Summary of work done since last session/present situation

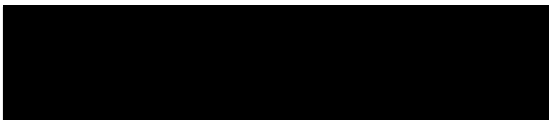

Case plan assessment

With the family being offered a tenancy in Kilwinning it is hoped that once the family are settled the Social Worker's plan is to request a Review of the children's Supervision Orders with a view to having them terminated.

This would enable the family to begin a new start on their own without involvement from the Social Work Directorate, albeit the Social Worker will advise Kilwinning Social Work Directorate of the family's presence in there area in the event the family should require support in the future.

Tasks

1. Social Worker to continue to see the children on a regular basis to ensure that they are settled in their new home and are being adequately cared for.
2. Social Worker to continue to work with mother and her new husband with regard to their care of the children.
3. Social Worker to liaise with the schools with regard to the children's progress.
4. Once the family are settled, Social Worker to request a Review Hearing to discuss the family's situation.
5. Once the family have moved to Kilwinning, Social Worker to advise the local team of the family's presence in the area but that Supervision will continue from this office for the time being.

Summary of work done since last session/present situation

The present situation is that the family are currently resident c/o Ellwood Guest House. Mother - [REDACTED], gave up her Council tenancy and moved into a private let in Ardrossan. She then complained the house was damp and involved the Environmental Health Department who immediately closed down this property. The Housing Department then placed her and her family in Ellwood Guest House and she is hoping for a tenancy in Ardrossan.

Summary of Work Done Since Last Session/Present Situation

Both children remain in their grandparent's care however over nights with mother are gradually being increased. Mum's co-habitee, [REDACTED] y, appears accepting of the children and they appear fond of him. Rehabilitation has been a slow process because of poor standards within mum's home and the main focus of work has been encouraging her re improving on conditions within the home. The Housing Department contacted this office to inform the kitchen was infested with fleas and they would arrange for the home to be fumigated. The grandparents continue to monitor and ensure the children's well being whilst in their mother's care. Mother is seen as being a lazy, not very bright girl.

Care Plan Assessment

Both children appear to be coping with the shared care arrangement between mother and grandparents. No concerns have been expressed by school or nursery staff. Georgina is due to start at Ardeer Primary in August 1996. Work to continue with mother re raising standards in the home and when this is acceptable the children can be rehabilitated to her care.

Tasks

- 1) Gradual rehabilitation to mother's care to continue.
- 2) If mother is unwilling to improve standards in the home to an acceptable level, rehabilitation to cease and both children to remain with their grandparents.
- 3) Social Work Assistant to liaise with Ardeer Primary at the resumption of the school term re the children progress.

Summary of work done since last session/present situation

This case was recently allocated (February 1996) as the previous Social Worker was on long term sick leave.

Both children are in the grandparents' care because of their mother's lifestyle and inability to care adequately for them. The grandparents receive Link Carers Allowance for the children. The current situation is that the children are gradually spending more time with their mother - the plan being to rehabilitate them to their mother's care.

The main focus of work has been working with mother re standards improving in her home. A DSS grant has been applied for and a Section 12 payment is being pursued for additional furnishings for the home. Mother has a partner, [redacted]. Police Checks have been done and are clear. [redacted] and [redacted], therefore work will need to address basic child care issues and their need to act responsibly and be able to protect the children. Close monitoring of the children will be required. The Reporter's Department has been kept informed of the children's circumstances.

Case Plan Assessment

In view of mother's previous record of parenting, close monitoring will be required when the children return to their mother's care. The maternal grandparents, who live closeby, will also continue to provide support for the family. Both children appear to be thriving and enjoy being with their mother at weekends.

Tasks

1. Rehabilitation of both children to their mother to be undertaken on a gradual basis in order to ensure she is caring for them appropriately.
2. Advice/support to be ongoing for mother re her parenting tasks and responsibilities and ensuring appropriate standards in the home.

[redacted] to liaise with DSS re a Community Care Grant for the mother's home.
[redacted] to pursue a Section 12 payment for other necessary items for the home.

The update of the case notes are on a par with case plan at front of file. There are several worrying aspects however to this case in the respect that this family appear to be on the move quite a lot. thereby disrupting the children's education. At the moment they are supposed to be staying in a 1 bedroom flat at 15b Portland Place Stevenston. The children attending Glencairn Primary. However on 15th May I received a telephone call from ██████████, Headmistress, Glencairn Primary. The worrying part was that apparently the family are on the move once again, children again absent from school. I endeavoured to phone the family home, phone disconnected. I visited in the afternoon, no reply at family home. I visited grandparents home, Caledonia Road Stevenston. According to ██████████ she knew nothing about their move, not so sure. However I left her a note to give to ██████████, advising I knew the position, and was not at all happy about it. Also advised her to get the kids back into school, and as I would not be at work until Monday, she was to contact me then. I was not at all happy with ██████████'s reply, felt sure she knew more than she was advising. Will speak to ██████████ in re; this case. Will have to get both parents into the office.

He immediately became very defensive, saying Frances was supposed to have these done earlier. I explained there was nothing on file to indicate these had been done. We talked for some time and gradually he became less tense and agreed to co-operate, only on the understanding I would keep him informed of situation. This I agreed to do. Form filled in 6.4.96 and sent to District H.Q. He advised me they are in the middle of decorating the house at present. He spoke very positively of [REDACTED], and said there was a great improvement in him. [REDACTED] showed me photos of [REDACTED] and he certainly looked as if he had lost a lot of weight since the last I saw him. Really looked good.

SOCIAL WORKER

Child Protection - Initial Visit - 22nd November 1995

Referral by Duty Social Worker from Auchenhavrie Nursery expressing concerns about bruising on Georgina Smith's face.

Visit by [redacted] Social Worker and [redacted] Social Worker, to the home of [redacted] and Mrs Georgina Smith, grandparents and carers of Georgina (04/12/91) and her elder brother [redacted] (5 years).

Present during the visit was [redacted] and Georgina. [redacted] was in bed and did not appear during the interview despite being roused by his wife - allegedly he had flu but had been Christmas shopping that morning.

[redacted] was asked how Georgina had sustained bruising to her face. The explanation given was that Georgina had been playing on the couch, jumped off and ran on tripping over the dog (20 years old, blind, [redacted]) and had consequently fallen and hit her face. [redacted] could not confirm exactly on what Georgina had hit her face but assumed it was the floor. [redacted] was not clear when this event occurred. Her best estimate being "last week". (Mrs [redacted] said the dog belonged to [redacted] who lives at No 33.)

[redacted] examined Georgina's face. She had pale blue bruising down the left side of her nose and a small mark in the corner of her eye - possibly consistent with the explanation given.

[redacted] was agreeable to [redacted] and [redacted] [redacted] said he had returned home one night last week 'stocious' and left the dog, [redacted], out in the rain. [redacted] found her way up to the Smiths. [redacted] went to get the dog. He stated he didn't actually see the incident as he was in the living room and Georgina had run into the dark hall where [redacted] was lying.

Georgina's contribution was that "[redacted] had hit her". During the interview Georgina moved over and stood next to her granny in a natural and affectionate way.

Conclusion

Social Workers were satisfied that the explanation was consistent with the injury although there remain concerns about the level of drinking in the household. Foregoing discussed with [redacted] Senior Social Worker.

SUMMARY

Since the last case notes were updated, [REDACTED] and Georgina's address was 29 Harbour Place Ardrossan. This was a private let, landlord, [REDACTED]s. [REDACTED] and Scott are now married. Several visits were made to this house and although the flat was snot the best, it certainly was a lot better than Morris Moodie Avenue. However, [REDACTED] and [REDACTED] decided to call in Environmental Health Department on grounds flat was very damp etc. The family were then moved to Ellwood Guest House, Ardrossan. There was however complaints from Ellwood saying that [REDACTED] was causing all sorts of problems. Eventually they were moved, 2 weeks ago to High Tide Hotel, Ardrossan.

Both kids now at Stanley Primary School, Ardrossan. School have been made aware that both kids are subject to orders., I have visited High Tide, Ardrossan, not too bad. Will negotiate with Housing Department to see if we can get them housed in Ardrossan.

NOTES

At the children's hearing the child or his parents may or may not accept the grounds for bringing the child before the hearing. If the grounds are accepted by the child, and his parents, if present, the children's hearing will discuss and consider with the child and his parents what is best for the child. If any of the grounds are not accepted, the hearing may either discharge the referral or direct the reporter to apply to the sheriff for a decision as to whether or not any of the grounds exist. If this happens the child will have to appear before the sheriff at a later date. If the sheriff decides that any of the grounds do exist, the children's hearing will then discuss and consider what is best for the child, as if these grounds had been accepted. If the sheriff decides that no grounds exist the referral will be discharged.
