CLINICAL INFORMATION

Reason for Referral: new petechial rash, ? cause

Main Referral Text: Was ok when discharged from hospital. last night was feeling feverish, felt terrible, temperature was up at 41 he says.
had paracetamol and ibuprofen and felt a bit better this morning when woke up.
went in the shower in the afternoon and was aware of widespread non blanching rash.
Non itchy, feeling well otherwise today, has continued to take paracetamol and ibuprofen.,
Pictures of rash show petechial rash
No nosebleeds or subconjunctival haemorrhage, no PR bleed.
No new medication changes
discussed I think needs bloods tonight, have referred to medics at SJH
