I should be grateful if you could kindly see this patient of mine who has urinary symptoms and urge incontinence. She is currently on Oxybutynin MR 5 mg o.d. and Trospium 20 mg b.d. She is still symptomatic.

She was last seen in Mr. Palmer's urology clinic 27th March, 06. I enclose a copy of that letter. She is still interested in intra-vesical botox injections. This form of treatment was deferred because Katrina was awaiting infertility investigations. These have now been completed and in view of this I should be grateful if you would kindly see her with a view to intra-vesical botox injections.

Yours sincerely,

Dr. M.B. Patel

Miss Katrina Margery
