Dear Dr Uppal

**Katrina Margery (dob 24 05 67)
49 Sheppey Beach Villas Manor Way Leysdown-On-Sea Sheerness Kent ME12 4QQ**

Diagnosis: Non union right humerus.

Background: Fracture right humerus.
IM nailing.
Non union.
Removal of nail, application of bone graft and plating of humerus.
Complication radial nerve injury.

I reviewed Mrs Margery today with fresh X-rays. Her pain is as before. Her hand movements have improved. Although she still has a wrist drop, she is able to hold the wrist in extension if so placed, something she could not do before.

X-rays too suggest some consolidation is taking place.

Things have improved rather better than I was expecting, although I feel we are not out of the woods yet by a long way. I will review in 6 weeks with further X-rays.

Yours sincerely

Mr S Ahmed FRCS (Orth) MSc
Locum Orthopaedic Consultant
