Dear Doctor,

I would be grateful if you could see this lady who appears to have torn a cartilage in he right knee. She has been seen by the orthopaedic clinic regarding her left knee where she may have had a cartilage removed.

She suffered pain, stiffness and locking two days ago and this is associated with a little swelling and a lot of pain in he right knee. She is unable to flex the knee completely. She is asthmatic. Medication see attached list.

Yours sincerely

Dr. P.P. D'Arcy
