Notes to Practice:						
Passed as 1hr call at 22 55. Phoned school and spoke to Paul Gray duty manager. Lee been unwell for 1-2 weeks with vomiting illness ? viral. Few other kids down with it. Been on Buccastem, got advice from duty Doc earlier. Now has blood stained vomit, Fresh blood+. Staff feel he has lost wt. No blood pr. Condition stable but will need seen. Will ask overnight Doc to visit. Likely not to be within hr though. Dr Wilmshurst: Unwell for 2/52 with occasional vomiting. S/B GP and given buccastem. Continues to vomit one/two times daily. No diarrhoea. Tonight vomited small amount of blood stained fluid. No malaena. PMH Nil of note O/e Well, P80, BP 120/76. Apyrexial, chest clear, abdo soft, non-tender. BS present Vomitus: 10mls red watery fluid with small clot						
Diagnosis:						
Small mallorey-weiss tear. Haemodynamically stable.						
Drugs:	There were no drugs attached to the call
