Billy up at 9.45am. Bit quiet with staff. Had banch before going out. Came back for his phone - can't be found - left again at 12.30. Was advised to return for tea. (see family)	
In the end most of his shift watching TV the videos with staff. Quiet at first as if feeling the waters. Anxious if ice hockey team would be going ahead tomorrow explained it was up to him if they went ahead as it is dependent on behaviour. At bed time informed staff that his beddy is wet it appears someone has poured water on his bed. Billy explained he had just wet the bed. Given clean bed then, in a strop got upset saying he would not change this.
