I would be grateful if you could see this lady as has been advised by Medway Maritime Hospital. She has had urinary incontinence for three months. Past history she was seen in Medway in April, 05 no correspondence available yet. However, due to her urinary incontinence they are concerned and wish her to be seen by a urologist.

Past history she is asthmatic. Medication Clotrimazole, Salbutamol, Seretide 125 Evohaler, Co-Codamol 30/500, Ventolin Evohaler. Otherwise she is quite well.

I would value your opinion.

Yours sincerely

Dr. P.P. D'Arcy
