Dear Dr Uppal

RE: Katrina Margery – dob: 24.05.67
48 Sheppey Beach Villas, Manor Way, Leysdown-on-Sea, Sheerness,
Kent, ME12 4QQ

I reviewed this 44 year old lady in clinic today, who is under a follow up for her lower urinary tract symptoms, mainly overactive bladder symptoms. She received an intra-vesical Botox injection on the 29th November 2010. Initially the symptoms did improve but recently she has again started with frequency, urgency and urge incontinence.

I have given her a prescription of Regurin 20mgs twice a day for one month and I would appreciate if you could repeat the prescription after one month. I will see her in the clinic again in four months time.

Yours sincerely

MR Z FAZILI Registrar to
Mr S Masood-FRCS-FRCS (Urol)
Consultant Urological Surgeon
