Dear Sir / Madam

Re: Subject Access Request under the General Data Protection Regulation

Patient: Brenda O'Neill D.O.B: 13/08/1965

Thank you for your recent request in which you seek a copy of your client's personal information.

Your request has been dealt with in line with our requirements under Article 15 of the General Data Protection Regulation and I now attach the following:

STOBHILL ACH RECORDS

Please be aware that these health records have been reviewed by a clinician and any information identifying or provided by a third party has been removed.

We process personal information to enable us to provide healthcare services for patients; support and manage our employees; to carry out research and clinical trials; maintain our accounts and records and to carry out data matching under the national fraud initiative. We also use CCTV systems for crime prevention.

This personal information can be both clinical and non-clinical in nature and can include

- Patient health records, photographs or radiology images
- Video/telephone recordings, including CCTV images
- Witness statements
- Incident reports
- Complaints files
- Emails

The source of our data includes Patients, General Practitioners, Healthcare, Social and Welfare organisations, Legal representatives and Police forces:

We sometimes need to share the personal information we process with the individual themselves and also with other organisations as listed above. Where this is necessary we are required to comply with all aspects of the General Data Protection Regulation

Where these organisations are based outside Europe we take all appropriate safeguards to protect your information.

Health records are kept for a limited time and this is noted below for your information

- Adult general hospital records – six years after the date of last entry
- Maternity records – 25 years after the birth of the last child
- Children's and young people's records – until the child or young person's 25th birthday.
- Mental health records – 20 years after the date of the last contact

If you have any queries, please do not hesitate to contact us.

If you are unhappy with how your request has been dealt with please contact the NHSGGC Data Protection Officer. Their contact details are noted below:

Dear Doctor,

**Brenda O'Neill; D.O.B: 13/08/1965; CHI: 1308656505
15 BERRYKNOWES DRIVE, Glasgow, Lanarkshire, G52 2DZ**

Thank you for referring this 54 year old who had an episode of post menopausal bleeding. Transvaginal ultrasound on 26th October showed an anteverted uterus with an endometrial echo very mildly thickened to 4mm. Both ovaries appeared normal. A pipelle endometrial sample as expected yielded scanty tissue. Thrush like vaginal discharge was seen and Canestan has been issued. I have not arranged any routine review but have advised Brenda to report any further episodes of bleeding. If the bleeding were to recur we would consider hysteroscopy.

Yours sincerely

Dr. Chitra Kumar
