Medication	Medication Daridorexant Tablets 50 mg 30 tablet ONE TO BE TAKEN AT NIGHT 30MIN BEFORE BEDTIME
History	History Feels daridorexant was helping sleep initially but not now really Goes to be 10/10.30 then wakes approx 12.15/12.45 Feels wide awake and takes ages to get back to sleep if at all At wkends might manage to get to sleep at 5am and then sleep til 10.30/11am. Doesn't drink coffee 3 cups tea in the day . last one at 5pm Has tired decaff and reports makes no difference to his sleep Would like further mth daridorexant to see if is helping Has not yet managed to get his bloods done Needs to arrange with his ***** Still having tingling sore tips fingers
Comment	Comment Further 1/12 medication but not for further if feels no improvement. Encouraged to get the bloods planned and then make appointment with me for f2f assessment of issues noted in 30/04/26

03-Jun-2026 Mrs Shirley Lochran (SLOC) Townhead Medical PracticeMain Surgery

Comment Comment Patient phoning as he said waiting on GP to call re: Darodexant, havent received call. He said he doesn't get good connection as phone cuts out.

03-Jun-2026 Dr Rabeel Tariq (RAB) Townhead Medical PracticeMain Surgery

Comment Comment Re below, Pls offer GP partner tel/f2f appt to discuss this tomorrow, thanks

Comment Comment Please check&urinalysis&at time of HCA CVA review bloods etc Please let me know the result or other GP &No UTI - Letter to him asking him to bring urine specimen at time of stroke review with HCA

30-Apr-2026 Dr Jane Dely (DRDELY_18876) Townhead Medical PracticeMain Surgery

History History Got to sleep this morning at 7.30 Every night not sleeping Some nights is 2 nights. Has trialled trazodone, mirtazapine , antidepressants over 7 yrs. Cannot sleep. Can't take zopiclone due to metallic taste. No naps. Has ***** at home , at school. Does not wish to try any sleep app. Feels not being listened to /no-one looking after his needs Admits can come across as difficult Mentions brought up in childrens' homes. Reports benefits having been reduced following report to DWP. Has house move to a ground floor house by 7th May.

Medication Medication Stexerol-D3 Tablets 1,000 units 56 tablet ONE TO BE TAKEN EACH DAY

Medication Medication Daridorexant Tablets 50 mg 30 tablet ONE TO BE TAKEN AT NIGHT 30MIN BEFORE BEDTIME

History History Also 2/12 weight loss, no appetite Had rest of teeth removed last yr Teeth don't fit. No abdo pain Bowels Normal stool 2x daily/no change. Since stroke urinary issue - dribble again after PUing and wets clothes Stronger smell No dysuria Particularly bothered about the latter because feels too embarrassed to try to go out of the house. Sore finger tips when touches things. Thinks may need vitamins since doesn't go out out of house and see sunlight

Comment Comment Offered daridorexant for chronic insomnia Not going to use Sleepio Feel fulfils the criteria for trial of it No other options now Mentioned if were to prescribe zolpidem would be short-term for a few dys this wk and not longer term and just sedates . Accepting today of trying daridorexant . R/V 1/12 with potential continuation for another 2/12 then further review. Likely reduced vitamin D since doesn't go out in sun Start Stexerol D3 (added to rpt Px). Needs assessment of wt loss/loss of appetite , urinary issue, finger tip pain. Check urinalysis, PSA (discussed this and mentioned DRE potentially at later date) . Check bloods and for CVA review with HCA, include BP , wt/BMI. Plans to ask ***** to bring him. Then organise further follow-up including examination

30-Apr-2026 Dr Jane Dely (DRDELY_18876) Data Entry

Comment Comment MSU to lab. If no infection will need follow-up due to non-visible haematuria

Result Result Urinalysis - blood + Nil else

29-Apr-2026 Dr Riaz Hafiz (RH) Townhead Medical PracticeMain Surgery

Comment Comment poor compliance. to make appt to discuss.

29-Apr-2026 Dr Rabeel Tariq (RAB) Townhead Medical PracticeMain Surgery

History Telephone encounter lengthy long consult, Mr Cassidy very upset and frustrated which spiralled as we moved along the consult, continuously shouting, had to terminate the call as this was going circular with no end point in sight. Mr Cassidy's main issue is sleep, he is struggling with this for last 5 years as reported today, he tells me that we have given him various medications that has actually made his health worse rather than better, he also made it clear he doesn't want Trazodone anymore, previously he has had zopiclone - but says that we only gave him two tabs at a time, says there are thousands of sleeping tablets in the world but we are not addressing his main issue of lack of sleep that he feels is driving the current mental health issues, he reports he only got 9 hours of sleep in last 3 days, he is losing his temper very quickly, being snappy, he doesn't leave house much, may be once a month, he doesn't have hobbies anymore, previously he used to play xbox but not anymore, says he has to look after his ***** and is managing this fine. He states that he is not keen for zopiclone either as this gives him metallic taste in his mouth the next day, but when asked if he had any other sleeping tablet in mind - he started shouting again, says you should know, you are a doctor, I attempted to explain insomnia management - Sleepio app - but that led to further shouting, says he is not going to use any app, says this is ridiculous, tried to explain that after CBT for insomnia there is a newer medication now we can use called daridorexant, to which he replied no thank you very much. I have terminated the call as Mr Cassidy was talking over me and shouting throughout. PM informed, who advised for a tel consult with JD tomorrow. Reception: could you please arrange tel cons with JD for tomorrow please? thanks

29-Apr-2026 Ms Michele Brown (MICHELE_18876) Townhead Medical PracticeMain Surgery

Comment **Comment** please call mobile, re MH/meds

27-Aug-2025 Dr Ling Zhang (LZ) Townhead Medical PracticeMain Surgery

History **History** Telephone consult: States previous GP had prescribed him an AD. However issues are still the same. Still can't sleep. Was issued sertraline, but he states he needs something for the night time. Doesn't feel anything different, was advised to continue further, but again didn't feel much different with this. He finished these back in June. has felt no difference with stopping them. Previously, he was on mirtazapine, felt this did help with sleep but gave him night terrors. Had arguments with family as felt events had occurred which hadn't. Felt with Mirtazapine, the lower dose gave him restless legs, but the higher gave him restless dreams. States later that he was addicted to mirtazapine which is why he doesn't want to go back onto this. Has an ***** who goes to school, so is looking after him too. Hasn't slept for 3 days.

Examination **Examination** Quite irritable during the consultation. Referencing his previous care, was agitated at times staying no help in the last 5y, discussed he has only been with our practice for the last 1y.

Comment **Comment** He mainly just wanted zopiclone today as he feels that's the only thing which works for him without side effects. Discussed I can issue a short course of zopiclone today but that this is not a longterm option given issues with the medication/local guidance/long term cognitive SEs/addictive nature. He was not very happy with any suggestions regarding alternatives. Discussed previous trazodone, he had only used for 1m, states he felt they didn't work so he stopped them. Advised he was on lowest dose of this and sertraline. To determine effect needs to stay on for longer than 4-6w and/or trial a higher dose to determine if it would help. He was agreeable at end of consult to trying trazodone again, but starting on a higher dose, prev only 50mg. Have issued 150mg nocte, with scope to increase if required. Advised towards end of current supply, rather than stop/run out, tma before they run out for review, and can consider increase of dose or alt. He is agreeable with this. Discussed that medications may only help his symptoms to a certain extent, and that counselling/lifestyle/social circumstances will all contribute.

13-May-2025 Dr Jane Dely (DRDELY_18876) Telephone Consultation

History *History* Requesting additional info in housing letter Following stroke is unable to walk down the 21 stairs x 2 to the ground floor from his 2nd floor flat Stroke affected L side - leg and arm Can only stand for 5 mins before L leg wobbles, shakes and then gives way Unable to stand reliably on that leg Can't grip banister with L hand Tried before with adult relative there and struggled. Lives with ***** only Is at risk of falling The previous consultation included info about ability to go out before he had the stroke

History *History* Also, not noticed any improvement with sertraline yet Been on 25mg for 1/52 then 50mg approx 2/52 No issues with SEs

Comment *Comment* Agreed further letter. Explained that not expecting him to have noticed any change with the sertraline yet For further packet 28 and for review before this finishes Will also arrange staff to phone him to arrange registration of *****

Medication *Medication* Sertraline Hydrochloride Tablets 50 mg 28 tablet ONE TO BE TAKEN EACH DAY

13-May-2025 Dr Jane Dely (DRDELY_18876) Telephone Consultation

History *History* Checked CP Physio assessment stated to be limited due to going for a scan but noted to have no obvious weakness and mobilising independently on/off the ward and that no need to assess on stairs as pt reports doing these when going off the ward. Also FDL states 'no obvious functional impairment at point of discharge' Phoned Mr Cassidy Tells was v keen to get home asap , ward was busy, not sleeping. Relative coming with him to go downstairs (smoking) and used the lift so didn't try the stairs Current flat really nice and would not wish a move but can't get downstairs Explained that I can write letter but have not examined him myself and don't have other info that supports what he is telling me so letter will note that his inability to get down stairs is reported to me Understands and agrees re this

Comment Comment Patient says he was not informed of him being deducted from our list, would like to speak to practice manager re this.

22-Apr-2025 Mr Mark Boyd (MIB) Data Entry

Comment Comment spoke with GP Partner - reason for re-registrations discussed and agreed - telephone appointment arranged - requires new Fit Note to replace one issued in Feb dates, ? new Fit Note - repeat medication ran out (trazadone not beneficial - alternative) - awaiting heart monitor result from Stobhill Cardio (nothing on Portal - ? referral) - options for MH support - symptoms remain and not slept for days

22-Apr-2025 Dr Jane Dely (DRDELY_18876) Telephone Consultation

History History Phoned him Increased difficulties since had CVA in Feb Known visual deficit (LUQ) and symptoms L leg Mobility worse since then Used to be able to run up and down stairs Now v slow/more difficult with L leg . I note he c/o sensory disturbance prior to his admission GRI Feb then developed visual deficit. ***** came to live with him 2 yrs ago after ***** died of ***** . Pt went through SW to bring ***** to live with him Feels is looking after him well but hx of assault (tells me attempted murder) 10 yrs ago and then occurred again a few mths later and finds it v hard to go out Feels everyone watching and thinks he might be attacked Hardly goes out This worse since CVA also Before CVA reports SW were offering a buddy for ***** to take him out sometimes but because family were helping then was felt it was not needed However does feel needs this since he has had stroke Wears face mask Difficulties with previous meds Feels has tried lots of antidepressants (though had not heard of sertraline) Mirtazepine at doses 15-45mg caused noisy dreams and he felt addicted to it Feels made him more reclusive Can't be in crowd of more than 2 people. Trazodone 50mg caused restless legs and made trying to sleep even worse Struggles with sleep and reports has not slept for 2 dys Was scared to fall asleep by 5am today because ***** needed to get to school Gets taken and brought back by taxi. Says has tried all sorts of remedies for sleep - herbal, apps, nothing has worked Is waiting for Lifelink appointment currently (Has CVA appointment on 24th June) He stopped propranolol 2 yrs ago, didn't help

Social Social Lives with ***** . Has two older *****

Comment Comment Encouraged to phone SW re support for ***** that was previously offered Tells me he has the tel number and thinks he'll do this. Asks for letter for housing association that they have asked for to confirm had CVA ; has been told this will help him with application for GF house - I will do. Rpt Pxs organised and issued . I had mentioned that I might prescribe 2 zopiclone for sleep but would not plan to repeat or continue this He didn't in fact pursue this at all so I have not prescribed Discussed sertraline and was interested in trying Poss SEs nausea mentioned and explained isn't a tab that causes drowsiness and therefore doesn't help sleep that way though if reduces anxiety /helps relax then may help sleep that way. Start at 25mg dose 1/52 Wait for contact from Lifelink. Given tel appointment with me for 12th May For backdated fit note (with correct address on) and further fit note Discussed registering his ***** with the practice ; he tells me is not registered anywhere at the moment since his GP practice has moved He will ask his ***** to help with online registration Checked CP - result of ht monitor went in there today. Told him that no atrial fib was seen Fit note also issued from 5th April to 17th June but has not shown up below

Medication Medication Atorvastatin Tablets 80 mg 56 TABLET ONE TO BE TAKEN EACH DAY

05-Mar-2025 Dr Sam Penrice (SAM) Telephone encounter

Medication **Medication** Trazodone Hydrochloride Capsules 50 mg 28 capsule ONE TO BE TAKEN EACH NIGHT

History **History** Call to patient. Conversation started with some expletives about yesterdays consultation. Decided to ignore this given patient's current stresses and recent hospital discharge.
Ongoing issues issues with low mood and anxiety. Previous practice had him on mirtazapine and propranolol for this. Informs me that he was removed from previous practice for verbal abuse to staff. As a result was removed and not given any further medication. States he had to go cold Turkey with his medication and found this extremely difficult. States he felt like he was addicted to the mirtazapine. Discussed restarting this but patient states that it caused vivid dreams and found this very difficult. Doesn't wish to restart. Discussed propranolol and states this initially was helpful for his anxiety but stopped working - last had over 4 years ago. Has a supply at home of this but doesn't want to take. States he has been feeling a lot more anxious since he was discharged from hospital. Had been given diazepam from hospital and seeking more of this. Advised that we do not routinely give out diazepam and I would not be prescribing this for him today. Advised that I would suggest the propranolol in the first instance and could give Trazodone to help with his mood and sleep. Accepts the Trazodone but circled back to seeking diazepam. States "if he was an addict he would be given this". Advised that similar to him, addicts would be signposted to the relevant support groups. We had referred him to CMHT and they advised him to speak to Lifelink. Proceeded to state that the doctors were lazy for making him contact them, we should be doing this for him. CLW has offered this for patient but declined. Feels that doctors are doing nothing. Advised that we have been offering him alternative treatments for his mood an anxiety but he is not willing to try these. Patient then proceeded to escalate at this point. States that he will buy diazepam online and if he kills himself it would be my fault. Advised that manipulative behaviour will not get him diazepam. Patient continued to shout and swear down the phone and I was unable to get a word in. Advised that I was now terminating the call. I have issued trazodone for the time being to help with his mood and anxiety.

04-Mar-2025 Dr Chinenyenwa Ezeonwumelu (CE) Telephone encounter

History	History Long consultation, Requesting diazepam for anxiety management as the only thing that works, had this in hospital, states he cannot leave his home due to his mental health and only thing that helps. Reports previous Dr he spoke with said she would do a script but not received. Explained there is no such in his notes regarding this. I advised that such medications are short term use, may be given by specialist as well if required. Given the risk of addiction, not beneficial for anxiety, not routinely prescribed anymore for MH. Neil mentioned he was on Mirtazapine for many years and that was addictive too and asks me how I expect him to get out of the house without the diazepam. Neil states that we give Methadone to drug addicts but do not give diazepam to people that need it for MH. I explained Methadone is specialist issue as well so in line with advice given.
History	History Neil mentioned he would purchase Diazepam online and it would be my fault if anything happened to him, I advised he is an adult with capacity for own decisions and that is a choice for only him to make and I cannot be blamed for this
Comment	Comment Neil very aggressive on the phone, informed multiple times to stop cursing/being abusive, explained repeatedly that I will not be prescribing diazepam unless specialist directed. Offered other anti-depressant and PRN Promethazine pending MH review but declined stating none have ever worked for him
Comment	Comment Discussed sending his other medication to chemist - shouting, states he wants me to deliver this to himself as he cannot leave his home, I explained he has to choose a chemist for script to be sent to be prepared first and then liaise to deliver his medication. Mentioned boots on duke str, explained there are 2 chemist but he is unsure. Told to check Bts 430 to FU medication as will send script there.
Comment	Comment Repeatedly circling back to diazepam and shouting when I declined then phone call ended abruptly
Comment	Comment Inform PM re patient
Medication	Medication Atorvastatin Tablets 80 mg 56 TABLET ONE TO BE TAKEN AT NIGHT
Medication	Medication Clopidogrel Tablets 75 mg 56 TABLET ONE TO BE TAKEN EACH DAY
History	History Neil enquired about duration of sick note, explained he had one issued for 2 months, he states this will not be sufficient and needs one for 26 weeks, advised as new note, usually for short periods, to call when this runs out for an extension
History	History Says he has about a week supply left of statin and clopidogrel, all discussion circles back to diazepam repeatedly
Examination	Examination coherent speech, swearing repeatedly, reactive vocal affect, nil evidence of thought or perception disorder

04-Mar-2025 Ms Myra Gilbert (MYRA_18876) Townhead Medical Practice Main Surgery

Comment	Comment Patient called back said he had been cut off during call with GP re below, let patient know that GP had said his language on phone was unacceptable and she wasn't going to speak to him again, he then said to me "tell her im going to kill myself then", let PM know what he said.

04-Mar-2025 Mr Mark Boyd (MIB) Telephone Call To Patient

Comment *Comment* Called patient as GP had terminated consult earlier due to aggressive behaviour (shouting & swearing) - patient was calmer when I called, frustrated as tried various medications without success over the years for anxiety/MH - unable to leave house and has upcoming hospital appt and school needs with ***** - asking for diazepam for anxiety. Explained this would unlikely be issued as not usually prescribed by GP's due to reasons already explained by GP, understood his situation but need for calm/respectful idscussion around long term solution and prescribable medication that can be issued - if given short course of diazepam as requested what happens when need arises to leave home again?? Explained would be removed from list if futher aggression directed towards any staff, patient understanding and is aware MH referral declined with Lifelink instruction - I will ask CLW to provide this information to him and new GP appt tomorrow to discuss appropriate options medication wise and plan to help with MH

04-Mar-2025 Ms Sharn Boyle (SB) Townhead Medical PracticeMain Surgery

Comment *Comment* At the request of MB I called patient regarding Lifelink information. Very positiive chat with patient and no aggressive languagedisplayed at anytime. Emailed patient link for Lifelink and advised on how to self refer. Patient declined a further CLW appt but agreed if this changed in the future he would be in touch

History Lengthy consultation. Pt recently admitted to hospital with Right sided occipital infarct. Has ongoing visual changes and weakness but knows this can take time to resolve or may not resolve fully. Is due to have OP stroke clinic fu. Has been discharged on meds. Is looking for ongoing script of diazepam. Says has not left the house for 3 years. Anxious ++. says people have planned to kill him twice so is scared of leaving his flat. Lives on 3rd floor. Lives with *****. Has support from ***** and ***** and his 2x ***** who are in their 20s. They help out daily. They assist with looking after his *****. Able to get about the flat fine. cooks meals. had been on mirtazapine for a few years but didn't like how it made him feel so stopped it. Also been on escitalopram and fluoxetine and didn't like them. Says no anti-d has helped. Was on diazepam in hospital as understandably his anxiety increased and said did make him relax. Explained this was a short term measure whilst in hospital and not for any ongoing scripts. Diazepam highly addictive and can develop tolerance. longer term use can increase risk of dementia. Does not help him long term with anxiety issues. Need to look at longer term help and support to help him with his social anxiety. Discussed mental health team input and he can have tele appts with pcmht - pt says has tried this over the years and not helped. offered to try another anti-d and declined. Pt then changed behaviour suddenly. Says we're doing nothing to help. He's going to buy diazepam online. At the end says he has recorded this conversation and shows that I'm not helping him and that he is saying he is going to buy diazepam online so if something goes wrong then this conversation has been recorded and that he records and will be recording all conversations with doctors. Says all the GPs over the past few years have suggested the same - psychology and anti-ds. Conversation keeps coming back to diazepam. Made it clear no further scripts will be issued. I will refer to CMHT. Pt also asked for fitnote dated from day of admission. Call ended abruptly with no follow up planned.

History History Reviewed docman. seen at Shawpark in 2008 for anxiety and afraid to leave his house. started on escitalopra and then no fu. failed to attend appointments after this.

Comment Will d/w PM and partners re behaviour and recording of consultations

04-Feb-2025 Dr Deborah Olawuyi (DO) Townhead Medical PracticeMain Surgery

History History I phoned landline x2 but no answer and couldn't leave a voice message.

04-Feb-2025 Dr Deborah Olawuyi (DO) Townhead Medical PracticeMain Surgery

History **History** I phone patient, he reports 3 days history of intermittent headaches, says worse when he coughs. also reports light sensitivity. Says used to have migraine but not feeling like migraine. Says he felt numb on his face 2 days ago but spontaneously resolved. Today he woke up with more severe headaches, says his vision is now blurry, Says he sees double with both eyes. Says he wears glasses but the double vision is entirely new and looking for help. I have called earlier when I could have brought for face to face assessment but he didn't answer. I advised him he would need an urgent assessment so to attend A&E asap for assessment. Then he went on to tell me that he is new to the surgery and he was removed from his previous practice because he was rude to the doctors there. He reports he hasn't left his house in the last 2 years and he can't tell me why. Says he asked for help regarding this from his previous doctor, but they couldn't help him. He said he altered a statement in annoyance which led to his removal. ('you can't f**king help me'). He repeated this statement on several occasions. He became angry when I explained we don't just visit people at home if they are not house bound due to mobility issues. He then in annoyance told me why did he have to wait for me to call back if he will have to go to the hospital by getting an ambulance for himself. then he cut the call.

Emergency Department
Glasgow Royal Infirmary
84 Castle Street
Glasgow

Dr Rashid
12/14 Tullis Street
Glasgow

G40 1HN

16 April, 2008

Dear Dr Rashid,

Re. NEIL CRAWFORD, FLAT 2/1, 14 SLATEFIELD STREET, GLASGOW, G31 1UA
Date of Birth 25.04.82 Hospital Number: 20866826V CHI Number: 2504826311

Your patient attended Glasgow Royal Infirmary on the 14 APR 2008 at 23:26 pm.

The presenting complaint
was:

STANDBY / ASSAULT

Triage
Information:

Nil

The following investigations were carried
out:

Nil

The A&E diagnosis
was:

~~Injury~~ ~~Head And Face Trauma~~ ~~Other Head And Face~~
Trauma-Specify in G P Letter

The following treatment was
given:

Nil

At the conclusion of treatment the patient
was:

Patient Refused Treatment

Follow-
up:

Not Known

Additional
Information:

GCS 15 at all points. Scalp laceration and obvious skull fracture on palpation. Wound cleaned with betadine and stapled. CT of head showed comminuted, non-depressed parietal skull fracture. This was not depressed and no underlying haematoma. The top third of his ear was almost off- plastics kindly reviewed this and advised stitching this on under GA. They would also evacuate his right superficial temporal artert haematoma. Unfortunately- this patient signed himself out despite my best attempts

Yours sincerely,

Tona Fernandez-Ares

MR C S KUMAR/MR A BROOKSBANK'S FRACTURE CLINIC - 12TH JULY 2005

12th July 2005

Dr Rashid
12-14 Tullis Street
Bridgeton
GLASGOW
G40

Dear Dr Rashid,

NEIL CRAWFORD, 14 SLATEFIELD STREET, GLASGOW
DIAGNOSIS: MINIMALLY DISPLACED FRACTURE LEFT DISTAL RADIUS
DATE OF INJURY: 3/7/05

When seen at one week there is no displacement on his x-rays. His cast is a bit loose and has been changed and will be seen in a further 4 weeks with cast off on arrival.

Yours sincerely

MR A BROOKSBANK

HB/JG 5th July 2005

Dr M.A. Rashid
12/14 Tullis Street
GLASGOW G40 1HN

Dear Dr Rashid

Re: Neil Crawford, d.o.b. 25 04 82, Unit No. 20866826V
Flat 2/1, 14 Slatefield Street GLASGOW G31 1UA

Diagnosis: Minimally displaced comminuted fracture left distal radius.
Date of injury: 3rd July 2005
Outcome: Forearm cast
Review in one week with X-ray on arrival

I reviewed this right hand dominant demolition worker today at the Fracture Clinic. He was up on a roof approximately 8 ft high collecting a ball when he fell on to his outstretched left hand. He complains of pain in the distal radius.

On examination he has bruising and swelling over the distal radius with some tenderness. There is no distal neuro-vascular deficit.

X-rays show a comminuted intra-articular fracture which is minimally displaced. I have shown this to Mr Brooksbank who feels that conservative treatment is appropriate.

He has been put into a forearm cast and will be reviewed back at the Fracture Clinic next week with X-ray on arrival.

Yours sincerely

H. BETTS
S.H.O. III

Dear Dr Gardiner,

Re: **NEIL CASSIDY – DOB 25.04.82**
14 SLATEFIELD STREET, GLASGOW, G3 7JN

Thank you for your referral letter regarding the above named requesting them to be seen at our Out-Patient Clinic. To prevent delays, in view of some patients failing to keep their appointment we have asked the above named to confirm that they would wish an appointment at the clinic.

Once they confirm that they would wish an appointment a firm appointment will be forwarded to them by post.

We regret that if they do not contact us to confirm that they will attend, we will be unable to send them an appointment.

Yours sincerely

CLINICAL INFORMATION**History of presenting complaint / examination findings / investigation results****Presenting complaint**

Description: POST TRAUMATIC HEARING LOSS

Comment: Dear Doctor,

This chap was allegedly assaulted with a machete on the right side of his head. He says that since this incident he has noticed diminished hearing in his right ear and occasional bleeds off and on. Although he had this encounter two weeks ago no hospital documents have reached our surgery and he did mention that he was seen by the ENT doctor in Accident & Emergency. He did have two CT scans of his head but apparently he subsequently discharged himself without medical advice. On examination today there was a healing laceration of his right ear and an otoscopy revealed dried blood clots in his external ear canal. He is otherwise neurologically normal with a GCS of 15.

Dear Dr Rashid,

Neil Crawford Flat 2/1 14 Slatefield Glasgow G31 1UA Unit No: 20866826V
Date of Birth: 25.4.82 CHI - 2504826311

This 25 year old man attended the Emergency Department on the 15th April 2008 at 3.25pm. He had irregularly discharged the day before. He was assaulted and had sustained a skull fracture with no intracranial abnormality. He also had a complex laceration to his ear which would require plastic surgery to repair.

On two occasions despite admission to the ward, he took an irregular discharge and was judged to be competent to do so. I would hope that by the time you receive this letter he would have returned to the department to have these issues dealt with.

Yours sincerely,

Dr N Dignon

CLINICAL INFORMATION**History of presenting complaint / examination findings / investigation results****Presenting complaint**

Description: POST TRAUMATIC HEARING LOSS

Comment: Dear Doctor,

This chap was allegedly assaulted with a machete on the right side of his head. He says that since this incident he has noticed diminished hearing in his right ear and occasional bleeds off and on. Although he had this encounter two weeks ago no hospital documents have reached our surgery and he did mention that he was seen by the ENT doctor in Accident & Emergency. He did have two CT scans of his head but apparently he subsequently discharged himself without medical advice. On examination today there was a healing laceration of his right ear and an otoscopy revealed dried blood clots in his external ear canal. He is otherwise neurologically normal with a GCS of 15.

I wonder if you could see him at short notice for his symptoms.

Yours sincerely,

Dr Saty Bhat

Description: ANXIETY

Comment: Dear Doctor,

This man was attacked with a machete over 6 weeks ago and understandably since this time he has not been coping very well. At present if he tries to leave his home on his own he becomes overwhelmed with anxiety and starts experiencing palpitations. As such, at present he is just about house bound, only leaving his home when accompanied by a family member. He is becoming very disheartened by this and would appreciate any help that is offered.

Many thanks.

Yours faithfully,

Dr Christopher Staines

Dear Dr Staines,

RE: Neil Cassidy CHI: 2504826311
16/1, 109 Bluevale street, Glasgow G31 1HN

Thank you for your referral dated 4th June 2008, which was discussed at our allocations meeting on 17th June 2008. As it has been a very short time since the time of the assault, we do not think it would be helpful to pathologise Mr Cassidy's symptoms by offering him input from mental health services at present.

We would be happy to consider re-referral in future, if his symptoms do not abate.

Please contact us if you would like to discuss this further.

Sincerely,

Dr D McQuaid

CLINICAL INFORMATION**History of presenting complaint / examination findings / investigation results****Presenting complaint**

Description: ANXIETY FOLLOWING ASSAULT

Comment: Dear Doctor,

This man was attacked with a machete in April '08. He required staples to the back of his head and since the attack he has had impaired hearing on the right.

Since the attack he describes marked anxiety with episodes of panic attacks. He states that he is unable to leave the house without being accompanied. He feels unsafe in the area and has now moved to the West End of Glasgow. He stated his sleep is disturbed by awakening with cold sweats caused by him having flashbacks to the incident. He has become much more irritable in general.

He was originally referred to the Community Mental Health Team at the Arran Centre at the beginning of June but we did receive a letter back stating that at the allocations meeting it was thought it was too short a time since the actual assault and we were told that it was felt it would not be helpful to "pathologise Mr Cassidy's symptoms by offering him input from the Mental Health Services".

As this man seems to be making little progress I would be grateful for your assessment and further management.

Yours sincerely,

Dr R J Hardman

CLINICAL INFORMATION**History of presenting complaint / examination findings / investigation results****Presenting complaint**

Description: ANXIETY FOLLOWING ASSAULT

Comment: Dear Doctor,

This man was attacked with a machete in April '08. He required staples to the back of his head and since the attack he has had impaired hearing on the right.

Since the attack he describes marked anxiety with episodes of panic attacks. He states that he is unable to leave the house without being accompanied. He feels unsafe in the area and has now moved to the West End of Glasgow. He stated his sleep is disturbed by awakening with cold sweats caused by him having flashbacks to the incident. He has become much more irritable in general.

He was originally referred to the Community Mental Health Team at the Arran Centre at the beginning of June but we did receive a letter back stating that at the allocations meeting it was thought it was too short a time since the actual assault and we were told that it was felt it would not be helpful to "pathologise Mr Cassidy's symptoms by offering him input from the Mental Health Services".

As this man seems to be making little progress I would be grateful for your assessment and further management.

Yours sincerely,

Dr R J Hardman

Dear Dr Hardman

RE: Neil Cassidy – CHI: 2504826311
Flat 3/2, 3 Brechin Street Glasgow G3 7HF

I reviewed the above gentleman at my Out Patient Clinic today on 15.09.2008. He had been attacked with a machete in April 2008 and since then has been experiencing anxiety as well as episodes of panic attacks. He would feel difficulty in breathing and palpitations as well as his hands being clammy. He did not feel safe leaving the house unaccompanied and since then moved to the West End of Glasgow. He described a decreased appetite, disturbed sleep pattern (falling asleep around 4-5am and waking at 9am), a decrease in concentration and worsening memory. He stated that he was having "flashbacks" but upon closer questioning it seemed to be nightmares. He described having a dream where he would find his [REDACTED] in a pool of blood and wake up in a cold sweat.

Unfortunately, three weeks ago he was attacked again by the same group of people with a broken glass bottle to his head. He required a CT Scan in hospital and sutures to the side of his head. He stated that his friends told him that it was the same group of people and that he knew who they were. However, he would not be willing to report them to the Police. It appeared that the exacerbating factor for him being attacked was a previous argument about football with this group of people. He did think that he was starting to feel slightly better prior to this attack three weeks ago. He is now feeling more anxious and will not leave the house as he was worried about being attacked again.

Past Psychiatric History

Nil of note.

Past Medical History

Fracture to the left distal radius in 2005.

Medications

Not on any medications at the moment.
No known drug allergies.

NHS Confidential: Personal data about a patient

2/3

Neil Cassidy - CHI: 2504826311
Page 2 of 3

Family History

There is no family history of mental health illness. He has one older [REDACTED] and two younger [REDACTED]

Personal History

He was born and brought up in the Glasgow area. His [REDACTED] left the family at the age of two and he did not remember much about him. He described his childhood as "okay" and got along with his [REDACTED] and siblings. He did not enjoy school at all and was expelled once when he was in Primary 7. He then went on to Secondary School and did not complete his first year as he did not like it. He was then sent to a childrens home for about a year and then a Social Work Centre for a few years after that. He then worked in the building trade at the age of 16 and did this for 8-9 years. Unfortunately, the company he was working for "went bust" and he had not been working since Christmas 2007. He is currently on Incapacity Benefits.

In terms of relationships he has had several in the past and has two [REDACTED] with a previous partner. His [REDACTED] lives in Coatbridge and he has been seeing her for the past year. He lives in a rented flat on his own and gets regular visits from his [REDACTED]

Drug and Alcohol History

He smokes about 10 cigarettes a day and denies taking drugs for the past two months. He tends to misuse Cocaine (spending £100 or more a week as well as Cannabis and Ecstasy). He stated that he stopped taking drugs a couple months ago as his [REDACTED]. He admitted to being a very heavy drinker in the past but claimed to have reduced his alcohol intake substantially over the last couple of years. He stated that prior to the incident in April 2008 he had been drinking about a bottle of wine and a couple of cans of lager a week. He had not been drinking much alcohol recently and drinks a couple of cans of beer occasionally.

Forensic History

He had several charges of Breach of the Peace a few years ago.

Mental State Examination

Neil was casually dressed, displayed good eye contact and rapport was established. His speech was normal in rate, rhythm and volume. His mood was subjectively low and objectively euthymic. At times he did appear slightly anxious. Affect was reactive. He has no current suicidal ideation but did admit to fleeting suicidal thoughts a few weeks ago. However, there was no active intent or planning. No formal thought disorder was noted. He denied any auditory or visual hallucinations. However, he did mention that his girlfriend found him talking to himself a few weeks ago but that was after drinking a couple of cans of beer. In addition, he did state that he has been known to talk to himself after consuming alcohol. He was orientated in time, place and person. He wanted to seek help and was willing to accept treatment.

Impression

Neil is a 26 year old man suffering anxiety following two episodes of attack (one with a machete and one with a broken glass bottle).

I have discussed this with Dr Tyczynski and it was felt that he may benefit from Escitalopram 10mg od for his anxiety symptoms. In addition I have also provided him with information from Maryhill and

Emergency Department
Glasgow Royal Infirmary
84 Castle Street
Glasgow G4 0SF

Dr M Rashid
12/14 Tullis Street
Glasgow

G40 1HN

10 September 2010

Dear Dr Rashid

Re: NEIL CASSIDY, HOUSE 16, 40 ROSEMOUNT STREET, GLASGOW, G21 2JP
Date of Birth: 25.04.82 Hospital Number: 20866826V CHI Number: 2504826311

Your patient attended Glasgow Royal Infirmary on the 9 SEP 2010 at 13:31 pm.

The presenting complaint was:

Head Pain

Triage Information:

Sustained A Head Injury Last Year Today Co Of Ongoing
Headaches And States He Collapsed Last Gcs 15

The following investigations were carried out:

Nil

The A&E diagnosis was:

Nil

The following treatment was given:

Nil

At the conclusion of treatment the patient was:

Patient Left Before Assessment Complete

Follow-up:

Not Known

Additional Information:

Nil

Yours sincerely,

Claire Fitzpatrick
Consultant in Emerg. Medicine

YELLOW PRACTICE - NEW PATIENT QUESTIONNAIRE

(New patients will be given a new patient medical if clinically necessary or can request one if wished)

Today's Date 20/9/10Name Neil Crawford Occupation unemployedDate of Birth 25/4/82 Age in Years 28 Sex: Male / FemaleAddress 40 Ross Mount Plot 1612G Royston Telephone Number [REDACTED]

How long to you intend to live at this address:-

STUDENTS ONLY - How Long Are You Studying in Glasgow:- Permanent

DO YOU SUFFER FROM ANY OF THE FOLLOWING CONDITIONS: (Please tick)

High Blood Pressure	Stroke	Heart Condition	Asthma or COPD
Epilepsy	Diabetes	Thyroid	Mental Health Problems ☒
Any other major illness:- <u>PANIC ATTACKS</u>			

QUESTION:**ANSWER:**SMOKING: Tick one only please - ☐ Never Smoked ☒ Smoker ☐ Ex Smoker

If you ARE a smoker, would you like Smoking Cessation Advice Yes / No : Leaflet Given:

MEDICATION Are you presently taking any medication - please list -	<u>No</u>
--	-----------

ALLERGIES Do you have an allergic reaction to any medications: If so, please list:	<u>No</u>
--	-----------

STUDENTS: Have you had the MenC Jab.	Yes	No	Not Sure
Have you had the MMR Jab.	Yes	No	Not Sure

ADULT FEMALE PATIENTS ONLY:-

Date of Last Smear Test:- <u>N/A</u>	NEVER HAD A SMEAR TEST? Please answer the following question:
Taken at: GP / Clinic / Abroad	Have you ever been sexually active YES / NO
Result of Smear Test:-	
HYSTERECTOMY: If you have had -	<u>Details</u>

CONTRACEPTION:	If you require a contraceptive appointment you may book one with the Practice Nurse.
----------------	--

Please continue on the back of this form

NHS Confidential: Personal data about a patient

PAGE TWO OF NEW PATIENT QUESTIONNAIRE

We need to know what Ethnic Group you belong to. Please tick ONE of the following boxes:

WHITE

Scottish ☒	English	Welsh	N. Irish
British	Irish	Gypsy/Traveller	Polish

Any other WHITE GROUP (please write) -

ASIAN, ASIAN SCOTTISH or ASIAN BRITISH

Pakistani	Scottish Pakistani	British Pakistani	Indian
Scott Indian	British Indian	Bangladeshi	Scott Bangladeshi
Chinese	Scottish Chinese	British Chinese	

Other (please write) -

AFRICAN, CARIBBEAN or BLACK

African	Scottish African	British African	
Black	Scottish Black	British Black	
Caribbean	Scottish Caribbean	British Caribbean	

Other (please write) -

OTHER ETHNIC GROUP

Arab	Any mixed or multiple ethnic group
------	------------------------------------

Other (please write) -

If you do not wish to give this information, tick this box -

NEED FOR AN INTERPRETER:

I need the assistance of an interpreter: LANGUAGE:-
I need a SIGN LANGUAGE Interpreter (BSL or Makaton):-

PRESENT HEIGHT and WEIGHT

PLEASE ENTER YOUR HEIGHT IN THIS BOX:	5'4"
PLEASE ENTER YOUR WEIGHT IN THIS BOX:	108lb

FAMILY MEDICAL HISTORY

Are you aware of any family history (parents, brothers, sisters) of the following diseases. If so, please tick and enter whether Mother, Father, Sister or Brother.

If you have no data for this section, please score through:

HEART CONDITION ☒	DIABETES ☒
By this is meant HEART DISEASE not High Blood Pressure.	
Which Relative:-	Which Relative:-

******IMPORTANT INFORMATION REQUIRED******

The surgery wishes to keep an up to date register of patients who are Carers to another person or who have a Carer.

Are you caring for someone or being cared for by a relative/friend - if so, please ask the receptionist for a Carers Information Form to allow us to record the invaluable service given by Carers.

Please also see the notice board in the reception area exclusively for carer information.

Dear AG Rollo

Re: **Cassidy Neil**
3/1 1361 Duke Street
Glasgow G31 5PN

DOB: 25/04/1982

CHI: 2504826311

Attended on: 04/08/2014 at 09:35 hrs.

Departed on: 04/08/2014 at 11:52 hrs.

Discharge Type: 01a - Discharge with no follow up

Destination: Private residence

Previous ED Attendance in last 12 months: 0

Presenting complaint

fall-head, ribs injury

Nursing Assessment

Fall 3/7, landed left side of ribs, increased pain since. No sputum/SOB/haemoptysis, laos banged top of forehead, small bruise noted, denies LOC

Investigations in ED:

None

NHS Confidential: Personal data about a patient

Cassidy Neil

CHI: 2504826311

Diagnosis:

Diagnosis	Side	Site
Fracture of rib, closed	Left	

Procedures: **None**Immunisations: **None**

Dispensed Medication:

Dispensed Medicine	Formulation	Dose	UOM	Route	Frequency	Duration
Cocodamol 30/500 2 tabs QID PREPACKED ONLY	Tablets (PP)	2	TABS	Oral	FOUR Times a Day	No duration defined

Clinician Notes:

Incidentally commented on blackouts which he has been having for sometime, the last one being over a month ago. Says that he wonders if this is related to a head injury which he sustained 5 years ago. In view of the prolonged period of this problem I think it would be best investigated as an out patient and would be obliged if he could be referred.

Followup: **GP**

APPLICATION TO REGISTER PERMANENTLY WITH A GENERAL MEDICAL PRACTICE

1. PERSONAL DETAILS (ALL FIELDS MARKED * ARE MANDATORY AND MUST BE COMPLETED AS FULLY AS POSSIBLE)

Male* ☒ Female* ☐ Is this your first registration with a GP Practice in the UK? Yes ☐ No ☒ Will you be in the area for more than 3 months? Yes ☒ No ☐
(If 'No', please ask for form GMSTRF001)

Date of Birth* 25/4/1982 Address* 1361 ~~Black~~ Duke St
Title* MR Flat 3/1 Parkhead
Surname* CRAWFORD Glasgow
Forenames* Neil Postcode* G3 1 5QG
Previous Surname* Cassidy Telephone #
email address # Mobile #

The following information can be found on your current medical card:

Community Health Index (CHI) Number* NHS Number*

The following information can be found on your birth certificate:

Town of Birth* Glasgow Country of Birth* Scotland
Registered district of birth* (Scotland only) Mother's maiden name* CRAWFORD

the data supplied in these fields will not be input to, or updated in, the Community Health Index (CHI), but will be held on the GP Practice's system

2. HELP US TO TRACE YOUR PREVIOUS GP HEALTH RECORDS BY PROVIDING THE FOLLOWING INFORMATION

Address in UK when you were last registered with a GP* Name and address of previous GP Practice in UK*
Robertson Medical Whitevale medical
Practice 40 Rosemount Centre
Roxton

Postcode* Postcode*

If you are from abroad:

Date you first came to live in the UK* DD MM YYYY If previously resident in the UK, date of leaving* DD MM YYYY

Your most recent country of residence

If you have served in the British Armed Forces:

Enlistment date* DD MM YYYY Service Number
If yes, please provide your address before enlisting*
Are you a Reservist? Yes ☐ No ☐
Leaving date* DD MM YYYY
Is this your first registration with a GP since leaving the Armed Forces? Yes ☐ No ☐ Postcode*

3. VOLUNTARY CONSENT TO ORGAN DONATION

I would like to join the NHS Organ Donor Register as someone whose organs may be used for transplantation after my death. Please tick the boxes that apply. Your consent to organ donation will be shared with NHS Blood and Transplant together with the information you have provided in Section 1 including your name, gender, date of birth address and CHI number. For more information on being an organ donor or privacy, please ask for the leaflet on joining the NHS Organ Donor Register or visit www.organdonation.nhs.uk.

Any of my organs and tissue ☐ Or my
Kidneys ☐ Eyes ☐ Heart ☐ Lungs ☐ Liver ☐ Pancreas ☐ Small bowel ☐ Tissue ☐
Patient signature Neil Crawford Date 04/5/2016

GMSGPR001 v1 (05-2013)

NHS Confidential: Personal data about a patient

4. HOW WE USE YOUR INFORMATION

The information you have provided will be used by the GP Practice to carry out its various functions and services including scheduling appointments, ordering tests, hospital referrals and sending correspondence.

Your information, including your name, gender, date of birth and address, will be passed to NHS National Services Scotland where it will be held on the Community Health Index (CHI). This information is used to register you with the GP Practice, transfer your medical records between GP practices in the UK, make payments to GP Practices for medical services provided, and to process and issue medical cards, medical exemption certificates and entitlement cards.

NHS National Services Scotland shares information about you within NHSScotland to assist in the provision and improvement of NHS services and the health of the public. When we do this, we make sure that the information which identifies you as a person and your health information are separated or anonymised. Health condition and treatment information which could identify you will not be used for research purposes by the NHS unless you have consented to this.

For more information on how NHS National Services Scotland uses your personal information visit www.nhs.uk. If you have any queries or concerns about how your personal information is used by the NHS please ask for the leaflet 'Confidentiality - it's your right', visit the Health Rights Information Scotland website at www.hris.org.uk or ask your GP surgery.

NHS National Services Scotland is the common name of the Common Services Agency for the Scottish Health Service.

5. PATIENT DECLARATION

I declare that the information I have given on this form is correct and complete. I understand that, if it is not, appropriate action may be taken.

To enable NHS National Services Scotland to confirm my eligibility to lawfully register with a GP and for the purposes of prevention, detection, and investigation of crime, relevant information from this form will be disclosed to the NHS Business Services Authority, NHS National Services Scotland, the Home Office, Identity and Passport Service, HM Revenue and Customs, the General Register Office and Local Authorities.

To Whom It May Concern:

Dear Sir or Madam:

Re: Neil Crawford D.O.B. 25.04.1982
Flat 7/3, 164 Helenvale Street, Glasgow G31 4LY

I write to confirm that this patient suffers from anxiety and depression. Please note the patient's previous involvement with psychiatry and referral to psychology. This patient has suffered from previous serious assaults which our psychiatry colleagues felt in the past contributed to his symptoms. The patient continues to receive medication from ourselves in regards his mental health including Propranolol and Mirtazapine.

The patient experienced an extremely traumatic event in November 2018 when he found his [REDACTED] dead in the hallway of his house. As a result of this Neil is finding it extremely traumatic staying in the house where he found his [REDACTED]

It is my opinion that his housing situation is impacting negatively on his mental state and is extremely traumatised by finding his mum and continuing to live in the house where he found her.

I would be most grateful if this information could be taken into account when considering Neil's housing and your sensitive handling of our patient's case is as always much appreciated.

Kind regards

Yours faithfully

G Dames

CLINICAL INFORMATION**History of presenting complaint****Presenting complaint**

Description: hearing voices

Comment: I would be grateful if you could review this 38 year old who has been hearing a male voice in the evenings and night every few days for the past 2 weeks. It is a male voice that sounds familiar to him but not instantly recognisable. It is always the same voice that speaks to him and at times tells him to do "stupid things". He has no thoughts or plans to self harm or harm others, he has no headaches or recent head injury. He is suffering from anxiety and depression for which he is on Mirtazapine 45mg. He lives alone and has not used any cannabis for many years.

Dear Neil,

Unfortunately you did not attend your scheduled appointments with me here at the Arran Centre on the 3rd and 8th September 2020.

Due to this you have now been discharged from the Community Mental Health Team back to the care of your GP. Should you require support with your mental health in the future please contact your GP in the first instance.

Yours sincerely,

M. Howarth

Dear Dr Annie McIntosh,

Further to your referral of the patient below for a scan, please note we have now offered 2 appointments as per the GG&C Access Policy. Unfortunately these appointments were unsuitable to your patient and in line with the above policy, we have now removed them from our waiting list.

Patient: Mr Neil Cassidy Crawford

Date of birth: 25-Apr-1982

CHI No: 2504826311

Patient Address:
14 INGLEBY DRIVE

GLASGOW
LANARKSHIRE
G31 4LY

Last appointment offered to your patient:

For: a Chest x-ray
On: Saturday 13 November 2021 at 4:20 pm
At: Gartnavel General Hospital, Radiology Department

Should you wish to review your patient's circumstances and decide they still require their scan, please do not hesitate to re-refer after ensuring the patient is aware they could be offered an appointment across any of the GG&C Hospitals.

Yours sincerely

Diagnostics Administrator

CLINICAL INFORMATION**History of presenting complaint****Presenting complaint**

Description: Anxiety - not leaving the house

Comment: I would be grateful for your assessment of this gentleman who does not leave his flat and reports having not left it for the past 3 years except in emergency medical circumstances.
There have been previous threats to his life and has witnessed trauma and no feels too scared to leave his flat. He has support from his [REDACTED] and [REDACTED] who do his shopping and help get his [REDACTED] to and from school.
He was previously assessed at Shawpark in 2008 for anxiety and was started on escitalopram. He says this didn't help and then was given fluoxetine and mirtazapine with mirtazapine being the most recent. He doesn't like the ways the anti-ds made him feel. As far as I am aware he hasn't completed any talking therapies.
He was recently in hospital for a stroke and has residual symptoms. During that admission he was given diazepam to help with anxiety and was advised there would be no ongoing scripts. He has requested further diazepam but I have explained it is not a long term solution and no further scripts have been issued.
I would be grateful for your assessment. He is keen to get out and about again and it does appear his anxiety can be debilitating.

Removed at GP request

chi@dhs.nhs.scot <chi@dhs.nhs.scot>

Fri 16/02/2024 12:07

To:gp46235clinical (Forge Medical Practice) <[REDACTED]@nhs.scot>

You don't often get email from chi@dhs.nhs.scot. [Learn why this is important](#)

This is an automated service, please do not reply to this email.

Dear Doctors

I acknowledge the undernoted patient to be removed from the GP Practice list of patients for reason: Removed at GP request.

NEIL CRAWFORD
2504826311

The patient has been notified accordingly and their name will be removed from the practice list under the terms of Schedule 6 Part 2 of the National Health Service (General Medical Services Contract) (Scotland) Regulations 2018 from 24 February 2024 unless they register with another practice before this date.

A formal request will then be made for the return of their medical records which should be retained until this time.

Yours sincerely

Practitioner Services (PSD Medical)

Consultations

Consultations	
16/02/2024 10:55	<u>Dr Annie McIntosh at Forge Medical Practice</u> Duty emergency F2F slot. Difficult consultation. Patient attended for mental health. Stated not left the house in 3 years and needed to take a valium to attend today with his wife. Said mirtazapine no longer working which he has been on for 8 years. Reported poor sleep also. Tried to explore reasons for poor mood/not leaving the house. Patient reported that he had attempted murder on him 10 years ago and feels people are looking for him and may attack him. Reason for not leaving house last 3 years is [REDACTED] involved in murder trial and worried people may attack him if he leaves the house also. States he has been attacked previously in the past. Feels mirtazapine not helping with his sleep. Appeared to get very agitated about poor mood early on in consultation. When trying to explore mood symptoms more, would go off on tangents about not being able to get telephone consultation (despite asking for this) as "reception staff are f***** useless" and doesn't agree with them asking questions about why needing appointment. I took time to explain triage of reception and very standard approach used by numerous GP practices in triage need for appointment and suggested we move on to try and explore mental health. Patient reported about poor sleep and mirtazapine not helping. I tried to explain sleep/insomnia is very difficult to treat with medications and many patients get intolerant to them, however patient was not accepting of this and became challenging and ruder and interrupted before I could finish explaining other management or trying different antidepressants. He stated "so you are telling me that sleeping tablets don't help people sleep" and also "so would you not get intolerant to a medication you have been on for 8 years" patient contradicting himself and I was trying to explain above and this again - he then interrupted and said "You are sitting there smirking at me. don't sit there smirking at me" whilst pointing at me. I felt very intimidated by sudden escalation and threatening language use. I said to the patient I was not going to continue the consultation and asked calmly that he leave the room. Patient left the room and banged the door shut on leaving. I felt shaken after the consultation. History
	Discussed with practice manager and given verbal threatening behaviours and feeling intimidated by patient that I asked him to leave the room. PH will send letter to Registrations to remove patient within 7 days. Comment
16/02/2024	<u>Ms Karen Burrell at Forge Medical Practice</u> Letter sent today to Registrations to remove patient within 7 days. See email from Dr McIntosh Comment
05/02/2024 16:52	<u>Dr Holly Thompson at Forge Medical Practice</u> Failed encounter moved from Dr L.P.'s list to mine as spare time to call during duty PM. History
	requesting call re MH - "it has not been possible to connect your call" - tried several times - await contact from patient
13/01/2023 18:45	<u>Dr Edin Sheikh at Forge Medical Practice</u> Telephone encounter Coryzal since Monday - recent spirometry tests. Feels "left ear popped" - followed by "right ear". No otorrhoea, Tinnitus associated. No pain in either ear. No sore throat. Patient progressively became very rude and irritable on phone - explained sounds like a eustachian tube dysfunction triggered by viral URTI, could issue Beconase nasal spray to try alleviate symptoms. Declined this "states I tried that for a year and that made things worse, I just want antibiotics". Explained that essentially from history does not sound like ABx are indicated and would advocate seeing him F2F to assess prior to doing so. Explained I am here until 8pm and happy to accommodate him for this - apologised for late call, ran on with surgery. History
	Became very angry stating "how would you suppose I do that - I have anxiety and not left the house in 2 years". Asked who his named GP and states fed up speaking to different person each time - explained no named GP per se - work as a team but registered GP is Dr Lateef. States this was not the case and his GP was Dr Lafferty. Explained Dr Lafferty retired sometime ago. Became very rude and explained not to raise his voice - in the end patient said just leave it. I am going to complain.
01/06/2022	<u>Dr Helen Richardson at Data Entry</u> Needs review of mental health medication - will ask recp to contact History
03/12/2021	<u>Mr Jack Lees at Forge Medical Practice</u> P1 informed to repeat bloods in 4 weeks time, with call phlebotomy Comment

APPLICATION TO REGISTER PERMANENTLY WITH A GENERAL MEDICAL PRACTICE

ALL FIELDS MARKED * ARE MANDATORY AND MUST BE COMPLETED AS FULLY AS POSSIBLE

1. PERSONAL DETAILS

Is this your first registration with a GP Practice in the UK?

Yes ☐ No ☒

Will you be in the area for more than 3 months?

Yes ☒ No ☐

(If 'No', please complete a temporary resident form)

Male * ☒ Female * ☐

Date of birth * 25 04 1982

Title * Mr

Surname * Cassidy

Forenames * Neil

Previous surname * Crawford

Address * 14ingleby drive flat 2/2 Glasgow dennistoun

Postcode * G31 2pt

Telephone #

Mobile #

Email address #

the data supplied in these fields will not be input to, or updated in, the Community Health Index (CHI), but will be held on the GP Practice's system.

The following information can be found on your current medical card:

Community Health Index (CHI) number *

NHS number *

The following information can be found on your birth certificate:

Town of birth * Glasgow

Country of birth * Glasgow glasgow

Registered district of birth (Scotland only) Glasgow

Mother's maiden name Crawford

2. HELP US TO TRACE YOUR PREVIOUS GP HEALTH RECORDS BY PROVIDING THE FOLLOWING INFORMATION

Address in UK when you were last registered with a GP *

40rosemount street flat 16/6 Royston

Postcode * G31 4hs

Name and address of previous GP Practice in UK *

don't know
forge medical parkhead
dr laferty

If you are from abroad:

Date you first came to live in the UK *

If previously resident in the UK, date of leaving *

Your most recent country of residence

If you have served in the British Armed Forces:

Service Number

Enlistment date *

Are you a Reservist?

Yes ☐ No ☒

If yes provide your address before enlisting *

Leaving date *

Postcode *

Is this your first registration with a GP since leaving the armed forces?

Yes ☐ No ☒

NHS Confidential: Personal data about a patient

3. VOLUNTARY AUTHORISATION FOR ORGAN OR TISSUE DONATION

You have a choice about organ or tissue donation after your death. To find out more about why it is important that you take the time to make your donation decision and record it, go to www.organdonationscotland.org

4. HOW WE USE INFORMATION

The information you have provided will be used by NHS Scotland to carry out its various functions and services including scheduling appointments, ordering tests, hospital referrals and sending correspondence.

Your information, including your name, gender, date of birth and address, will be passed to NHS National Services Scotland where it will be held on the Community Health Index (CHI). This information is used to register you with the GP Practice, transfer your medical records between GP practices in the UK, make payments to GP Practices for medical services provided, and to process and issue medical exemption certificates and entitlement cards.

NHS National Services Scotland shares information about you within NHS Scotland to assist in the provision and improvement of NHS services and the health of the public. When we do this, we do it as described by NHS Scotland in the NHS Inform website under the "[How the NHS handles your personal health information](#)" section.

NHS Scotland is made up of various organisations such as NHS Health Boards, GP practices, the Scottish Ambulance Service or NHS National Services Scotland (the common name of the Common Services Agency for the Scottish Health Service). These organisations are individually responsible for your personal health information. In terms of data protection and privacy laws, they are known as 'data controllers'.

Find out more about NHS Scotland in the link provided above.

5. PATIENT DECLARATION

I declare that the information I have given on this form is correct and complete. I understand that, if it is not, appropriate action may be taken. To enable NHS National Services Scotland to confirm my eligibility to lawfully register with a GP and for the purposes of prevention, detection, and investigation of crime, the minimum necessary information from this form could be disclosed to relevant authorities.

I understand that more comprehensive information about how NHS Scotland handles my data is available from NHS Inform.

This information can be provided in other languages and formats on request. The NHS Inform helpline provides an interpreting service.

Patient / Patient's representative signature

[Signature]

Date *

27/04/2024

Representative's name (if applicable)

Relationship to patient (if applicable)

6. FOR PRACTICE USE

GP reference number

GP name

Practice code

Identification seen – do not take or retain photocopies

Please initial each relevant box (it is recommended that at least one form of the identification is seen to positively identify the applicant although it is not mandatory to provide identification to register)

Birth cert ☐ Student ID card ☐ Driving licence ☐ Passport or HC2 cert ☐ Home Office app reg card ☐ Other / None ☐

I accept this patient onto the practice list and declare that, to the best of my knowledge, this information is correct. I acknowledge that the details may be authenticated from appropriate records, and that payments generated from this patient registration will be subject to Payment Verification.

Authorised Practice signature

Date *

7. FOR OFFICIAL USE ONLY

Sharing your information

Emergency Care Summary (or ECS) – used by Hospitals or Out of Hours services to access your medical summary, including conditions and medications, to ensure improved care is provided outwith surgery opening hours.

MJOG – text message system we use to contact patients i.e. appointment reminder. We will also use this service to notify you of when our Flu Clinics are running, when we are closed for bank holidays or Christmas holiday period, if special clinics are running. *please note that if you are registering a child and have your mobile number as their contact number they will also receive a separate message.

SPIRE – information sharing within NHS Scotland e.g. used to target health care resources, measure disease numbers, run audits. If you decide to exempt yourself from this system, no patient identifiable data will be shared.

By registering with our Practice we would recommend that you engage with the above services but it is entirely your choice to do so.

Please tick each box you wish to engage with – please note unmarked boxes will result in you being excluded from that service.

Dear Dr. L Zhang,

Neil Cassidy; D.O.B: 25/04/1982; CHI: 2504826311
2/2 14 Ingleby Drive, Glasgow, Lanarkshire, G31 2PT

Admission: Specialty - Geriatric Medicine; Ward - GRI Ward 53 MR D.O.M.E / Stroke
Consultant - Dr Helen Slavin; Date of Admission - 05/02/2025
Date of Discharge - 07/02/2025; Discharged to - Private Residence - no additional detail added

Follow Up: Stroke Clinic in 2- 3 months

Clinical Comments:

Clinical Comments:

Dear Dr,

Mr Cassidy was admitted to the GRI 4/2/25 with 5 weeks of intermittent sensory disturbance to the L upper and lower limbs, followed by sudden onset LUQ visual disturbance the night of presentation.

BG: Stage 1 COPD, H Pylori 2017, Anxiety, Cigarette and Cannabis smoker

Investigations:

- ECG NSR
- CTB 4/2/25 showed new SOL R occipital lobe ?malignancy ?CVA
- MRI 6/2/25 Brain showed R occipital infarct in the R thalamus and hippocampus
- CXR 5/2 showed nil of note, formal report awaited

Printed on 12/02/2025 07:44 by Sharon Murphy

Page 1 of 4

NHS Confidential: Personal data about a patient

Cassidy Neil

CHI: 2504826311

FDL 07/02/2025 v1

- Bloods were unremarkable, glucose 5.6
- CT Angio showed R PCA occlusion, nil dissection
- Bubble Echo showed normal LV function and normal bubble study

He was treated with Aspirin and commenced statin as per stroke protocol. Mr Cassidy remained well throughout admission although remained aware of his of LUQ visual deficit.

He was reviewed by PT and discharged with follow up noted below. Mr Cassidy experienced high levels of anxiety

throughout his admission and PRN diazepam doses at times.

Medication Changes

- Commenced Atorvastatin 80mg ON
- Commenced Aspirin 300mg OD, to switch to Clopidogrel 75mg OD 20th February as per GGC stroke protocol.
- 5 day supply of PRN Diazepam for anxiety, 2mg BD. For GP to review on discharge, not for ongoing prescription.

Follow up:

- For OPD Stroke with Dr Slavin on discharge +/- CST

Results Awaited

- Lipid profile awaited at time of writing
- Formal CXR report awaited

Thank you for your continued care for this patient,

Kind regards

Ward 53 Drs

Final Discharge Letter to Follow: Yes

COMMENTS TO BE ADDED TO IMMEDIATE DISCHARGE LETTER: 08.02.25**Diagnosis:**

1. MRI confirmed right occipital infarct with no obvious functional impairment at point of discharge
2. No significant extra-cranial vascular disease on CTA carotids - right PCOM occlusion noted
3. Structurally normal heart with no evidence of right to left shunt on bubble echocardiogram
4. Awaits outpatient ambulatory ECG monitor
5. Heavy smoker and cannabis user

Medication on discharge:

As per IDL - please note discharged to complete two weeks of Aspirin 300mg once daily, switching to Clopidogrel 75mg once daily thereafter

Further investigation and follow-up:

Outpatient ambulatory ECG

Clinic follow-up with me in 2-3 months

This 42-year-old gentleman was admitted to Glasgow Royal Infirmary under the care of the Stroke Team. He presented with a five week history of intermittent left-sided sensory motor symptoms and then a two day history of left-sided upper visual field loss.

Printed on 12/02/2025 07:44 by Sharon Murphy

Page 3 of 4

NHS Confidential: Personal data about a patient

Cassidy Neil

CHI: 2504826311

FDL 07/02/2025 v1

On initial examination he was noted to have a left superior quadrantanopia but this seemed to improve as his admission progressed. Initial brain imaging with CT showed an area of hypo-attenuation within the right occipital lobe and subsequent MRI confirmed this to be an acute infarct. The rest of his neurovascular investigations to date are as outlined above.

Mr Cassidy did well with a short period of Multi-Disciplinary input. He was very keen for early discharge home from the hospital and we felt it was reasonable to facilitate this on the 7th of February.

He awaits cardiac monitoring and I will be in touch with the result when it becomes available. I will offer him fairly soon clinic follow-up but please don't hesitate to contact me if you have any concerns in the interim.

Routine bloods unremarkable, cholesterol 5.1mmol/L, random glucose normal. Chest x-ray looked clear to my eyes but awaits formal reporting. No incidental findings of note on CTA carotids.

Kind regards.

Yours sincerely

Dr Helen Slavin

Dear Dr Zhang,

Re: Neil Cassidy DOB: 25/04/1982 CHI: 2504826311
Address: Flat 2-1, 16 Ingleby Drive, Glasgow, G31 2PT

Thank you for referring Mr Cassidy to Arran CMHT.

Your referral was discussed at our multi-disciplinary screening and allocations meeting on 18th February 2025.

From the information provided we would recommend that your patient is sign-posted to Lifelink for input to manage anxiety.

We could not identify a role for CMHT at this time so have rejected your referral on this occasion.

Yours sincerely

Maureen Downie

CJD/MG

Dear Sir/ Madam

RE: Mr Neil Cassidy DOB-25/04/1982, 2-2, 14 Ingleby Drive G31 2PT.

This letter is an additional letter to the one you already received from me. Mr Cassidy was admitted to Glasgow Royal Infirmary on the 4th of February 2025 due to symptoms of a stroke. Following discharge home his symptoms reported to me are of persistent left leg and left arm/hand weakness such that he is unable to stand for more than 5 minutes without his leg giving way and is unable to hold a banister, so that he is unable to use the stairs. He lives on the second floor. These symptoms he reports to me make him unsafe to try to use the stairs and I would be grateful if you could take this medical information into consideration towards his application towards a ground floor house, which would now seem appropriate.

Yours faithfully

Dr C. J. Dely

Dear Sir / Madam,

Re: Neil Cassidy - 25.04.82
Flat 2-2, 14 Ingleby Drive Dennistoun Glasgow G31 2PT

I confirm that Mr. Neil Cassidy had a stroke in February this year. He has some visual loss, and continues to have left leg symptoms. His mobility is not as good as it used to be, and he particularly finds difficulty on stairs. In my opinion, he would benefit from rehousing to a ground floor house.

Many thanks for taking this information into consideration for his application.

Yours faithfully,

Dr. C. J. Dely, GP.

2/2, 14 INGLEBY DRIVE, Glasgow, Lanarkshire, G31 2PT**

I have been provided with this patients cardiac monitor results. This was reported on the 22nd of April 2025. It shows sinus rhythm/sinus tachycardia/sinus bradycardia. There is no convincing evidence of paroxysmal atrial fibrillation in the context of a recent stroke. The gentleman is currently on Clopidogrel as well as statin and should continue them unchanged for now.

I trust the gentleman will be followed up in the clinic by my colleague Dr Slavin in due course.

Please do not hesitate to get in touch if there were any queries in this regard.

Kind regards.

Yours sincerely

Neil Cassidy; D.O.B: 25 Apr 1982; CHI: 2504826311
2/2, 14 INGLEBY DRIVE, Glasgow, Lanarkshire, G31 2PT

Attendance: Specialty - Geriatric Medicine; Clinic - STHSGE401D-DR H SLAVIN STROKE TUESDAY
PM CLINIC
Date and Time of Appointment - 24/06/2025 15:15

Clinical Comments:

Mr Cassidy did not attend his follow-up appointment at my Cerebrovascular Clinic on 24 June 2025.

I note that since his discharge from the ward he attended for a period of ambulatory ECG monitoring which although incomplete, showed no evidence of atrial fibrillation.

He has completed his neurovascular investigations and has been prescribed appropriate vascular secondary prevention. I have therefore not offered him a further clinic appointment at present. Please do not hesitate to re-refer if you have any concerns in the future.

Kind regards

Yours sincerely

Dr Helen Slavin

Supporting Information

Please answer the following questions. Use the box below to tell us what you know. Can you confirm all of this client's diagnosed conditions and prescribed medications (including dosage) and comment on their efficacy please. ----- This client has reported in April 2025 that following a series of minor strokes, they have been left unable to see properly and with left sided numbness in their arm and leg that have a significant impact on their ability to carry out tasks of self-care and daily living such as preparing a simple meal, taking nutrition, washing and dressing. Can you advise in the severity of their symptoms and have they improved at all since then? If not, are they currently under the care of any specialist support services? ----- To the best of your ability, would you consider Neil able to carry out these tasks independently with the use of an aid or would it be reasonable that he require supervision or assistance with them? Have he been referred for any Occupational Therapy input? ----- Can you give any information on Neil's sight impairment following his strokes and is this likely to improve in the short/med or long term? ----- Can you advise if there are any known barriers to this client's ability to engage with others face to face? Can you advise if they manage to attend their appointments and do they require any form of social support in order to do so? ----- Are you aware of any barriers that might impact this client's ability to stand and weight bear as well as walk on flat, level ground? Could you advise if they would be likely to walk between 50 metres and 200 metres safely and reliably and would they require the use of an aid to do so? If less than this, can you give any indication of how far they could walk on the majority of days and do they have any specialist input in relation to this restriction?

Please answer in the box below.

Mr Neil Cassidy
Flat 2-2
14 Ingleby Drive
G31 2PT

Dear Mr Cassidy

Thank you for handing your urine sample in. It tested positive for non-visible blood. I sent it away to the laboratory to check if you might have a urine infection but the lab did not find a urine infection.

It is important to check if there is blood in another urine specimen. Please could you bring a urine specimen to your stroke review appointment with one of our health care assistants. If you have not had this appointment by the time you come to an appointment with me, then please bring the urine sample to me. I have left a urine bottle at our reception desk if you need one.

Yours Sincerely

Dr C.J. Dely
