Dear Sir/Madam

**Re: Subject Access Request under the General Data Protection  
Regulation**

**Patient: DANIEL JOYCE**

**Date: 13.05.1954**

Thank you for your request received  
your client's personal information.

**28<sup>TH</sup> MAY 2026** in which you seek a copy of

Your request has been dealt with in line with our requirements under Article 15 of the  
General Data Protection Regulation and I now attach the following:

**GARTNAVEL GENERAL HOSPITAL RECORDS**

Please be aware that these health records have been reviewed by a clinician and any  
information identifying or provided by a third party has been removed.

We process personal information to enable us to provide healthcare services for patients;  
support and manage our employees; to carry out research and clinical trials; maintain our  
accounts and records and to carry out data matching under the national fraud initiative. We  
also use CCTV systems for crime prevention.

This personal information can be both clinical and non-clinical in nature and can include

- Patient health records, photographs or radiology images
- Video/telephone recordings, including CCTV images
- Witness statements
- Incident reports

- Complaints files
- Emails

The source of our data includes Patients, General Practitioners, Healthcare, Social and Welfare organisations, Legal representatives and Police forces.

We sometimes need to share the personal information we process with the individual themselves and also with other organisations as listed above. Where this is necessary we are required to comply with all aspects of the General Data Protection Regulation

Where these organisations are based outside Europe we take all appropriate safeguards to protect your information.

Health records are kept for a limited time and this is noted below for your information

- Adult general hospital records – six years after the date of last entry
- Maternity records – 25 years after the birth of the last child
- Children's and young people's records – until the child or young person's 25<sup>th</sup> birthday.
- Mental health records – 20 years after the date of the last contact

If you have any queries, please do not hesitate to contact us.

If you are unhappy with how your request has been dealt with please contact the NHSGGC Data Protection Officer. Their contact details are noted below:

Data Protection Officer

Dear Dr. AM Wilding,

**Daniel Joyce; D.O.B: 13 May 1954; CHI: 1305546016**  
**165 Faifley Road, Clydebank, G81 5BQ**

Attendance: Specialty - Vascular Surgery; Clinic - WIGTVA1-MT TREHARNE VASC MON AM  
Date and Time of Appointment - 05/01/2015 09:30

**Clinical Comments:**

Thank you for referring this 60 year old man who has a 30 year history of pain and stiffness in his hip joints, worse over the past 5 years. He describes these symptoms worse when he is getting out of bed in the morning and after a period of rest. He has no claudication symptoms. I note he has been investigated with an X-ray of his pelvis which is essentially normal. He does not have any neurological symptoms.

On examination, both feet were warm and well perfused and all lower limb pulses were normal.

I reassured Mr Joyce that there does not appear to be any significant vascular cause for his symptoms and have discharged him from clinic.

Yours sincerely

Mr Gareth Treharne  
Consultant Vascular Surgeon

Electronically Signed: Mr Gareth Treharne, Consultant

**CLINICAL INFORMATION****History of presenting complaint****Presenting complaint**

Description: POSITIVE BOWEL SCREENING TEST RESULT

**Reason for referral**

Care type requested: Requires urgent assessment for a screening colonoscopy

Expected outcome: Assessment

**Past medical history****Current medication** (Active Repeat medication issued within the last 12 months)

No current medications recorded

**Recent medication** (Any medication issued within last 90 days not shown above)

No recent medications recorded

**Blood Pressure**

No Blood Pressures Recorded

**Body Measurements**

No Body Measurements Recorded

**Clinical warnings****Additional Support Needs**

No known ASN requirements

**Additional relevant information**

**CLINICAL INFORMATION****History of presenting complaint****Presenting complaint**

Description: Leg pain

Comment: Thank you for seeing this 60 year old man who complains of cramp like pain in his legs when he is walking. He also experiences chronic low back pain and he says that his legs can feel numb.

He does not give a history entirely typical of intermittent claudication but he has been a heavy smoker for many years and he was previously taking a Statin because his cardiovascular risk score was high.

On examination I found that both his legs were very stiff and there was reduced rotation at his hips. I could feel posterior tibial pulses with difficulty but I could not feel a dorsalis pedis pulse in either foot. I noted that he has dystrophic toenails.

I have rechecked some routine bloods and x-ray of his pelvis shows that his hip joints are normal.

I am uncertain whether the symptoms that he is describing are due to a vascular problem in his legs or if he may possibly have spinal stenosis.

I would be grateful for your opinion.

**Reason for referral**

Care type requested: Out Patient

Expected outcome: Not Specified

**Past medical history****Pre-existing conditions** (High & medium priority - all)

**Ward - Not specified**  
**Bowel Screening Service (I**  
**GGC)**  
Priority:  
Status:  
Hospital:  
Ward:  
Referring Cons:

#### Indications

National Bowel Scope Screening.

#### Report

Bowel preparation with Plenvue x 3 was satisfactory. A digital rectal examination was performed.

The colonoscope was inserted via the anus to the caecum, which was identified by the ileocecal valve and the appendicular orifice. The scope was retroflexed in the rectum. There were no peri-operative complications.

#### Diagnoses

Diverticulosis.

#### Advice/Comments

Diverticulosis and haemorrhoids.

No other pathology.

No follow up required.

# Consent Form

## Patient agreement to colonoscopy investigation

### Test: Colonoscopy

Inspection of the lower gastrointestinal tract with a flexible endoscope (with or without biopsy and photography) Specimens will be retained.

You have the right to change your mind at any time, including after you have signed this form.

### Patient statement

I have read and understood the information in this booklet including the benefits and any risks.

I agree to the test described in this booklet and on the form.

I understand that you cannot give me a guarantee that a particular person will perform the test.

I understand that any test in addition to that named on this form will only be carried out: if it is necessary;

- is reasonable in the circumstances,
- in relation to the medical treatment proposed,
- and to safeguard or promote physical or mental health.

Have you ever been notified that you are at an increased risk of CJD/VCJD for public health purposes? ☐ Yes ☒ No

### Consent signature

Signed: [Signature]

Date: 17/2/24

Name: (print in capitals) DANIEL JOYCE

Please sign here if you refuse to consent to the emergency administration of blood or blood products.

Signature: .....

Date: .....

### (For staff only)

Confirmation of consent (to be completed by a health care professional when the patient is admitted for the test)

I have confirmed that the patient understands what the test involves including any risks.

I have confirmed that the patient has no further questions and wishes the test to go ahead.

Signed: AME SCOTT

Date: 17/02/24

Name: (print in capitals) AME SCOTT

Job title: BANK STAFF NURSE

## **What happens after a Polyp is removed?**

Often when large or multiple polyps are removed, the Endoscopist will advise a repeat procedure after a certain timescale to make sure the polyp has not re-grown and that new polyps have not developed. We will write to you about this after your colonoscopy.

## **After the Colonoscopy**

You will be able to rest after the colonoscopy. We will offer you a drink and something to eat. You may feel a little bloated after the procedure as some of the air may remain in your bowel. This may cause some discomfort but will quickly pass.

Before you leave the department, a nurse or doctor will discuss results. You will receive a report of your test and we will tell you if you need any medication or further appointments.

### **Remember, if you had sedation:**

- You may not remember the results. If you agree, we will tell your family or friend your results, so that they can remind you.
- You may feel fully alert after your test but as the drug stays in your body for up to 24 hours. You can feel drowsy with lapses of memory. It is important not to drive or drink alcohol during this time.
- You will need to arrange for someone aged 18 years or over to stay with you, or arrange to stay with your family or a friend overnight.
