Comment Comment Results letter. X/H 20.03.26

09-Mar-2026 Pharmacist Heather Allan (HAL) Townhead SurgeryMain Surgery

Comment **Comment** TC with Denys. Doing well with his pregabalin. Tells me he had spoken to psychiatrist about this 'appointment' - had been reassured by them that was routine to check in and make sure dose is appropriate. Advised not stopping. Is engaging well with addictions, is reducing doses of methadone, tells me now on 15ml daily, motivated to go on Bupropion injections for more freedom. Agreed maintain pregabalin given other changes that he has been working through with drug worker. Renal funct. supports this dose.

Result Estimated creatinine clearance (Cockcroft-Gault formula) 105 mL/min

12-Feb-2026 Dr Andrea Wardell (AW) Telephone Consultation

Problem **Problem** Lump in forearm getting bigger and still painful. States is now 1cm in size. I will arrange urgent USS

29-Oct-2025 Pharmacist Faye Wilson (FW) Townhead SurgeryMain Surgery

Comment **Comment** TC with pt explained would have to collect weekly blister pack as not suitable for 4 weeks blisters to be delivered. Pt did not realise Care Pharmacy was in sprinside. Will try and find a local chemist for blister and then request weekly prescriptions.

29-Oct-2025 R Caitlin McCreedy (CMC) Data Entry

Comment **Comment** FAO Pharmacist - have had an email 27/10 from Care Pharmacy saying they have agreed to take pt on as weekly dispense? But are only able to deliver 4 weeks at a time, asking if GP would be okay with this? Then asking to be provided with 4 weeks MDS prescriptions? Adding note here as says in slot notes unable to source a chemist.

27-Oct-2025 PharmTech Lisa Dibden (LDI) Townhead SurgeryMain Surgery

Comment **Comment** Patient unable to locate local pharmacy to take on blister pack. Looking for meds to be changed to monthly. Passed to Pharmacist as looks to be only Quetiapine on weekly dispense at this time - will require clinician review if this is suitable.

23-Oct-2025 Nurse Joanne Milliken (JMK) Telephone Call

Comment **Comment** Addictions nurse Nicola would like Denys to have an inhaler review as technique is poor, phone him and appt arranged for next thursday, to bring inhalers with him.

21-Oct-2025 Pharmacist Faye Wilson (FWI) Townhead SurgeryMain Surgery

Comment **Comment** TC with Boots Townhead unable to take on new blister,
 Comment **Comment** TC with pt advised if can find pharmacy we can change to weekly dispense, explained Care could possibly do blister but may be a waiting list too far for pt.
 Comment **Comment** Has set up reminders on phone to help remind to take medication will ask in local pharmacy's and will let us know if to change to weekly dispense

Problem **Problem** Phoned Dr Roy's secretary: she will contact Dr Roy to see what follow up might now be arranged and get back to me/surgery as soon as possible

26-Sept-2025 Dr Andrea Wardell (AW) Townhead SurgeryMain Surgery

Problem	Problem States very painful lump right forearm but now states is a 3rd of the size it was last week. No hx trauma. Long hx of drug addiction but doing really well on methadone and pregabalin. Not injected in to forearm. Only injected once but fainted at sight of blood so never did it again
Examination	Examination 5mm round smooth mobile lump forearm. ? ganglion ? seb cyst ? lipoma. BUT is in severe pain with it. Highly unlikely sarcoma but refer for USS.
Problem	Problem Needs inhalers not helping. Had been told likely to have COPD and d/c from resp clinic but note PFTS done 2 weeks ago show possible interstitial lung disease or emphysema or both. Will need to chase up resp
Examination	Examination O2 sat 98% ;ujlse 90 HS pure chest clear.
Comment	Comment Try anoro inhaler instead of incruise
Medication	Medication Anoro Ellipta Dry Powder Inhaler 55 micrograms + 22 micrograms/dose 30 DOSE ONE PUFF ONCE DAILY

26-Sept-2025 Dr Andrea Wardell (AW) Telephone Consultation

Problem	Problem CAC: really painful lump on forearm for last few mths. Getting worse. Not visible but can feel it. Not red or hot. Worried that has cancer. Review

Comment	Comment Repeat medication reauthorised by clinical pharmacist Incruise, Salbutamol

02-May-2025 Ms Julie Geates (JGE) Telephone Consultation

Comment	Comment Re laxido: On methadone. Opioid, constipation known s/e. On 85ms. Getting stabbing pains in intestine all the time - broken rib floating about, had CT scans, MRIs etc ongoing long long time, thought to be gallstones but all ix returned normal nothing new here. Before laxido "was getting tears in anus which was causing bleeding". Increased fibre content, eating lots of fruit. No longer getting blood in stool, not currently having any bowel issues. Still suffers from pain intestines, ongoing a long time, nothing new here. Been told in past IBS. Lost weight, just under 16st was 25st 10 yrs ago - intentional weight loss. Rambles so quite difficult to understand at times. Takes one every day to alt. days depending on bowels. Reasonable to continue on acute rx. Made very clear any change in bowel habits should be flagged - advises me well aware of this and would come see us if thought anything was wrong. Laxido moved to reg. repeat.
---------	---

11-Jun-2024 Dr Step McNair (SMCN) Townhead SurgeryMain Surgery

History History Feels salbutamol helps when breathless using 6 times a day. Takes it before has to go up stairs. Has trying to cut down on my smoking. Feels better since had antibiotics but still coughing up green spit. Went for chest x-ray yesterday no results yet.

Examination Examination Sats initially 91 when sat down. Very quickly and up to 95. Chest no wheeze no creps generally quiet sounding air entry heard throughout. Vocal resonance is equal on both sides. Heart rate 98.

Comment Comment Have given a pop for a sputum sample. Suggest LAMA to to see if can improve symptoms further and reduce need for salbutamol. Review in 6 weeks. If having issues with breathing before then getting more should get back in touch. I will see results of chest x-ray and if anything needing action on that I will get in touch. Patient asking for lateral stone repeats agreed

Medication Medication Incruse Ellipta Dry Powder Inhaler 55 micrograms/dose 30 DOSE ONE PUFF ONCE DAILY

Medication Medication Lactulose Solution 3.1-3.7 g/5 ml 300 ML THREE 5ML SPOONFULS TO BE TAKEN TWICE A DAY

28-May-2024 Dr Step McNair (SMCN) Townhead SurgeryMain Surgery

History History review of chest symptoms as per letter and from friday. feels unwell breathing always terrible but bit worse for the last 2 + weeks. sats were low at clinic last week but not on friday. trying to cut down on smoking has managed to reduce tabeaccoo and cannabis.

Examination Examination chest bilateral lower zone creps left a lot owrse than right noisy soudning chest throughout no wheeze. initaly when first sat down hr122 and sats 87 but this quickly increased to 98 and hr 106 on rest.

Comment Comment chest infection on top of probable chornic lung disease. abx and salbutamol given. review in 2 weesk requested chest xray if breahiting worse in meantime to get in touch.

Medication Medication Amoxicillin Capsules 500 mg 15 CAPSULE ONE TO BE TAKEN THREE TIMES A DAY

Medication Medication Salbutamol Cfc-free inhaler 100 micrograms/puff 1 INHALER ONE TO TWO PUFFS TO BE INHALED AS REQUIRED FOR BREATHLESSNESS

24-May-2024 Dr Kevin Weaver (KWE) Townhead SurgeryMain Surgery

History **History** Dear Doctor. Thank you for seeing this man with polycythaemia probably due to smoking, inactivity and all his prescription drugs and cannabis use. I have tried to broach a change in life style and maybe Social services can help by providing social change that is acceptable to him and his partner. I think he is at big risk with asuddenly clotting event and wonder if some medication to prevent this is worth considering. I think his quality of life is good and would value your opinion YS Dr KW. letter to chest clinic and same letter to social services

Comment **Comment** also has colic and hard motion with some rectal bleeding, requesting medication

Examination **Examination** 02 94, P104

Medication **Medication** Lactulose Solution 3.1-3.7 g/5 ml 300 ML THREE 5ML SPOONFULS TO BE TAKEN TWICE A DAY

24-May-2024 Dr Step McNair (SMCN) Clinical Advice Column

History **History** letter from ahem form moday saying patient was cyanosed and had sats of 86-88 on rest. Did not think to admit patient. Patient not known to have type II respiratory failure. Saturations have been documented in the high 90s at last reviews. Although this was back in October 2023 I do think it would be unlikely that his saturations would drop so dramatically in this time. Called patient. Patient feels unwell breathing is poor. Partner was trying to get them to come to GP. Did not come as visiting mom today. Asked if could come next week suggest that patient needs seen today to assess for acute illness. Patient agreed well, at 3 PM.

26-Mar-2024 Dr Step McNair (SMCN) Townhead SurgeryMain Surgery

08-Feb-2024 Dr Step McNair (SMCN) Townhead SurgeryMain Surgery

History	History unclear historyian but seems like has 2 issues urinary frequency and pain in abdomen. pain in abdomen moves around comes on about an hour after eating. was very constipated last year but changed diet and this hasimprved situation for last 6 weeks goes to toilet every second day one episode of lblood in stool last week, on methadone got it decreased this week to see if it helps with bowels. was looking to go to gen surg as things needs a floating bone removed. but letter from previous was referral to apin team no mention of this. feels has lost some weihgt although cant qauntify it said clothes looser on him lately. worreid about prostate cancer as dad recently diagnosed, passing urine all the time flow issues as well. not vomiting, or nausea. very fixated on how he didn't mishis appointemtn with surgeon in 2022.
Examination	Examination abdo- soft non tender bowel sounds heard no masses. pr exam. empty rectum no haemorhoids no blood on glove smooth feeling prostate with cnetral sulcus.
Comment	Comment ? consptiation causing issues or other cause. suggest psa and abdo ultraound ? gallstones. reduction in methadone will help with bowels if they are the prodominatn issues. review with results

07-Feb-2024 Dr Andrea Wardell (AW) Telephone Consultation

Comment **Comment** post ECG - all normal taking gabapentin wants a change to pregabalin for sciatica looking to reduce gabapentin will discuss with Dr Woolston addictions looking for lower dose equivalent of pregabalin

14-Jan-2020 PN Lorraine Owen (LO) Townhead SurgeryMain Surgery

Problem **Problem** ecg as requested by dr grayston may 2019 - ecg normal placed in ecg tray

07-May-2019 Dr James Grayston (JGR) Townhead SurgeryMain Surgery

Problem **Problem** Re Surgeon and Pain
History **History** Problems with surgical followup. Note review in 2018. Was to get CT scan and review. Tells me missed CT scan appt due to issues getting his post. Now gets it directly from post office so no issues now. Looking for appts to be rearranged. Also ongoing issues with back pain. Pain in L lower back radiating down L leg. No red flags: no sphincter disturbance/saddle parasthesia. Feels gabapentin helped before but not as much now. Asking if could change to pregabalin. Apparently a pharmacist had suggested this. Tells me has now been out of prison for 9.5 years which is longest stretch for him - "don't even know who sells the drugs now";.
Examination **Examination** Tender to area indicated. Normal power and sensation to lower limbs.
Comment **Comment** Agreed to refer back to surgeon. Re back will refer to MSK clinic for advice/physio. Agreed to titration to gabapentin as Rx. Check ECG once established on dose and monitor for side-effects. May discuss further if not improved.

26-Apr-2019 PN Michelle Gray (MGR) Townhead SurgeryMain Surgery

Comment **Comment** Attended for ECG as requested

09-Apr-2019 Dr James Grayston (JGR) Telephone Consultation

Comment **Comment** Asking about possible change to gabapentin as worsening sciatica pain and has fallen a couple of times. Given other meds would need ECG first to check QTc. Agreed to get this then review with me in surgery.

Problem Plain X-ray lumbar spine - NFA - RESULT IN DOCMAN

22-Sept-2016 Dr James Grayston (JGR) Townhead SurgeryMain Surgery

Problem Problem Skin Problem, Lesion Check and Back Pain
Medication Medication Meloxicam Tablets 15 mg 30 TABLET ONE TO BE TAKEN DAILY
Medication Medication Coal Tar Extract Shampoo 2 % 250 ml TO BE USED AS DIRECTED
Medication Medication Hydrocortisone And Miconazole Cream 1 % + 2 % 30 GRAM APPLY THINLY ONCE A DAY AS DIRECTED
History History Some flaking/irriated skin around eyebrows. Also has lesion on chest wall. Advised by nurse to get checked. Has been present for a year or two but has been changing colour recently - darker brown. Also has bled on a few occasions. Back pain chronic but a little worse recently. Waking up during the night with sharp pain in back. No saddle parasthesia/sphincter disturbance.
Examination Examination Some flaking/dermatitis around eyebrows/bridge of nose. 10*8mm lesion on chest wall. Largely symmetrical but slightly irregualr broder. Darker colour in centre. Two shades of brown. Tender to lumbar paraspinal muscles. Normal tone/power/sensation to lower limbs.
Comment Comment Rx for face - advsied to keep away from eyes. Given bleeding and change will refer to derm for opinion on skin lesion. Add NSAID for back. Keen to have x-ray and given night pain agreed. Reivew fi not improved/wosrening.

Problem ~~Problem~~ Anxiety
 History ~~History~~ In with partner, history of drug misuse and mental health probs diagnosed by Dr Stirling (addiictions) as having Anxiety disorder, been on Mirtazipine 45mg but no longer feel these are effective so wishes to stop taking, recently commenced Interferon for Hep C and feel anxiety worse since ths atarted worried wil be violent as has been in the past not voicing anything specific and is aware responsible for own actions. In addition scjatica worse recently taking Gabapentin 4 daily long term no longer finding effective (has been ordering appropriately). Seeing CPN next week hoping they wil be able to provide further help via consultant re mood and anxiety
 Comment ~~Comment~~ Discussed options agree can increase Gabapentin to 6 daily, Rx changed to reflect this, adamant wants to come off Mirtazipine as thrown tabs away today suggest redues gradually over 2 weeks then stops before could consider replacement, also agree to one of script for Zopiclone 7 days to help with poor sleep until sees CPN next week, Rx will not be repeated.
 Medication ~~Medication~~ Zopiclone Tablets 7.5 mg 7 TABLET ONE TO BE TAKEN AT NIGHT
 Medication ~~Medication~~ Mirtazapine Tablets 30 mg 7 tablet ONE TO BE TAKEN AT NIGHT
 Medication ~~Medication~~ Mirtazapine Tablets 15 mg 7 tablet ONE TO BE TAKEN AT NIGHT
 Medication ~~Medication~~ Gabapentin Capsules 300 mg 252 capsule TWO TO BE TAKEN THREE TIMES DAILY

Test Results

02-Oct-2025 Mr Anonymous User (ANON)

Result: Blood glucose result
 Glucose 4.9 mmol/L (Range: 3.3 - 6)

02-Oct-2025 Mr Anonymous User (ANON)

Result: Plasma C reactive protein
 CRP 10 mg/L (No range available)

02-Oct-2025 Mr Anonymous User (ANON)

Result: Thyroid function tests
 TSH 0.79 mU/L (Range: 0.27 - 4.2)
 Free T4 20.4 pmol/L (Range: 10 - 22)

02-Oct-2025 Mr Anonymous User (ANON)

Result: Bone profile
 Phosphate 0.62 mmol/L (Range: 0.7 - 1.5)
 Adjusted Calcium 2.31 mmol/L (Range: 2.2 - 2.6)
 Calcium 2.33 mmol/L (Range: 2.2 - 2.6)

02-Oct-2025 Mr Anonymous User (ANON)

Result: Liver function test
 Globulin 34 g/L (Range: 21 - 35)
 Albumin 41 g/L (Range: 35 - 50)
 Total Protein 75 g/L (Range: 60 - 80)
 ALT 13 U/L (Range: 5 - 55)
 AST 18 U/L (Range: 10 - 45)
 ALP 63 U/L (Range: 30 - 130)
 Bilirubin 10 µmol/L (No range available)

02-Oct-2025 Mr Anonymous User (ANON)

Result: Urea and electrolytes
 eGFR result/1.73m² >60 (No range available)
 Chloride 97 mmol/L (Range: 95 - 108)
 Potassium 3.5 mmol/L (Range: 3.5 - 5.3)
 Sodium 139 mmol/L (Range: 133 - 146)
 Creatinine 87 µmol/L (Range: 50 - 120)
 Urea 5.5 mmol/L (Range: 2.5 - 7.8)

02-Oct-2025 Mr Anonymous User (ANON)

Result: Erythrocyte sedimentation rate
 ESR 2 mm/hour (No range available)

02-Oct-2025 Mr Anonymous User (ANON)

Result: Haemoglobin A1c level - IFCC standardised
 Haemoglobin A1c (IFCC) 36 mmol/mol (Range: 20 - 41)
