[REDACTED] s [REDACTED] y of Involvement with the Children's Hearing System

Both children originally came to the attention of the Directorate in July 1993, when a Place of Safety Order was implemented. This was following concerns about the general standards of the home in which the children were living and also due to the fact that Mr Watt, who was also there, was a known Schedule 1 Offender. The children were placed with Foster Carers. The case was heard on 16th July 1993 and was sent to a Proof Hearing which was held on 5th August 1993 at Kilmarnock Sheriff Court. The grounds were established and a further Hearing took place on 23rd August 1993 when the decision was taken that both children were to reside with grandparents, with overnight access to mother.

A further Hearing took place on 22nd July 1994 when the Supervision Requirement Orders were continued. It was again reviewed in 1995 and the last review took place in July 1996 when both children were returned to the care of [REDACTED] .

The Children

[REDACTED]

Georgina (04/02/91)

Georgie, as she is known, is a very chatty wee girl, well settled within the family home.

There are no concerns re either of these children and it would appear they are both very fond of their new 'dad'. Certainly they present as a very contented family.

[REDACTED] d [REDACTED]. [REDACTED], [REDACTED]. [REDACTED] s
[REDACTED] nt [REDACTED].

The only real concern with the children is their school attendance. Their standard of living, lifestyle etc has greatly improved. Mr Stevenston states that it is his intention in time to apply to adopt both children. They both refer to him fondly as 'dad' and it would appear he also had a stabilising effect on [REDACTED].

The writer has a good relationship both with parents and children and has no problem gaining entry to the house. A long discussion took place with the parents and it would appear all of the original issues re the children have been resolved.

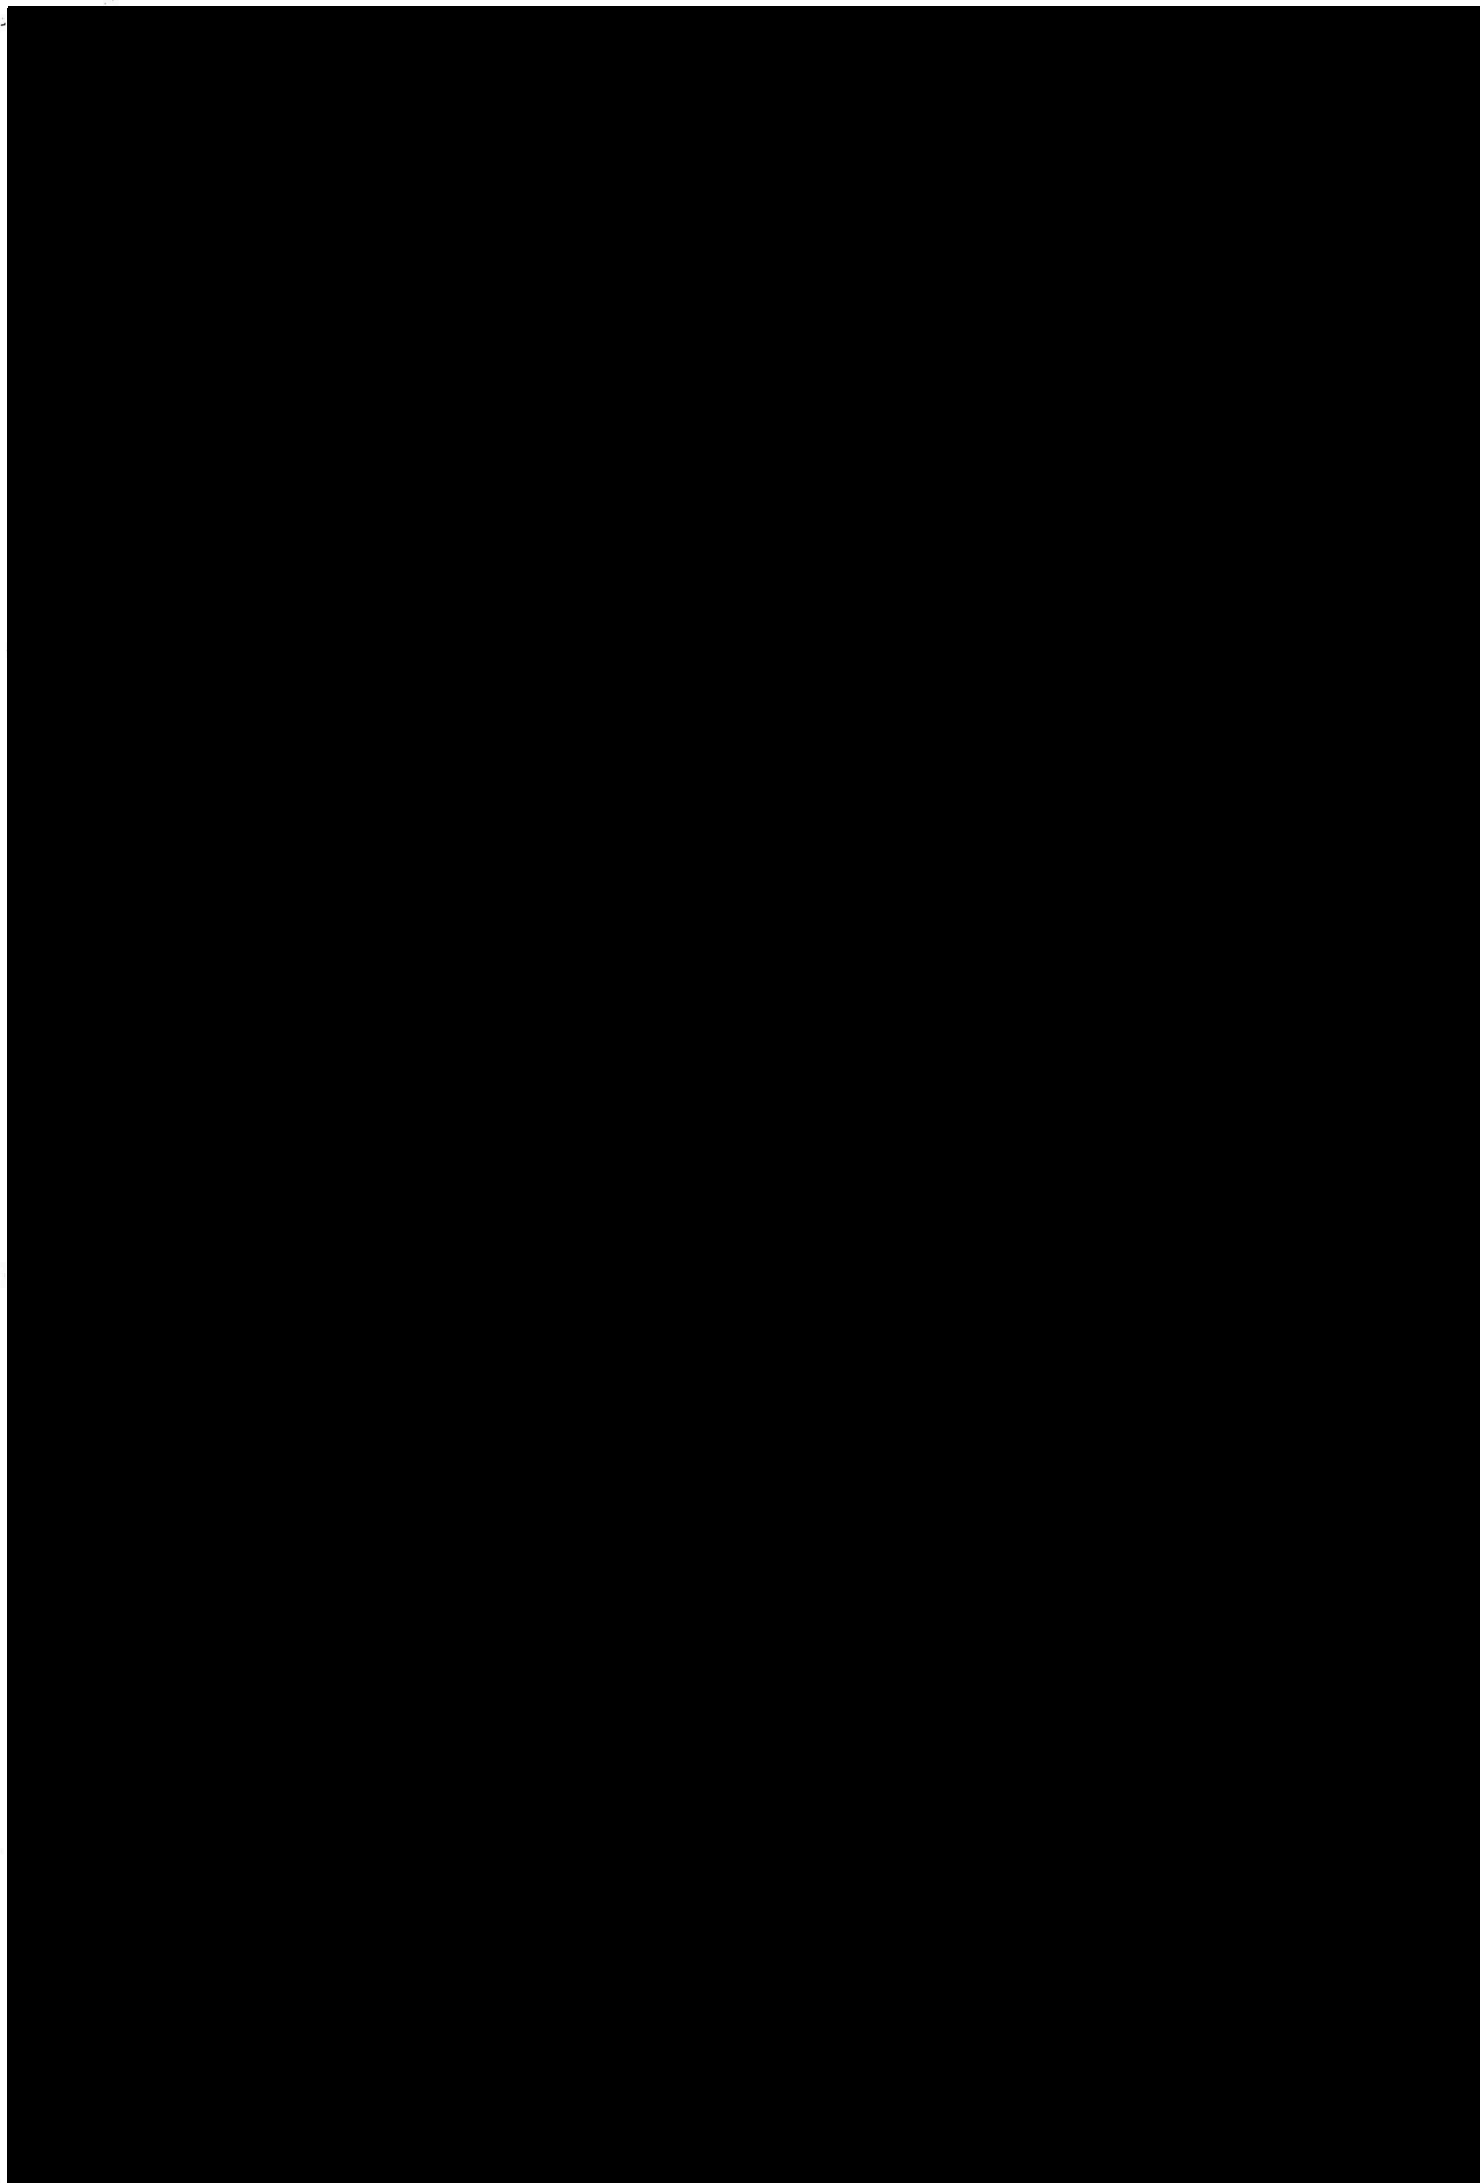

In view of this, perhaps the Panel may now deem it appropriate to terminate the Supervision Requirement Order. The writer will continue to maintain contact in a voluntary capacity. Should the situation deteriorate in any way the writer would contact the Authority Reporter.

Points to be covered.

1. Nature and extent of contact with the child, family and other persons or agencies.
2. Plan of work; Were the Aims and Objectives achieved? Were they changed or modified?
3. Opinion as to the future development of the child and his/her situation— including views of child/parents.
4. Possible options.

Both children last appeared before the Children's Hearing on 29th April 1996, when the Supervision Requirement Order was continued. This was to allow Miss Smith time to upgrade her previous home at 31 Morris Moodie Avenue, Stevenston and also allow the writer to obtain a grant from DSS on Miss Smith's behalf. During the interval Miss Smith and her boyfriend worked hard in the house to bring it up to standard and the writer also obtained a grant for beds and bedding which were duly purchased for the children. The children continue to reside with their grandparents, but do spend a few nights a week with their mother.

Miss Smith and her boyfriend have now moved to a private rented flat in Ardrossan, and Miss Smith states it is her intention to enrol both children at Stanley Primary School in Ardrossan at the beginning of the new term. The flat is a three bedroomed flat, which allows both children to have a room each. The writer has visited and would have no hesitation in allowing the children overnight stays there.

As previously stated [redacted] lives with Miss Smith and they have both advised the writer it is their intention to be married in February.

As the situation appears to be a lot more stable than previously and the children will now be attending Stanley Primary in Ardrossan, perhaps the panel may wish to consider returning the children to the care of their mother. The writer feels however it may be appropriate to continue the Supervision Requirement Order and she has discussed this with the couple who are fully in agreement. [redacted], the children's grandmother, will also continue to be involved with the family and has advised the writer should she have any concerns she would contact the Department immediately.

The two children last appeared before the Children's Hearing in June 1995, when the Supervision Requirement Order was continued.

As stated, the Writer took over the management of this case on 21st February 1966. It was, however, 6th March 1966, before the Writer was able to gain access to the house.

Since then the Writer has made several visits to the family home where conditions remain quite poorly. The Writer is at present negotiating with D.S.S. for a Community Care Grant to purchase washing machine, beds and bedding and a Hoover. She also will be applying to the Social Work Department's Section 12 Budget when available for other items of furniture.

In view of the above, perhaps the Panel would agree to continuing the Order as at present. Should the situation improve dramatically the Writer would have no hesitation on advising the Panel accordingly.

██████████ and Georgina were initially subject to formal Child Care Procedures due to Lack of Parental Care Grounds which were established following Court appearance of natural mother.

Following Craig's brief placement with Foster Parents in Kilmarnock, he and Georgina were placed in their maternal Grandparents care under terms 44(i)(a) Social Work (Scotland) Act 1968 with a Condition of Residence.

It had been the Writer's plan that much work would be undertaken with ██████████ to allow a return of the children to her care.

Unfortunately for various reasons this has yet to be achieved.

We were able to get a transfer of house from Ardrossan to Stevenston. This was undertaken to be near to her parents thus contact has been on daily basis.

The family co-operate fully with the Writer. Also both children attend Springvale Nursery where regular liaison with Social Work and Pre 5 Workers is ongoing. The two children have obviously benefited from being with Grandparents rather than continued in Foster Care. Ms Smith over the past few months has had to be hospitalized due to excessive skin problems.

It is still the long term plan for mother to resume full time care of her children. The Writer would respectfully recommend the current Supervision Orders be continued with the addition of overnights being approved. In the early stages perhaps with Mrs Smith also staying over at her daughter's home to ensure an acceptable standard of care and housewifery which was not the case prior to initial formal Child Care procedures having to be instituted.

Apologies:

Invited but did not attend:

██████████ opened the meeting and following formal introductions outlined the purpose of the review to M██████████. It was then requested that ██████████ update the meeting in relation to the present situation.

[REDACTED] d that the reason the child were subject to a Child Protection Investigation was due to the fact [REDACTED] it [REDACTED] e [REDACTED] y [REDACTED] s. [REDACTED] n gave birth to her third child, [REDACTED] h and it had been agreed that she should be adopted. [REDACTED] h again changed her mind and the baby was returned to her. The situation within the family home deteriorated and there was a further investigation [REDACTED] n was advised that the house had to be brought up to standard or further steps would be taken. A further visit was carried out and the situation had not improved, the house was in a dreadful state, dirty clothes and dogs dirt all over the floor, the children had no clothes and their hygiene was poor. At this time it was only [REDACTED] g who were in the house as Georgina was living with her grandparents. Discussion followed with [REDACTED] y and it was felt appropriate that the children should be removed on a Place of Safety and [REDACTED] was placed with his grandparents and [REDACTED] th was taken to foster parents in Hurlford. Since this time [REDACTED] n has remained in foster care and the present plan is that she should be adopted.

██████████ and Georgina have remained with their grandparents and there are no management problems. I ██████████ t
██████████. There has been ongoing contact between ██████████ h and her children and this shall continue on a regular basis. Places have been obtained at the Pre Five Unit for both ██████████ g and Georgina which will improve their progress.

██████████s ██████████h informed the meeting that they have no problems in caring for their grandchildren. ██████████h is a regular visitor at the house and there are no concerns about her caring for the children for short periods of time. As long as both remain in good health there will be no issues in caring for the children over a long time.

Discussion ensued around the financial aspects of caring for two young children. It was noted that Mrs Smith has made contact with [REDACTED] and there is ongoing investigation into benefits which are available. It was agreed that if there was a specific problem with finance then the Department would be able to help via the Section 12 budget.

Discussion ensued around the appropriateness of registration of the children and it was noted due to the fact [REDACTED] it is in prison and [REDACTED] has stated she has broken all ties with him and both children are in a caring environment it is now no longer necessary to have the children's names on the register. All present at the meeting agreed on this as long as a review case conference were to be reconvened if the circumstances changed. Concern was expressed about [REDACTED]'s choice of partner and it was agreed that ongoing work would be carried out to advise her in all aspects of her life.

While there are many current problems ongoing with the family it is my opinion this can be addressed without the children being continued on the Register.

SUPPLEMENTARY REPORT

At the last panel places of safety were continued in respect of [REDACTED] to allow the case to be dealt with at Kilmarnock Sheriff Court (Proof Hearing 5 August 1993). This case has now been returned to the Children's Panel for a disposal - decisions to be made on all three children.

On 16 March 1993 a decision was taken to return [REDACTED] to the care of his grandparents where he has continued to reside with his younger sister Georgina.

Full Boarding Out Checks have been completed on [REDACTED] and Mrs Georgina Smith. These checks have proved to be satisfactory with no areas highlighted that would give cause of concern in relation to the grandparents ability to continue caring for either [REDACTED] or Georgina. Both grandparents have to date had a high level of involvement with the care of the children. Their mother, [REDACTED], is in agreement with the present child care arrangements and recommendations.

Conclusion

[REDACTED]

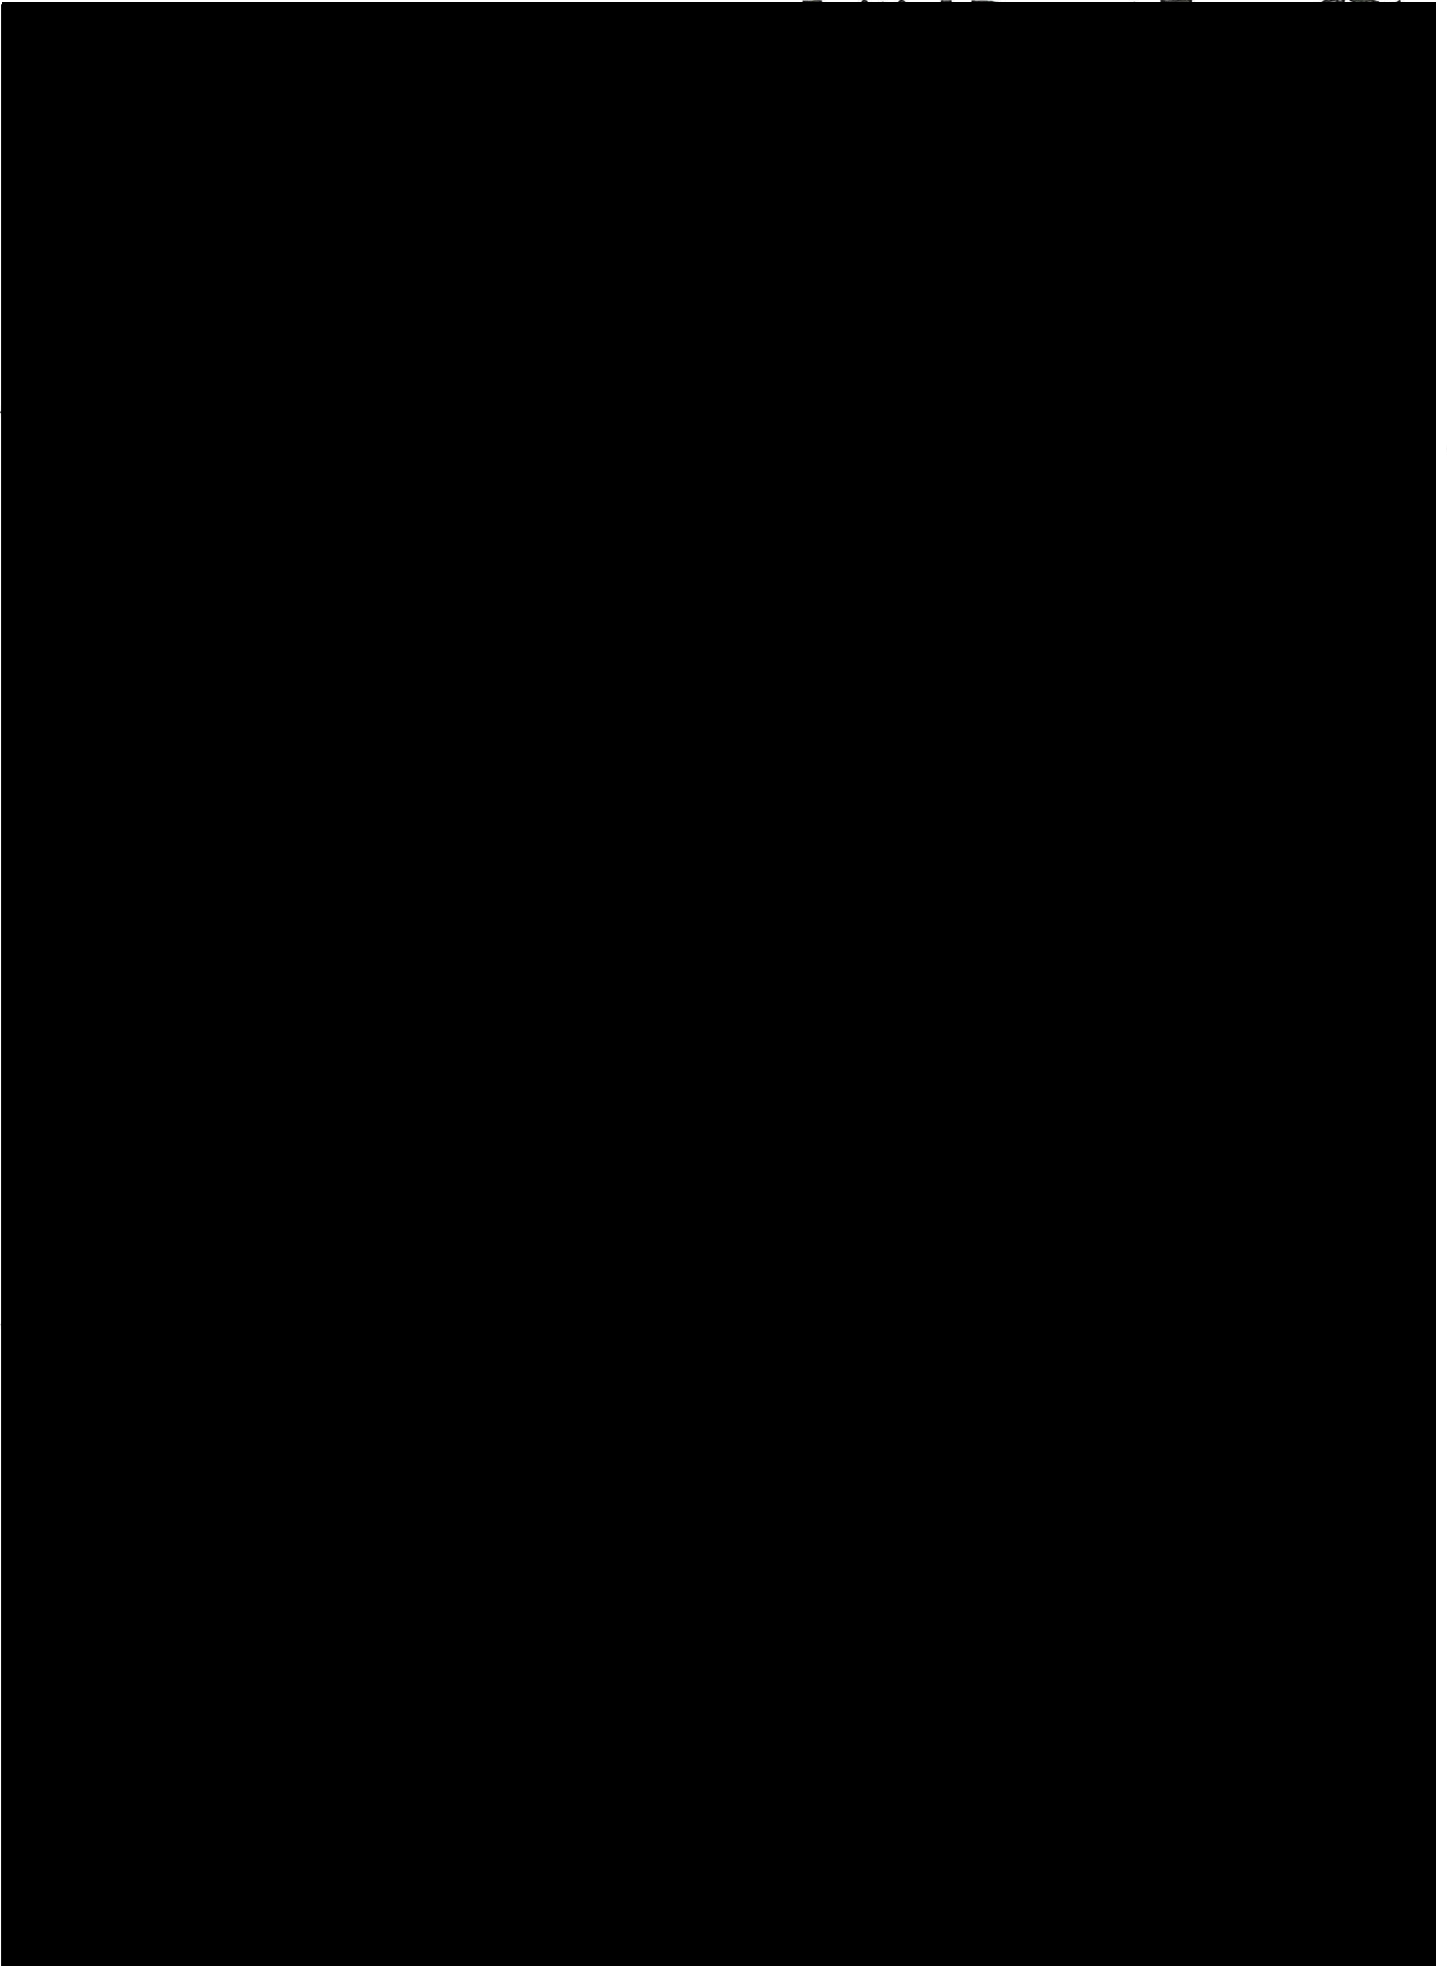

Cont/....

[REDACTED] and Georgina can continue to be cared for by their grandparents. Their mother would appear to have had a high level of contact with her children since they have resided in Stevenston. Other issues regarding nursery placement and housing will continue to be addressed by the Worker involved. At this stage I too would recommend that Panel Members consider a Supervision Order 44(1)(a) in respect of [REDACTED] again with a condition of residence naming the maternal grandparents.
