubling him Imp Significant social stressor with low mood and some self harm thoughts, has signed up to counselling 1 to 1 locally Plan start mirtazapine, stressed some of what is being experienced is normal physiological response to extreme stress, meds may help with sleep, FU with me in 2-3/52
Medication	Mirtazapine Tablets 15 mg 56 tablet ONE TO BE TAKEN AT NIGHT
<u>03/03/2025</u>	<u>Miss Michele Bett - Reception at Data Entry</u>
