Dear Dr Uppal

**Katrina Margery (dob 24 05 67)**  
**49 Sheppey Beach Villas Manor Way Leysdown-On-Sea Sheerness Kent ME12 4QQ**

Diagnosis: Non union right humerus.

Date of injury: 4/5/2009, treated with IM nail 11/5/2009.

Management: Plating and bone graft 18/6/2010.

Complication: Radial nerve injury.

This lady is 3 months down the line for plating for her non-union of her humerus. She continues to get pain. X-rays suggest that the bon graft that was applied has reabsorbed, and we are again progressing towards atrophic non-union. Her radial nerve palsy is showing some signs of improvement, with some flickers of movement detectable.

I will review in 2 months, perhaps with a view to doing some nerve conduction tests, if the neurological improvement is not definite

Yours sincerely

Mr S Ahmed FRCS (Orth) MSc  
Locum Orthopaedic Consultant
