Mr. A. Campbell

6th. December, 1983.

Supplementary Report :- Andrew - Sarah Jones

Since our last report to the panel on the 18th November 1983 on the Jones children, there has been nothing of material value to alter the views and opinions expressed in those reports. Both children continue to function at a satisfactory level of development.

We would however wish to convey to the panel that if the medical authorities who handle Mothers case were convinced she had made satisfactory progress to offer a reasonable standard of parenting to both children. We would be recommending to the panel a gradual phased reintroduction of Andrew and Sarah to her care, being mindful of the ongoing work that continues to be required especially with Sarah, and the support and encouragement that will be needed to achieve a successful conclusion.

A.L. CAMPBELL.

HOUSEPARENT.
