History *History* 07487624038 ADHD, all over the place, have bad thoughts, needs help, refer in, long disucssion re symptoms I will refer back, not suicidal

Comment *Comment* Routine referral to psych : FAO Dr Claire McGhee, dear doctor, this gentleman was previously referred re symptom of adhd. I believe you were looking for futher information. He tells me he does not feel depressed or anxious and felt when he took antidepressants it made his symptoms worse and was not keen to discuss this futher. He tells me he has had issues since he was a child. He got removed from mainstream school in P5 due to an inability to concentrate and sit still. He describes himself as always on the go and had to go to 'behaviour schools.' It sounds like his behaviour was difficult to manage even in this setting. He has been unable to hold down a job because he feels he is always on the go and has been incarcerated due to behaviour like breach of the peace. He tells me as a young man he was always out on the street misbehaving but never anything very serious. He has split with his ***** due to his behaviour of always being on the go and now lives alone. Thankyour for your input. Dr P Horne gp

11-Oct-2024 Dr Maeve Gilsenan (MAEVE_18951) Midlock Medical CentreMain Surgery

History I would be most grateful for your review of this 34 year old man who presents with a mole on left lower back which his ***** has noticed is changing in colour. He is salo-skinned and brown haired. Never been abroad but does use sun- beds.

Naevus let lower back- darker area of pigmentation to right side and irregular border. Also has a nodular naevus above left ear which he is worried about.

he will send photos through.

New Referral New Referral EMISSPR330: Dermatology referral (SCI Gateway Referral)

11-Oct-2024 Dr Maeve Gilsenan (MAEVE_18951) Telephone Consultation

Comment ***** - mole changed, PHOTO IN - photo is of naevu on lower back. Seem his ***** has noticed its become a lot darker in last few weeks. NOt sure if border has changed- does look a bit irregular but skin is being stretched in photo so hard to tell. Never been abroad but does use sun beds! I think prob need to see inperson. Will come for review as extra. Worsening statement given

History sertraline
Medication Sertraline Hydrochloride Tablets 50 mg 28 tablet ONE TO BE TAKEN EACH DAY

21-Feb-2024 Dr Sarah Henery (SH) Triage

History ***** insomnia? Ongoing difficulty sleeping, unsure why. 3am then falling asleep. Feels exhausted during the day and therefore not getting out and about. Unsure what's stopping him from sleeping. Note on Sertraline and history of depression, denied mood impacting sleep. No suicidal ideation.

Social Smoker, no alcohol

Comment Explained main help to understand what stopping from sleeping. Signposted nhs sleep hygiene and this is mainstay of treatment. Agree to short course of Zopiclone to get self back into routine and go to gym etc during the day but explained addictive/dependent potential and would not be long term medication. Worsening statement given

Medication Zopiclone Tablets 3.75 mg 7 TABLET ONE TO BE TAKEN AT NIGHT

History sertraline

24-Jan-2024 Dr Sarah Henery (SH) Midlock Medical CentreMain Surgery

Problem	[D]Swelling in head or neck
History	History Had dental check up yesterday but no work done. Then today developed swelling underneath chin and feels radiating to right jaw. Pain to open mouth submandibularly. No fevers or sweats. Able to eat and drink. Has tried to call dentist but phone lines turned off. No dental pain. No recent dental work such as root canal. Says had similar that improved with flucloxacillin.
Examination	Examination Bright and alert. RR 14, speaking in full sentences. Pulse 72, O2 99% on air, no visible erythema or skin changes. 4cm firm swelling at chin with associated pain not extending to lips. No submandibular lumps or pain. No visible changes inside mouth.
Comment	Comment Clinically well but I am unsure if dental or soft tissue - says cannot contact own dentist therefore I discussed with Max Fax on call - they say sounds like soft tissue infection as localised to chin and no tooth pain therefore advice is Flucloxacillin, no need for review or xray etc at present. If skin changes, oozing, dental pain or systemic upset to recontact them - I have explained this to Stuart, he is happy with plan and will seek review if deteriorates and also follow up with own dentist.
Medication	Medication Flucloxacillin Capsules 500 mg 20 capsule ONE TABLET FOUR TIMES A DAY

24-Jan-2024 Dr Kevin Currie (DR KEVIN C18951) Telephone Consultation

History	History swelling chin *****
History	History wakened today with swelling on chin. painful and feels sore when opening mouth. denies any pain in mouth or any pus or discharge. says similar problem last year. see A&E note. not entirely clear whether this is dental or not. says did register with dentist yesterday and tried calling today but number would not connect. agreed to attend for review but informed that if felt this was dental abscess on review then would need to contact own dentist.

Medication	Medication Flucloxacillin Capsules 500 mg 28 capsule 2 TABS QID
------------	--

23-Oct-2023 Dr Sophia Ashibuogwu (SA) Midlock Medical CentreMain Surgery

Problem	Problem Abscess
History	History Patient presented because of an abscess located just between his buttocks... Appeared on Friday. Stated has had this 3 times before. Treated with antibiotics in the past and resolved. Stated noted it happens when he isn't doing much and lying around.
Examination	Examination Abscess visible just between the bum cheeks measuring about 3cm in diameter with surrounding slightly edematous area..
Comment	Comment Advised for some conservative management.. Advised trial of some hair removal creams instead of shaving to remove hairs in the area instead of shaving to avoid any issues with ingrowing hairs...
Medication	Medication Flucloxacillin Capsules 500 mg 28 capsule 2 TABS QID
Medication	Medication Ibuprofen Tablets 400 mg 24 tablet 1 Tab 3 times daily

23-Oct-2023 Dr Gillian Kidd (GILLS_18951) Telephone Consultation

History History ***** abscess on back very painful -looking for antibiotics new pt here. says recurrence of abscess ?? piloidal / seb cyst. prev had abx for this no old notes yet. state painful to sit down. come for reivew ?abx/surgical review

19-Oct-2023 Dr Iain Hansom (IH) Midlock Medical CentreMain Surgery

History History X2 episodes of PR bleeding over past month. Normal BM in between. Goes every 3 days or so. Admits often hard and straining. Bloods in pan and TP. Never in underwear at other times. No weight loss. No abdo pain. Aware of pile down below - had them before

Examination Examination Offered PR but refused. Confident issue is piles and happy for treatment

Comment Comment Try below. Recontact if not settling

History History Mention longstanding anxiety symptoms and low mood. Sits in house all day. Previously drinking alcohol to excess and recognised negative effect on mood. Abstinent now for 2 motnhs and feeling a bit better. Still struggling to leave house and motivate self. Sleep ok. Eating ok. Previously on sertaline 50mg and helped but stopped these several months ago. Keen to restart. Tells me never sought counselling before. Gave info on lifelink. Congratulated on stopping alchol and encouraged him to remain abstinent. Review PRN

Medication Medication Lactulose Solution 3.1-3.7 g/5 ml 500 ml 10ML Twice daily

Comment **Comment** with medication

Problem Smoking cessation advice

Problem Smoker

23-Oct-2014 Dr Andrew McCall (AM8397) Barclay Victoria Park Medical PracticeMain Surgery

Problem Did not attend - no reason

02-Oct-2014 Dr Shirley Scott (SS8402) Data Entry

New Referral **New Referral** 8H...: Referral for further care (SCI Gateway Referral)

25-Sept-2014 Dr Shirley Scott (SS8402) Barclay Victoria Park Medical PracticeMain Surgery

06-Nov-2023 Medication **Medication** Sertraline Hydrochloride Tablets 100 mg 28 tablet ONE TO BE TAKEN EACH DAY

06-Nov-2023 Medication **Medication** Zopiclone Tablets 7.5 mg 7 tablet 1 TAB NOCTE IF REQUIRED

History **History** Various on-going challenges. As yet has received no benefits although ESA has been allowed. ***** has left due to his anger and irritability. ***** Has not eaten since last week. No family members able to help. Does not wish to go to a food bank or contact SWD. No money to top-up phone. Wishes to be referred for anger management. Advised that this as a service does not exist but can be referred to PMHCT. Phoned ESA from here to inquire as to what is happening. Not sleeping.

Examination **Examination** A bit unkempt today

Comment **Comment** Refer to PMHCT. Increase Sertraline to 100mg daily. S/A in 4/52.

Attachment eMED3 (2010) new statement issued, not fit for work
FitNote.pdf, (Diagnosis: Depression; Duration: 25/09/2014 - 23/10/2014)

04-Sept-2014 Mrs Barbara Connell (BC8401) Barclay Victoria Park Medical PracticeMain Surgery

Comment **Comment** ros from left hand wound requests help with depression now feels ready to talk to somebody appt given

04-Sept-2014 Dr Shirley Scott (SS8402) Barclay Victoria Park Medical PracticeMain Surgery

06-Nov-2023 Medication Medication Sertraline Hydrochloride Tablets 50 mg 28 tablet ONE TO BE TAKEN EACH DAY

Examination Examination Tearful at times. Engaged well and good eye contact.

Social Social Lives alone. Difficulty accessing ESA since finishing job some weeks ago. Works in constructing operating heavy machinery at heights. No current financial difficulties.

Comment Comment Review in 3/52. Appt given.

Description: suspicious mole

Comment: I would be most grateful for your review of this 34 year old man who presents with a mole on left lower back which his [REDACTED] has noticed is changing in colour. He is solo-skinned and brown haired. Never been abroad but does use sun- beds.

Naevus let lower back- darker area of pigmentation to right side and irregular border. Also has a nodular naevus above left ear which he is worried about.

he will send photos through.

Thank you,
Maeve Gilsenan

Clinical Comments:
DIAGNOSIS:

?Melanoma left lower back

MANAGEMENT:

Excision biopsy carried out today for histology

Clinical photographs

FOLLOW UP:

According to histology

Thank you for referring this 34 year old gentleman with regards to a mole on his lower back. He thinks it has been present for several years however his [REDACTED] recently noted that it appeared much darker and more noticeable than previously. Mr Munro states he has used sunbeds intermittently

NHS Confidential: Personal data about a patient

Munro Stuart

CHI: 1705906052

OPCL 15/10/2024 v1

since the age of 16. I have advised him to completely avoid these and discussed sun protection measures generally.

On examination the mole in question measures 5mm. It is dark and irregular. The appearances are suspicious and it has been excised today for histology. I will be in contact with the results.

Kind regards,

Yours sincerely,

Dr Joanne Sillars

Dear Mr Munro,

You previously attended the Dermatology clinic when we removed a mole from your lower back on the left side. Under the microscope this has shown a mole which was considered irregular or dysplastic but overall benign/non cancerous and has been completely removed. No further treatment of this mole would be necessary. You have a further mole on your right lower back which is very slightly irregular also and for this reason I would also like to arrange to remove this one (as we discussed by telephone). I have arranged a date for me to carry out this further procedure on Tuesday 7th January at 10am at Clinic J, QEUIH. We can discuss this further when you attend for your biopsy appointment.

Kind regards,

Yours sincerely,

Dr Joanne Sillars

Stuart Munro; D.O.B: 17 May 1990; CHI: 1705906052
FLAT 0-1, 71 JEDWORTH AVE, Glasgow, Lanarkshire, G15 7QG

Attendance: Specialty - Plastic Surgery; Clinic - CASWPS4-MR WATSON PS TUE PM
Date and Time of Appointment - 25/09/2018 14:00

Clinical Comments:

Thank you for referring this young man who I met at Mr Watson's outpatient clinic this afternoon. He sustained a wound to his left ear in December last year which was treated at the time and he now has a prominent wedge shaped split. This would be amenable to repair under local anaesthetic by freshening the edges and direct closure. I've explained the procedure to him including the attendant risks and he is keen to proceed. I've advised him that his risk of wound healing problems will be significantly reduced if he can make progress with smoking cessation in the meantime.

Kind regards.

Yours sincerely

Mr David Leonard

Dear Dr Fawcett,

Re: Stuart Munro DOB: 17/05/1990 CHI: 1705906052
Address: Flat 0-1 72 Woodville Street, Glasgow, G51 2RX

Many thanks for your referral of Mr Munro.

Unfortunately in order to process our referral for ADHD we would need some additional information as to the present of symptoms in childhood and the impact this is having on Stuart's level of functional impairment. In addition, we would need to be aware of any Co-morbid Psychiatric difficulties and current risks so that we can appropriately triage this.

I note he has history of anxiety and low mood and some more detail on his current mental state would be helpful. I am therefore not accepting the referral at this time, however would be more than happy to re review this if additional information were available.

Yours sincerely

Dear Dr McCall

**RE: STUART MUNRO CHI: 1705906052
FLAT 0/1, 71 JEDWORTH AVENUE, GLASGOW, G15 7QG**

Thank you for your referral on Mr Munro. This was discussed at allocations. Based on the information you give it would appear that his difficulties seem to stem from alcohol consumption and could I suggest that perhaps once he is alcohol free for a few weeks if he is still running into the same problems then we would be happy to reassess at that point.

I hope the above information is of use. I am happy to discuss it further.

Yours sincerely

Dr Ian Clarke

Barclay Medical Practice

Barclay Victoria Park Surgery
1398 Dumbarton Road
Glasgow
G14 9DR

4 September 2019

Mr Stuart Munro
21-6
15 Kirkton Avenue
Glasgow
G13 3SE

Dear Patient

Consultation on the proposal to close the Yoker Branch from 1 January 2020 and thereafter practice solely from our premises in Victoria Park

As you may be aware, the Practice consults from two locations, our main site at Victoria Park and our part time branch surgery at Yoker.

The Practice is currently seeking permission from Greater Glasgow Health & Social Care Partnership to consolidate and improve our service provision to its main site at Victoria Park premises. This would require removal of our clinical services from Yoker. If successful we would anticipate the transfer of services during the month of December, we will keep patients updated on our website regarding this change.

In order to assist in the wide ranging consultation process that is required prior to such a decision being approved, the Practice has been asked to undertake a survey of those patients who are registered with the Practice. This will give you the opportunity to make your views known to the decision makers in this process. Please complete the attached questionnaire and post or hand it in to one of the surgeries.

We would be grateful if you could return the attached survey. The consultation will run until the 1st October 2019. We will keep patients informed of the outcome of this consultation. The consultation will include your MP, MSP, City Councillors, Public Participation Groups and Local Community Groups.

It is our intention to improve and enhance the services we offer at our Victoria Park site by bringing in a greater variety of services to match those we provide at our other sites in Scotland. Many patients have already remarked on some of the improvements we have made since taking over the Practice in August.

If you have any queries about the closure of the part time branch surgery during this consultation period, please direct them to me. You can write to me at Maryhill Health Centre, 51 Gairbraid Avenue, Glasgow, G20 8FB or email me at [REDACTED]

Regards

Yours sincerely

Colin Mitchell
Patient and Project Manager 0141 451 2870

Patient Survey

Your Name..... optional please supply if you wish to be contacted regarding further info

Your Date of Birth.....optional

Do you plan to remain with the practice and use the Victoria Park site... YES/NO

Would you find it difficult to get to the Victoria Park Site.... YES/NO

Do you need any further information.... Please provide details

When we are planning additional services at the Victoria Park site what would you like to see added to the current service.

Thank you for completing this survey

Help getting back to work if you are employed

If you've been off work or are likely to be off work sick for 4 weeks or more, you may be able to have a free occupational health assessment. You will be able to discuss what advice and support you need to help you go back to work sooner. You can ask your GP or employer to refer you. For further information:

- in England and Wales visit www.fitforwork.org or phone **0800 032 6235**
- in Scotland please visit www.fitforworkscotland.scot or phone **0800 019 2211**.

What your doctor's advice means
'You are not fit for work': Your health condition means that you may not be able to work for the period shown. You can go back to work as soon as you feel able to and, with your employer's agreement, this may be before your fit note runs out.

'You may be fit for work': You could go back to work with the support of your employer. Sometimes your employer cannot give you the support you need and if this happens your employer will treat this form as though you are 'not fit for work'. You don't need to get another of these forms from your doctor.

 For more information please visit www.gov.uk and type 'patients and employees' into the search field.

 Fill in the **Your details** section. You can ask someone to do this for you if you cannot fill in your details yourself.
Your details – Please use BLOCK CAPITALSSurname MUNROOther names Address Date of birth NI number **What you need to do now**

- **If you are employed:** Please show this form to your employer. You could get Statutory Sick Pay (SSP) which is paid by your employer. If your employer cannot pay you SSP they will give you form **SSP1** to claim benefits.
- **If you are self-employed:** You could claim benefits.
- **If you are already claiming benefits:** Please send this form to the office dealing with your claim.

For the patient – what to do now

Please read the notes below then fill in your details and, if you are claiming social security benefits, sign and date the declaration. If you cannot fill in your details yourself, ask someone else to do it for you.

What your doctor's advice means

Not fit for work:

Your doctor will advise this when they believe that your health condition means you should refrain from work for the stated period of time.

May be fit for work taking account of the following advice:

Your doctor will recommend this when they believe that you may be able to return to work with some support from your employer. Sometimes it may not be possible for your employer to act on the doctor's advice and you will not be able to return to work until you have further recovered. You do not need to get a further Statement from your doctor to confirm this.

If you are employed

If you are not fit for work, or your employer cannot support your return to work, your employer should consider paying Statutory Sick Pay (SSP) based on the information provided. If SSP cannot be paid, or your SSP is ending, your employer will give you form SSP1 to claim social security benefits. If you are self-employed, you may be able to claim social security benefits because of your health condition.

Social security benefit claimants

If you are claiming social security benefits because of your health condition, send this form to your Jobcentre Plus office. If you are claiming social security benefits for any other reason, you should contact a Personal Adviser to discuss the advice on the form. If you do any work you must inform Jobcentre Plus of your change of circumstances.

If you want to make a new claim to social security benefits you can:

- download a claim form at www.direct.gov.uk/benefits, or
- phone 0800 055 6688 (8am to 6pm Monday to Friday). Textphone users call 0800 023 4888.

Your details – Please use BLOCK CAPITALS

Surname Other names Address Postcode Date of birth National Insurance (NI) number

Declaration – for social security benefit claimants only

I agree that my doctor may give the Department for Work and Pensions or a healthcare professional acting on its behalf information which is needed to process my claim for benefit and any request for it to be looked at again.
