Dear Dr Uppal

Diagnosis: - Non union humeral fracture

Management: - Placed on waiting list for bone grafting, plating

I reviewed this lady who has developed non-union of her humeral fracture. She was surprisingly calm today, despite having endured 8 months of visits to various other surgeons each telling her she needed to be seen by me. It is unlikely that the outcome would have been any different, and it is conceivable we would have waited to see if union develops any way, but this feeling of being "in limbo" is simply not acceptable. I have apologised for this absolutely unsatisfactory treatment; it is unlikely that many other patients would have been as stoical about this as she has been.

Now that I have finally seen her, I have seen her and placed her on my urgent waiting list for plating and bone grafting.

Yours sincerely

Mr S Ahmed MSc FRCS (Orth)
